Rando, 2016-11-15 This book proposes that new music technologies attract unconscious desires for socialism and collectivity enabling millions of people living under capitalism to dream of repressed social alternatives Grounded in the philosophical writings of Ernst Bloch and Walter Benjamin the book examines file sharing technologies streaming services and media players as well as their historical antecedents such as the player piano cassette tape radio and compact disc alongside interpretations of fiction memoir and

albums Through the concept of wish images the unconscious hopes and desires for social alternatives that gather around new technologies the book identifies the repressed pre and post capitalist urges that attend our music technologies While these desires typically remain unconscious and tend to pass away not only unmet but also unrecognized Hope and Wish Image in Music Technology attempts to bring wishes for social alternatives to the surface at an auspicious moment of technological transition

The Last Secret of the Secret Annex is a captivating story of heroism betrayal and the devastating destructive power of a secret \_\_\_\_\_ Fascinating Not only

conveys the quiet heroism of what his mother contributed to Anne Frank s story but a sad playing out of a family s dysfunction of the pain of survival of the ripples of trauma flowing into succeeding generations DAILY TELEGRAPH

Borders and Boundaries in and around Dutch Jewish History David Wertheim, Judith Frishman, Ido Haan, Joel Cahen, 2025-10-01 The widespread and long held preconception that all Jews lived in ghettos and were relentlessly subject to discrimination prior to the Enlightenment has only slowly eroded Geographically speaking Jews rarely lived in ghettos and have never been confined within the borders of one nation or country Power struggles and wars often led to the creation of new national borders that divided communities once united But if identity formation is subject to change and negotiation it does not depend solely on shifting geographical borders A variety of boundaries were and are still being constructed and maintained between ethnic and other collective identities The contributors to this book like other post modernist historians turn their gaze to a wide range of identities once taken for granted identities located on the border lines between one country and the next between Jews and non Jews as well as on those between one group of Jews and another **Holocaust**

**Mothers and Daughters** Federica K. Clementi, 2013-12-03 In this brave and original work Federica Clementi focuses on the mother daughter bond as depicted in six works by women who experienced the Holocaust sometimes with their mothers sometimes not The daughters memoirs which record the all too human qualities of those who were persecuted and murdered by the Nazis show that the Holocaust cannot be used to neatly segregate lives into the categories of before and after Clementi s discussions of differences in social status along with the persistence of antisemitism and patriarchal structures support this point strongly demonstrating the tenacity of trauma individual familial and collective among Jews in twentieth century Europe **The Last Secrets of Anne Frank** Joop van Wijk-Voskuil, Jeroen De Bruyn, 2024-05-14 A historical investigation and family memoir intertwines the narrative of Anne Frank with the untold story of Bep Voskuil her protector and closest confidante in the Annex who risked her life to protect the Franks and formed a deep friendship with Anne

*Visualizing the Holocaust* David Bathrick, Brad Prager, Michael David Richardson, 2008 Visual representations are an essential but highly contested means of understanding and remembering the Holocaust Photographs taken in the camps in early 1945 provided proof of and visceral access to the atrocities Later visual representations such as films paintings and art installations attempted to represent this extreme trauma While photographs from the camps and later aesthetic reconstructions differ in origin they share goals and have raised similar concerns the former are questioned not as to veracity but due to their potential inadequacy in portraying the magnitude of events the latter are criticized on the grounds that the mediation they entail is unacceptable Some have even questioned any attempt to represent the Holocaust as inappropriate and dangerous to historical understanding This book explores the taboos that structure the production and reception of

Holocaust images and the possibilities that result from the transgression of those taboos Essays consider the uses of various visual media aesthetic styles and genres in representations of the Holocaust the uses of perpetrator photography the role of trauma in memory aesthetic problems of mimesis and memory in the work of Lanzmann Celan and others and questions about mass cultural representations of the Holocaust David Bathrick is Emeritus Professor of German at Cornell University Brad Prager is Associate Professor of German at the University of Missouri and Michael D Richardson is Associate Professor of German at Ithaca College Resounding Pasts Drago Momcilovic, 2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that re sound the past

**Paths to Teaching the Holocaust** Tibbi Dubois, 2008-01-01 Paths to Teaching the Holocaust edited by Tibbi Dubois is an important new book It offers contributions by childhood middle and secondary teacher educators from various regions and universities in the continental United States The array of material is a strength of this unique book Some contributors write about ways in which they infuse existing courses with Holocaust materials while others focus on where and when to begin the education of their students with respect to genocide Curriculum and instruction are examined from the perspective of existing research Preparing oneself to teach the material and personal teaching style are presented in ways that will be helpful both to new and to experienced teachers and those interested in the kinds of questions embedded in this material Educators and others will see how events focused upon in the Holocaust are connected to violations of human rights and social justice committed during the period of National Socialism Readers are reminded of the approximate nature of knowledge when it is not born of lived experience and are invited to raise questions about the Holocaust and other genocides The varied nature of the chapters offers a platform for engaging in discourse likely to pique the interest of people who have

limited experience with the topic and of those whose knowledge may be rich and of long standing Teachers often seek to bridge the gap between theory and practice and will find the References of each writer an invaluable resource The contents of Paths to Teaching the Holocaust will be useful to educators and others concerned with oppression human rights and social justice

**Holocaust Icons** Oren Baruch Stier, 2015-11-01 The Holocaust has bequeathed to contemporary society a cultural lexicon of intensely powerful symbols a vocabulary of remembrance that we draw on to comprehend the otherwise incomprehensible horror of the Shoah Engagingly written and illustrated with more than forty black and white images Holocaust Icons probes the history and memory of four of these symbolic relics left in the Holocaust's wake Jewish studies scholar Oren Stier offers in this volume new insight into symbols and the symbol making process as he traces the lives and afterlives of certain remnants of the Holocaust and their ongoing impact Stier focuses in particular on four icons the railway cars that carried Jews to their deaths symbolizing the mechanics of murder the Arbeit Macht Frei work makes you free sign over the entrance to Auschwitz pointing to the insidious logic of the camp system the number six million that represents an approximation of the number of Jews killed as well as mass murder more generally and the persona of Anne Frank associated with victimization Stier shows how and why these icons an object a phrase a number and a person have come to stand in for the Holocaust where they came from and how they have been used and reproduced how they are presently at risk from a variety of threats such as commodification and what the future holds for the memory of the Shoah In illuminating these icons of the Holocaust Stier offers valuable new perspective on one of the defining events of the twentieth century He helps readers understand not only the Holocaust but also the profound nature of historical memory itself
