Homelessness Steven Bouma-Prediger, Brain J. Walsh, 2008-06-03 This book is a brilliant use of metaphor that makes clear why the world leaves us feeling so uneasy **Existential America** George Cotkin, 2003-01-24 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus SPIN, 2009-12 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today's most innovative sounds Whether covering what's new or what's next SPIN is your monthly VIP pass to all that rocks

Landscape and the Ideology of Nature in Exurbia K. Valentine Cadieux, Laura Taylor, 2013-05-07 This book explores the role of the ideology of nature in producing urban and exurban sprawl It examines the ironies of residential development on the metropolitan fringe where the search for nature brings residents deeper into the world from which they are imagining their escape of Federal Express technologically mediated communications global supply chains and the anonymity of the global marketplace and where many of the central features of exurbia very low density residential land use monster homes and conversion of forested or rural land for housing contribute to the very problems that the social and environmental aesthetic of exurbia attempts to avoid The volume shows how this contradiction to live in the green landscape and to protect the green landscape from urbanization gets caught up and represented in the ideology of nature and how this ideology in turn constitutes and is constituted by the landscapes being urbanized **Reconsidering a Century of Flight** Roger D. Launius, Janet R. Daly Bednarek, 2015-12-01 On December 17 1903 Orville and Wilbur Wright soared into history during a twelve second flight on a secluded North Carolina beach Commemorating the 100th anniversary of the first flight these essays chart the central role that aviation played in twentieth century history and capture the spirit of innovation and adventure that has characterized the history of flight The contributors all leading aerospace historians consider four broad themes relating to the development of flight technology innovation and the technology of flight civil aeronautics and

government policy aerial warfare and aviation in the American imagination Through their attention to the political economic military and cultural history of flight the authors establish that the Wrights invention and all that followed in both air and space was one of the most significant technologies of the twentieth century fundamentally reshaping our world Supported by the First Flight Centennial Commission The contributors are Janet R Daly Bednarek Tami Davis Biddle Roger E Bilstein Hans Joachim Braun David T Courtwright Anne Collins Goodyear Roger D Launius William M Leary David D Lee W David Lewis John H Morrow Dominick A Pisano and A Timothy Warnock Climate Change and Society John Urry, 2011-06-20 This is the first book to develop a proper sociology of climate change and will be an excellent companion to Tony Giddens The Politics of Climate Change **After Broadcast News** Bruce A. Williams, Michael X. Delli Carpini, 2011-09-26 The new media environment has challenged the role of professional journalists as the primary source of politically relevant information After Broadcast News puts this challenge into historical context arguing that it is the latest of several critical moments driven by economic political cultural and technological changes in which the relationship among citizens political elites and the media has been contested Out of these past moments distinct media regimes eventually emerged each with its own seemingly natural rules and norms and each the result of political struggle with clear winners and losers The media regime in place for the latter half of the twentieth century has been dismantled but a new regime has yet to emerge Assuring this regime is a democratic one requires serious consideration of what was most beneficial and most problematic about past regimes and what is potentially most beneficial and most problematic about today s new information environment **Sensation** Thalma Lobel, 2014-04-29 Like the revolutionary bestsellers Predictably Irrational and Emotional Intelligence Sensation is an exciting completely new view of human behavior a new psychology of physical intelligence or embodied cognition that explains how the body unconsciously affects our everyday decisions and choices written by one of the world s leading psychologists From colors and temperatures to heavy objects and tall people a whole symphony of external stimuli exerts a constant influence on the way your mind works Yet these effects have been hidden from you until now Drawing on her own work as well as from research across the globe Dr Thalma Lobel reveals how shockingly susceptible we are to sensory input from the world around us An aggressive negotiator can be completely disarmed by holding a warm cup of tea or sitting in a soft chair Clean smells promote moral behavior but people are more likely to cheat on a test right after having taken a shower Red colored type causes us to fail exams but red dresses make women sexier and teams wearing red jerseys win more games We take questionnaires attached to heavy clipboards more seriously and believe people who like sweets to be nicer Ultimately the book s message is startling Though we claim ownership of our decisions judgments and values they derive as much from our outside environment as from inside our minds Now Sensation empowers you to evaluate those outside forces in order to make better decisions in every facet of your personal and professional lives **Sneaking Out** Prudence Mackintosh, 2002-11-01 From the endless battles of sibling rivalry to the endless worries about getting indifferent students

into and then graduated from college raising boys is the adventure of a lifetime for any mother Prudence Mackintosh has not only survived the adventure but has also written about it with her signature wit and style Her essays about life with sons Jack Drew and William have entertained the readers of Texas Monthly and other prominent magazines for nearly three decades offering solace to similarly beleaguered parents and a knowing chuckle to everyone who enjoys watching the real life sitcom of a fundamentally happy intact family Sneaking Out completes the story that Mackintosh began in her earlier books Thundering Sneakers and Retreads In this collection of new and previously published essays she recounts life with her adolescent sons as they race headlong to first jobs first driver s licenses first girlfriends and first flights away from the family nest She also follows them into the college years when both parents and sons have to find a new balance in holding on and letting go Along the way she offers wise and witty reflections on being a woman at midlife supporting her sons through the beginning of their adult lives and her parents through the end of theirs

IN THE BEGINNING: Great Opening Lines From Your Favorite Books Hans Bauer, 2023-11-04 Dear Reader IN THE BEGINNING presents the all important first sentence of 1 000 famous and not so famous novels plus a handful of short stories A smorgasbord of popular fiction from around the world ideally these opening lines will have a tremendous attraction for lovers of literature everywhere IN THE BEGINNING is more than just a novelty book Anyone who loves books not only enjoys being reminded of their favorites but also delights in finding a good one they ve missed Those who relish reading and writing will savor a collection that brings back memories of beloved books and often the times in which they were read From

Virginia Woolf to Tom Wolfe from Edith Wharton to Stephen King from Ernest Hemingway to Gabriel Garcia Marquez masterpieces of world literature are juxtaposed with trendy best sellers romances with westerns classics with cult favorites Some lines are well remembered others rarely recalled still others are brilliant beginnings from relatively obscure books But in every case IN THE BEGINNING confirms how powerful a sentence can be Bumping into a familiar line from a beloved novel fills the reader's mind with imagery The great fish moved silently through the night water propelled by short sweeps of its crescent tale Jaws by Peter Benchley While dazzling openers don't guarantee a worthwhile novel expectations run high when we're introduced with Paint me a railroad station then ten minutes before dark John Cheever's Bullet Park or There were 117 psychoanalysts on the Pan Am flight to Vienna and I'd been psychoanalyzed by at least six of them Fear of Flying by Erica Jong Some books reach their zenith with wonderful first lines that are never matched I had this story from one that had no business to tell it to me or to any other That's our initial meeting with the Tarzan series Conversely some rather mundane opening lines are made better because we know the marvelous story that follows like B Traven's Treasure of the Sierra Madre The bench on which Dobbs was sitting was not so good Perhaps not truly memorable but a truly unforgettable character and Bogie didn't do badly by him either Enjoy Hans Bauer

Empire of the Air Jenifer Van Vleck, 2013-11-01

Jenifer Van Vleck's fascinating history reveals the central role commercial aviation played in the United States ascent to global preeminence in the twentieth century As U.S. military and economic influence grew the federal government partnered with the aviation industry to deliver American power across the globe and to sell the idea of the American Century to the public at home and abroad The airplane promised to extend the frontiers of the United States to infinity as Pan American World Airways president Juan Trippe said As it accelerated the global circulation of U.S. capital consumer goods technologies weapons popular culture and expertise few places remained distant from Wall Street and Washington Aviation promised to secure a new type of empire an empire of the air instead of the land which emphasized access to markets rather than the conquest of territory and made the entire world America's sphere of influence By the late 1960s however foreign airlines and governments were challenging America's control of global airways and the domestic aviation industry hit turbulent times Just as the history of commercial aviation helps to explain the ascendancy of American power its subsequent challenges reflect the limits and contradictions of the American Century

The Best American Travel Writing 2002 Frances Mayes, Jason Wilson, 2002 This third volume in the series presents more exemplars of armchair reading in this case armchair listening taking people away from daily routine to exotic often remote settings

Sky As Frontier David T. Courtwright, 2005

Aviation's frontier stage lasted a scant three decades then vanished as flying became a settled experience Sky as Frontier recreates that pioneer world and shows how commercial and military imperatives destroyed it by routinizing flight Jacket

Nuff Said Tyrus, 2023-11-21 The New York Times and Wall Street Journal bestselling author of Just Tyrus returns in his inimitable style with deeper reminiscences on the life that shaped him and how he views the world we're living in In this

sequel you'll delve into some of Tyrus's extraordinary life experiences and see how they connect with the most pressing issues of our time: immigration, crime, bullying, athletics, politics, China, parenting, and respect for ourselves, each other, and the planet. It is Tyrus's commentary on all of these issues that has the power to silence a room. When he talks, people listen. There's so much wisdom and common sense in his takes that you'll finish this book more informed and more optimistic about the future, and we could all use that. Dana Perino: A rare voice of reason and authentic storyteller who never holds back. Tyrus picks up where he left off in *Just Tyrus*, delivering a series of gut-wrenching, heart-rending, and redemptive tales from his remarkable life and coupling them with no-nonsense insights on the hottest issues being discussed around the country. Tyrus remains one of the most distinct original voices in any medium, if not one of the most brutally honest to enter the realm of television, since Charles Krauthammer. I mention them both because they're not different: both deep thinkers who leave inedible marks on those who are lucky enough to cross their paths. It's Tyrus's thinking that drives this book, and you'll get it through his powerful words. Writers spend years trying to concoct a voice; Tyrus makes it seem like it was always there. Greg Gutfeld: Whether he's tackling the issues of race and activism in America today or confronting his past with stories of family relationships, wrestling, and more, this is pure Tyrus at his unbridled best. The parallels he draws between current culture and his personal past are insightful, provocative, and profound. *Nuff Said* is a powerful reflection on a complex life and a complicated world.

Living in Limbo Donald Capps, Nathan Carlin, 2010-09-01. Limbo has traditionally been viewed as a place between heaven on the one hand and purgatory and hell on the other, to which the patriarchs who lived under the old law and babies who died before being baptized into the Christian faith have been consigned. Like purgatory, it is a dark place but not deprived of grace. Now that the Roman Catholic Church has declared that limbo is not an official church teaching, the idea of limbo has been freed from ecclesiastical constraints and available for reflection on the human condition on this side of the grave. *Living in Limbo* by Donald Capps and Nathan Carlin focuses on the acute limbo situations that are an integral part of human life, including the vicissitudes of growing up, of forming committed relationships, of finding employment and staying employed, of undergoing life-threatening illnesses, and of experiencing dislocation and doubt. Using cases and examples of real-life persons, the book identifies the forms of distress likely to occur throughout the duration of the limbo experience and it also identifies the internal and external resources that individuals draw upon as they cope with the stresses and uncertainties of living in limbo. Drawing on the traditional view, especially reflected in Christian art, that Christ descends into limbo to comfort and liberate its occupants, *Living in Limbo* comes down on the side of hope versus despair. In reading about other limbo dwellers, readers will meet themselves or someone they love and care about, and will be encouraged by the very fact that they are not alone. Although it is not a pleasant place to be, limbo is not a place of solitary confinement, and one derives strength and resilience from the presence of the others.
