The Human Factor Graham Greene,1982 Maurice Castle is a high level operative in the British secret service during the Cold War He is deeply in love with his African wife who escaped apartheid South Africa with the help of his communist friend Despite his misgivings Castle decides to act as a double agent passing information to the Soviets to help his in laws in South Africa In order to evade detection he allows his assistant to be wrongly identified as the source of the leaks But when suspicions remain Castle is forced to make an even more excruciating sacrifice to save himself Originally published in 1978 *The Human Factor* is an exciting novel of espionage drawn from Greene s own experiences in MI6 during World War II and ultimately a deeply humanistic examination of the very nature of loyalty This edition features a new introduction by Colm Toibin *The Art of Indirection in British Espionage Fiction* Robert Lance Snyder,2011-07-25 In contrast to the classical detective story the spy novel tends to be considered a suspect somewhat subversive genre While previous studies have focused on its historical thematic and ideological dimensions this critical work examines British espionage fiction s unique narrative form which is typically elliptical oblique and recursive Featured works include eighteen novels by Eric Ambler Graham Greene Len Deighton John le Carre Stella Rimington and Charles Cumming most of which exemplify the existential or serious spy thriller Half of these texts pertain to the Cold War era and the other half to its aftermath in the so called Age of Terrorism *A Preface to Greene* Cedric, M.A. Ph.D. (Professor) Watts,2014-09-25 Lively informed and thorough this survey of the life and works of Graham Greene opens with a biographical account setting the writer in context of his times and describing and exploring the influences tensions and contradictions that occur throughout his work The second half of the book devotes itself to the art of Greene discussing his writing techniques recurring themes and imaginative preoccupations
