A. Dawson,2002-05-30 Early modern historians have theorized about the nature of the new British history for a generation This study examines how British politics operated in practice during the age of Mary Queen of Scots and explains how the crises of the mid sixteenth century moulded the future political shape of the British Isles A central figure in these struggles was the fifth earl of Argyll

the most powerful magnate not only at the court of Queen Mary his sister in law but throughout the three kingdoms His domination of the Western Highlands and Islands drew him into the complex politics of the north of Ireland while his Protestant commitment involved him in Anglo Scottish relations His actions also helped determine the Protestant allegiance of the British mainland and the political and religious complexion of Ireland Argyll s career therefore demonstrates both the possibilities and the limitations of British history throughout the early modern period

Trans and Genderqueer Subjects in Medieval Hagiography Alicia Spencer-Hall,Blake Gutt,2025-10-01 Trans and Genderqueer Subjects in Medieval Hagiography presents an interdisciplinary examination of trans and genderqueer subjects in medieval hagiography Scholarship has productively combined analysis of medieval literary texts with modern queer theory yet too often questions of gender are explored almost exclusively through a prism of sexuality rather than gender identity This volume moves beyond such limitations foregrounding the richness of hagiography as a genre integrally resistant to limiting binaristic categories including rigid gender binaries The collection showcases scholarship by emerging trans and genderqueer authors as well as the work of established researchers Working at the vanguard of historical trans studies these scholars demonstrate the vital and vitally political nature of their work as medievalists Trans and Genderqueer Subjects in Medieval Hagiography enables the re creation of a lineage linking modern trans and genderqueer individuals to their medieval ancestors providing models

of queer identity where much scholarship has insisted there were none and re establishing the place of non normative gender in history
