Artistic Bedfellows Histories Theories And Conversations In Collaborative Art Practices 2008 09 17:

Thai Art David Teh, 2017-04-07 The interplay of the local and the global in contemporary Thai art as artists strive for international recognition and a new meaning of the national Since the 1990s Thai contemporary art has achieved international recognition circulating globally by way of biennials museums and commercial galleries Many Thai artists have shed identification with their nation but Thainess remains an interpretive crutch for understanding their work In this book the curator and critic David Teh examines the tension between the global and the local in Thai contemporary art Writing the first serious study of Thai art since 1992 and noting that art history and criticism have lagged behind the market in recognizing it he describes the competing claims to contemporaneity as staked in Thailand and on behalf of Thai art elsewhere He shows how the values of the global art world are exchanged with local ones how they do and don't correspond and how these discrepancies have been exploited How can we make sense of globally circulating art without forgoing the interpretive resources of the local national or regional context Teh examines the work of artists who straddle the local and the global becoming willing agents of assimilation yet resisting homogenization He describes the transition from an artistic subjectivity couched in terms of national community to a more qualified postnational one against the backdrop of the singular but waning sovereignty of the Thai monarchy and sustained political and economic turmoil Among the national currencies of Thai art that Teh identifies are an agricultural symbology a Siamese poetics of distance and itinerancy and Hindu Buddhist conceptions of charismatic power Each of these currencies has been converted to a legal tender in global art signifying sustainability utopia the conceptual and the relational but what is lost and what may be gained in such exchanges Artistic Bedfellows Holly Crawford, 2008-09-17 Artistic Bedfellows is an international interdisciplinary collection of historical essays critical papers case studies interviews and comments from scholars and practitioners that shed new light on the growing field of collaborative art This collection examines the field of collaborative art broadly while asking specific questions with regard to the issues of interdisciplinary and cultural difference as well as the psychological and political complexity of collaboration The diversity of approach is needed in the current multimedia and cross disciplinarily world of art This reader is designed to stimulate thought and discussion for anyone interested in this growing field and practice **Art Attacks** Malvika Maheshwari, 2018-10-16 Since the end of the 1980s in India self styled representatives of a variety of ascriptive groups religious caste regional and linguistic have been routinely damaging artworks disrupting their exhibition and threatening and assaulting artists and their supporters Often these acts are claimed to be a protest against allegedly hurtful or offensive artworks wherein its regularity and brazenness has led to an intensifying sense of fear frustration and anger within the art world Art Attacks tells the story of this phenomenon and maps the concrete political transformations that have informed the dynamic unfolding of violent attacks on artists Based on extensive interactions with offence takers assailants and artists the author argues that these attacks are not simply anti democratic but are dependent in perverse ways on the

very logics of democracy s functioning in India At the same time they have been contained at least until now by this very democratic system which has prevented the spiralling of attacks into an outright condition of art plunder **Screen**

Stein, 2024-05-01 An evocative portrait of one of the most influential and enigmatic American art dealers of the 1960s Barbara Rose The New York Times In 1959 Richard Bellamy was a witty poetry loving beatnik on the fringe of the New York art world By 1965 he was representing Mark di Suvero had been the first to show Andy Warhol s pop art and had introduced the new genre of installation art An eccentric art dealer and founder of the Green Gallery on Fifty Seventh Street Bellamy helped discover many of the innovative successors to the abstract expressionists including Claes Oldenburg James Rosenquist Donald Judd Dan Flavin Walter de Maria and many others But uninterested in anything more than showing the artists he loved Bellamy slowly slid into obscurity while fellow dealers such as Leo Castelli and Sidney Janis capitalized on the stars he helped find Based on decades of research and on hundreds of interviews with Bellamy s artists friends colleagues and lovers Judith E Stein s Eye of the Sixties rescues the legacy of the elusive art dealer and tells the story of a counterculture that became the mainstream Ranging from the Beat orbits of Provincetown to white glove events like Guggenheim s opening gala from Norman Mailer s parties to historic downtown Happenings Richard Bellamy s story is a remarkable window on the art of the twentieth century and the making of a generation s aesthetic Judith E Stein s engrossing impressively researched consistently readable and often entertaining tale restores a crucial figure to his rightful place in the annals of postwar American art Lilly Wei Art in America By using Belamy s unlikely ascent as a prism Ms Stein brings to

Johanna Billing, Maria Lind, Lars Nilsson, 2007 Taking the Matter into Common Hands maps out the issues surrounding
collaborative art from a practitioner's perspective With contributions from Marion von Osten Nav Haq 16 Beaver
Copenhagen Free University Maria Lind and Lars Nilsson it examines the working relations between artists and other
producers of culture and explores the future of collective action in the art world In recent years the art world has shown a
renewed interest in collective work and activity Collaborations between artists and artists artists and curators and artists and
outside professionals have begun to rival the traditional focus on the individual artist This type of collaboration has called
into question how we view works of art that are not the voice of a single individual and how that impacts on the concept of
