Kraut, Paul Resnick, 2012-03-23 How insights from the social sciences including social psychology and economics can improve the design of online communities Online communities are among the most popular destinations on the Internet but not all online communities are equally successful For every flourishing Facebook there is a moribund Friendster not to mention the scores of smaller social networking sites that never attracted enough members to be viable This book offers lessons from theory and empirical research in the social sciences that can help improve the design of online communities The authors draw on the

literature in psychology economics and other social sciences as well as their own research translating general findings into useful design claims They explain for example how to encourage information contributions based on the theory of public goods and how to build members commitment based on theories of interpersonal bond formation For each design claim they offer supporting evidence from theory experiments or observational studies

FOUNDATIONS OF COUNSELING

PEOPLE Michael E. Illovsky, 2013-04-01 Those in the counseling profession are interacting more with people from other cultures the U S sphere of influence throughout the world is spreading increasingly we are providing services to clients who are not Caucasian or of European heritage and our educational programs have been active in training both domestic students of diverse ethnic backgrounds as well as foreign students These factors combine to contribute to the need for those who provide counseling to understand the elements involved in interacting with a wide spectrum of people This book meets that need by providing a brief synopsis on such topics as common factors values universals cross cultural competence and models approaches and psychological perspectives of human behavior theories of personality The emphasis is on material that relies more on the use of the scientific method and data instead of anecdotal and experiential literature For the reader who is interested in obtaining information from which statements are derived there are references to investigate the material further Unlike other book that stress the barriers between counselor and client this book adds the perspective that there are factors that facilitate interactions between the two There are also frequent cross cultural examples in the book To facilitate awareness of similarities and differences in views of human behavior samples of African Arab Chinese and European American perspectives are represented There is also a relatively large section on applications This consists of such subjects as cross cultural aspects of psychological theories ethics research tests Euro American approaches and experiences client characteristics client and counselor interactions and therapeutic techniques Many other topics are covered as well Students and professionals in the fields of counseling and psychology will find this book to be an invaluable addition to their library

Informed is best Amy Brown, 2019 From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert Did you see that headline Did you hear that story on TV Have you heard the latest about what they say is best In a world overflowing with information telling you what is best for you and your baby making decisions can feel overwhelming Who do you trust Who is telling the truth And how do you know if what they are saying is right for you How By becoming your own expert in sorting the media spin and politics from the actual facts and data This isn't a book that is going to tell you which decisions to make or that there is ever one right answer It is not going to tell you that the same thing is always best for everyone Instead this is a guide to help you evaluate information and evidence to decide what is right for you your body and your baby In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making Next it will help you spot who is funding leading and promoting research and how this can affect the content of what is shared Finally it will talk you through reading

understanding and evaluating evidence for yourself across topics in pregnancy birth and caring for babies You ll learn how to spot weaknesses in methods used how to determine the real risk for you and your baby and how wider context and other factors can influence what research means for you Information is power Making your own decisions that are right for you is empowering Informed is best **The Oxford Handbook of Psychological Situations** John F.
