Emerging Voices Human Sciences Research Council, Education Policy Consortium (South Africa), 2005 This examination graphically illustrates the conditions that make dreams of a better life for all virtually unrealizable in rural areas of South Africa Through the voices of rural people themselves this study tells not only what the problems surrounding education are but also what can and should be done when the South African government launches its offensive against poverty in rural areas Rigorous and qualitative the text is an overview of the need of great numbers of people for the opportunities and capabilities that education can provide for their futures It also shows the existing situation of many impoverished populations worldwide and illustrates that poverty and inequality continue where such issues are not addressed **Limpopo's Legacy** Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba **Beyond Our Wildest Dreams** Ineke van Kessel, 2000 The 1980s in South Africa were marked by protest violent confrontation and international sanctions Internally the country saw a bewildering growth of grassroots organizations including trade unions civic associations in the black townships student and other youth organizations church based groups and women's movements many of which operated under the umbrella of the United Democratic Front UDF **Beyond Our Wildest Dreams** explores the often conflicted relationship between the UDF's large scale resistance to apartheid and its everyday struggles at the local level In hindsight the UDF can be seen as a transitional front preparing the ground for leaders of the liberation movement to return from exile or prison and take over power But the founding fathers of the UDF initially had far more modest ambitions Interviews with Cachalia and other leading personalities in the UDF examine the organization's workings at the national level while stories of ordinary people collected by the author illuminate the grassroots activism so important to the UDF's success Even in South Africa writes Ineke van Kessel who covered the anti apartheid movement as a journalist resistance was not the obvious option for ordinary citizens Van Kessel shows how these people were mobilized into forming a radical social movement that developed a highly flexible and innovative form of resistance that ultimately ended apartheid From publisher's description **Caring Science in Phc** Mogalagadi Makua, Thuledi Makua, 2013-06-20 This **Caring Science in PHC** a guide for nurses in Primary Health Care intends to lead the lecturers facilitating the Clinical assessment diagnosis treatment and diagnosis Primary Health Care and the basic Community Nursing Sciences students on the assessment of the client in the Primary Health Care PHC clinics in both rural and urban countries The book teaches the integration of the caritas processes in the physical assessment Lecturers and students in other countries that have PHC as a qualification will also benefit from this book This book is based on the clinic practice setting as well as the needs and the expectations of the patients ***Being Scholarly*** Liezel Frick, Vernon Trafford, Magda Fourie-Malherbe, 2016-01-05 In this discussion of higher education studies in South Africa we
