Neal, 2013-02-01 In *Soul Babies* Mark Anthony Neal explains the complexities and contradictions of black life and culture after the end of the Civil Rights era. He traces the emergence of what he calls a post-soul aesthetic, a transformation of values that marked a profound change in African American thought and experience. Lively and provocative, *Soul Babies* offers a valuable new way of thinking about black popular culture and the legacy of the sixties. [The Black Experience in America](#)

Britannica Educational Publishing, 2010-04-01 The outlawing of desegregation and attainment of equal rights facilitated a new era of possibility throughout American society. This book details the historic deeds that redefined the American landscape since the 1940s, examining the explosion of creativity that ensued in the areas of literature, music, and sports as African Americans explore new opportunities and prospects. [The Making of a Black Scholar](#) Horace A. Porter, 2003 This captivating and illuminating book is a memoir of a young black man moving from rural Georgia to life as a student and teacher in the Ivy League, as well as a history of the changes in American education that developed in response to the civil rights movement, the war in Vietnam, and affirmative action. Born in 1950, Horace Porter starts out in rural Georgia in a house that has neither electricity nor running water. In 1968, he leaves his home in Columbus, Georgia, thanks to an academic scholarship to Amherst College and lands in an upper-class, mainly white world. Focusing on such experiences in his American education, Porter's story is both unique and representative of his time. *The Making of a Black Scholar* is structured around schools: Porter attends Georgia's segregated black schools until he enters the privileged world of Amherst College. He graduates, spending one semester at Morehouse College and moves on to graduate study at Yale. He starts his teaching career at Detroit's Wayne State University and spends the 1980s at Dartmouth College and the 1990s at Stanford University. Porter writes about working to establish the first black studies program at Amherst, the challenges of graduate study at Yale, the infamous Dartmouth Review, and his meetings with such writers and scholars as Ralph Ellison, Tillie Olsen, James Baldwin, and Henry Louis Gates Jr. He ends by reflecting on an unforeseen move to the University of Iowa, which he ties into a return to the values of his childhood on a Georgia farm. In his success and the fulfillment of his academic aspirations, Porter represents an era, a generation of possibility and achievement. **Memoirs Of A Cold War Son** Gaines Post, 2002-04-25 In 1951, Gaines

Post was a gangly, bespectacled, introspective teenager preparing to spend a year in Paris with his professorial father and older brother, his mother who suffered from extreme depression had been absent from the family for some time. Ten years later, now less gangly but no less introspective, he was finishing a two-year stint in the army in West Germany and heading toward Oxford on a Rhodes scholarship, having narrowly escaped combat in the Berlin crisis of 1961. His quietly intense

coming of age story is both self revealing and reflective of an entire generation of young men who came to adulthood before the Cuban Missile Crisis and the Vietnam War Post s experiences in high school in Madison Wisconsin and Paris his Camus influenced undergraduate years at Cornell University and his army service in Germany are set very effectively against the events of the Cold War McCarthyism and American crackdowns on dissidents American foreign and military policy in Western Europe in the nuclear age French and German life and culture crises in Paris and Berlin that nearly bring the West to war and the Post family to dissolution these are the larger scenes and subjects of his self disclosure as a contemplative conflicted Cold War agnostic His intelligent talented mother and her fragile health hover over Post s narrative informing his hesitant relationships with women and his acutely questioning sense of self worth His story is strongly academic and historical as well as political and military his perceptions and judgments lean toward no ideological extreme but remain true to the heroic ideals of his boyhood during the Second World War

Changing the Wor(l)d Stacey Young,2014-01-02

Changing the Wor l d draws on feminist publishing postmodern theory and feminist autobiography to powerfully critique both liberal feminism and scholarship on the women s movement arguing that both ignore feminism s unique contributions to social analysis and politics These contributions recognize the power of discourse the diversity of women s experiences and the importance of changing the world through changing consciousness Young critiques social movement theory and five key studies of the women s movement arguing that gender oppression can be understood only in relation to race sexuality class and ethnicity and that feminist activism has always gone beyond the realm of public policy to emphasize improving women s circumstances through transforming discourse and consciousness Young examines feminist discursive politics critiques social science methodology and proposes an alternative approach to understanding the women s movement
