Carroll, 2017-07-05 Taking as axiomatic the concept that artistic output does not simply reflect culture but also shapes it the essays in this interdisciplinary collection take a holistic approach to the cultural fashioning of sexualities drawing on visual art theatre music and literature in sacred and secular contexts Although there is diversity in disciplinary approach the interpretations and readings offered in each essay have a historical basis Approaching the topic from the point of view of both visual and auditory media this volume paints a comprehensive picture of artists challenges to erotic boundaries and contributes to new historicizing thinking on sexualities Collectively the essays demonstrate the role played by artistic production visual arts literature theatre and music in fashioning policing and challenging early modern sexual boundaries and thus help to identify the ways in which the arts contributed to both the disciplining and the exploration of a range of sexualities **Venus and the Arts of Love in Renaissance Florence** Rebekah Compton, 2021-03-11 In this volume Rebekah Compton offers the first survey of Venus in the art culture and governance of Florence from 1300 to 1600 Organized chronologically each of the six chapters investigates one of the goddess

Painted Palaces: The Rise of Secular Art in Early Renaissance Italy, 2009 Even many Renaissance specialists believe that little secular painting survives before the late fifteenth century and its appearance becomes a further argument for the secularizing of art This book asks how history changes when a longer record of secular art is explored It is the first study in any language of the decoration of Italian palaces and homes between 1300 and the mid Quattrocento and it argues that early secular painting was crucial to the development of modern ideas of art Of the cycles discussed some have been studied and published but most are essentially unknown A first aim is to enrich our understanding of the early Renaissance by introducing a whole corpus of secular painting that has been too long overlooked Yet Painted palaces is not a study of iconography In examining the prehistory of painted rooms like Mantegna s Camera Picta the larger goal is to rethink the history of early Renaissance art

Art and the

Augustinian Order in Early Renaissance Italy Louise Bourdua, Anne Dunlop, 2007 Art and the Augustinian Order in Early Renaissance Italy views art in the formative period of the Augustinian Hermits an order with a particularly difficult relation to art As a first detailed study of visual culture in the Augustinian order this book will be a basic resource making available previously inaccessible material discussing both well known and more neglected artworks and engaging with fundamental methodological questions for pre modern art and church history from the creation of religious iconographies to the role of gender in art Wounds of Love Frank Graziano, 2004 St Rose of Lima Isabel Flores y Oliva 1586 1617 was canonized in 1671 as the first saint of the New World and Patron of the Americas In this engrossing new biography Frank Graziano offers the most comprehensive examination of the life of Rose to appear in any language An obscure self mortifying mystic Rose seems a strange choice for the distinction of first American saint Graziano argues that the cult that grew up around St Rose during her life and greatly expanded after her death was seen by both Church and State as a challenge and even a threat to authority For that reason he contends the Church acted quickly to render her harmless by bringing her into the fold Graziano goes on to consider Rose s ascetic Christianity in its cultural context He seeks to discover why the severe austerities and mortifications of female piety that today are regarded as psychopathological were lauded as exemplary means of worship in the seventeenth century In fact he shows St Rose s behavior and experiences were initially regarded as pathological by many significant observers within her own culture but such assessments were gradually dismissed as her saintly image was constructed Drawing on key archival sources and the insights offered by psychoanalytic theory Graziano constructs a compelling portrait of one of the Catholic Church s most beloved saints *Love and Death in Renaissance Italy* Thomas V.
