The Facts on File Companion to the World Novel Michael Sollars, Arbolina Llamas Jennings, 2008 *Una muñeca rusa* Adolfo Bioy Casares, 1991 Solo los grandes maestros como Bioy Casares dominan con maestria el arte de contar historias sencillas propias de la pequena odisea cotidiana del ser humano que no obstante sin que el lector perciba exactamente cuando ni como lo precipitan en una atmosfera de inaprensible extraneza o enajenacion a veces inquietante

Theoretical Fables Alicia Borinsky, 2015-09-11 Alicia Borinsky argues that the contemporary Latin American novel does not just ingeniously dismantle the referential claims of the more traditional novel it offers a postmodern version of the lessons taught by fiction Latin American fiction perhaps the most inventive literature of recent decades seems marked by its self reflexivity by its playful relationship to history and the everyday and by its concerns with the ways in which language works But is it Borinsky asks really a literature whose primary goal is to raise metafictional questions about writing and reading While the effects of this literature include dismantling the illusions of realism naturalism and historicism the haunting and disturbing energy of its major works lies in their capacity of invoke a region beyond literature through literature *Theoretical Fables* progresses by way of close readings of the works of eight canonical and not quite canonical Latin American Authors Borinsky argues that the Latin American theoretical fable has its origins in the work of the early twentieth century Argentinean writer Macedonio Fernandez In this light she studies the works of Jorge Luis Borges Gabriel Garcia Marquez Julio Cortazar Jos Donoso Adolfo Bioy Casares Manuel Puig and Maria Luisa Bombal

At the Threshold of the Image Andrea Pinotti, 2025-09-16 An exploration of the impact of immersive experiences on visual practices from cave painting to virtual reality In this groundbreaking book philosopher Andrea Pinotti explores the impacts of a desire that has motivated human beings since prehistory the desire to enter an image He proposes that over the centuries every culture has

tried to realize this wish with whatever visual resources were available at the time and today's virtual reality technologies seem close to fulfilling it. The image in VR becomes an immersive 360 degree environment and the frame that used to confine it to a world apart disappears. Even the physical medium in which the image materializes appears to be transparent. However, Pinotti insists that once the border between the real world and the iconic world becomes permeable we are faced with a troubling two way passage: we penetrate the world of the image but the image floods into our world. The desire for being encompassed by the image he shows is accompanied by fear of this overflowing. In its analysis of this desire, fear, *At the Threshold of the Image* takes the reader on an extraordinary journey from the myths of Narcissus and Pygmalion to contemporary VR headsets, passing through the pictorial traditions of trompe l'oeil and living sculptures, the mirrors in Alice in Wonderland, illusionistic architecture, panoramas and phantasmagorias, and 3D cinema.

Touchstones of Gothic

Horror David Huckvale, 2014-01-10 Gothic cinema typified by the films of Universal Hammer, Amicus and Tigon grew out of an aesthetic that stretches back to the 18th century and beyond even to Shakespeare. This book explores the origin of Gothic cinema in art and literature, tracing its connection to the Gothic revival in architecture, the Gothic novel, landscape ruins, Egyptology, occultism, sexuality, the mythology of werewolves, the philosophy of Hegel and many other aspects of the Romantic and Symbolist movements.

Life Without End

Karl Siegfried Guthke, 2017 A groundbreaking study examining major literary treatments of the idea of earthly immortality, throwing into relief fascinating instances of human self-awareness over the past three hundred years.

The Mark of the Sacred

Jean-Pierre Dupuy, 2023-05-25 This study of religion and violence forces us to reexamine some of our most cherished self-images of modern liberal democratic societies. Charles Taylor, Jean-Pierre Dupuy, prophet of what he calls enlightened doomsaying, has long warned that modern society is on a path to self-destruction. In this book, he pleads for a subversion of this crisis from within, arguing that it is our lopsided view of religion and reason that has set us on this course. In denial of our sacred origins and hubristically convinced of the powers of human reason, we cease to know our own limits; our disenchanted world leaves us defenseless against a headlong rush into the abyss of global warming, nuclear holocaust, and the other catastrophes that loom on our horizon. Reviving the religious anthropology of Max Weber, Emile Durkheim, and Marcel Mauss, and in dialogue with the work of René Girard, Dupuy shows that we must remember the world's sacredness in order to keep human violence in check. A metaphysical and theological detective, he tracks the sacred in the very fields where human reason considers itself most free from everything it judges irrational: science, technology, economics, political and strategic thought. In making such claims, *The Mark of the Sacred* takes on religion bashers, secularists, and fundamentalists at once. Written by one of the deepest and most versatile thinkers of our time, it militates for a world where reason is no longer an enemy of faith. *The Mark of the Sacred* is one of those rare books which in an enlightened, well-organized state should be printed and freely distributed in all schools.

Encyclopedia of the World

Novel, 1900 to the Present Michael David Sollars, Arbolina Llamas Jennings, 2015-04-22 Praise for the print edition: a useful

and engaging reference to the vast world of the novel in world literature The Cambridge Companion to World Literature Ben Etherington, Jarad Zimbler, 2018-11-22 This Companion presents lucid and exemplary critical essays introducing readers to the major ideas and practices of world literary studies The Oxford Handbook of the Latin American Novel Juan E. De Castro, Ignacio López-Calvo, 2023 The Latin American novel burst onto the international literary scene with the Boom era led by Julio Cortázar, Gabriel García Márquez, Carlos Fuentes and Mario Vargas Llosa and has influenced writers throughout the world ever since. García Márquez and Vargas Llosa each received the Nobel Prize in literature and many of the best known contemporary novelists are inspired by the region's fiction. Indeed, magical realism, the style associated with García Márquez, has left a profound imprint on African American, African, Asian, Anglophone Caribbean and Latinx writers. Furthermore, post-Boom literature continues to garner interest from the novels of Roberto Bolaño to the works of César Aira and Chico Buarque to those of younger novelists such as Juan Gabriel Vásquez, Alejandro Zambra and Valeria Luiselli. Yet for many readers the Latin American novel is often read in a piecemeal manner, delinked from the traditions, authors and social contexts that help explain its evolution. The Oxford Handbook of the Latin American Novel draws literary, historical and social connections so that readers will come away understanding this literature as a rich and compelling canon. In forty-five chapters by leading and innovative scholars, the Handbook provides a comprehensive introduction helping readers to see the region's intrinsic heterogeneity; for only with a broader view can one fully appreciate García Márquez or Bolaño. This volume charts the literary tradition of the Latin American novel from its beginnings during colonial times, its development during the nineteenth and the first half of the twentieth century and its flourishing from the 1960s onward. Furthermore, the Handbook explores the region's representations of identity, narrative trends and authors that make this literature so diverse and fascinating, reflecting on the Latin American novel's position in world literature David Lamelas María José Herrera, Kristina Newhouse, 2017-09-16 Published by the University Art Museum, California State University Long Beach in association with Getty Publications The renowned Argentine conceptual artist David Lamelas, born 1946, has an expansive oeuvre of sensory, restive and evocative work. This book, published to coincide with the first monographic exhibition of the artist's work in the United States, offers an incisive look into Lamelas's art. The guiding analytic theme is the artist's adaptability to place and circumstance, which invariably influences his creative production. Lamelas left Argentina in the mid 1960s to study at Saint Martin's in London. Since then, he has divided his time among various cities. While the typical narrative invoked about artists like Lamelas is one of internationalism, his nomadic movement from one place or conceptual framework to the next has always been more postnational than international Memory in a Mediated World Andrea Hajek, Christine Lohmeier, Christian Pentzold, 2016-02-10 Considering both retrospective memories and the prospective employment of memories, *Memory in a Mediated World* examines troubled times that demand resolution, recovery and restoration. Its contributions provide empirically grounded analyses of how media are employed by individuals and social groups to connect the past, the present

and the future *A History of Argentine Literature* Alejandra Laera, Mónica Szurmuk, 2024-05-16 Argentine Literature continues to figure prominently in academic programs in the English speaking world and it has an increasing presence in English translation in international prizes and trade journals *A History of Argentine Literature* proposes a major reimagining of Argentine literature attentive to production in indigenous and migration languages and to current debates in Literary Studies Panoramic in scope and incisive in its in depth studies of authors works and theoretical problems this volume builds on available scholarship on canonical works but opens up the field to include a more diverse rendering as well as engaging with the full spectrum of textual interventions from travel writing to drama from popular gauchesca to celebrated avant guard works Working at the crossroads of disciplines languages and critical traditions this book accounts for the wealth of Argentine cultural production and maps the rich diverse and often overlooked history of Argentine literature **Magical Realism** Lois Parkinson Zamora, Wendy B. Faris, 1995 On magical realism in literature **Ubiquitous Computing, Complexity and Culture** Ulrik Ekman, Jay David Bolter, Lily Diaz, Morten Sondergaard, Maria Engberg, 2015-12-22 The ubiquitous nature of mobile and pervasive computing has begun to reshape and complicate our notions of space time and identity In this collection over thirty internationally recognized contributors reflect on ubiquitous computing s implications for the ways in which we interact with our environments experience time and develop identities individually and socially Interviews with working media artists lend further perspectives on these cultural transformations Drawing on cultural theory new media art studies human computer interaction theory and software studies this cutting edge book critically unpacks the complex ubiquity effects confronting us every day The companion website can be found here <http://ubiquity.dk>
