01-01-2017, Are You a Witch? Inelia Benz,2016-01-18

Do you feel different from others around you Do you sometimes know what will happen in the future Do you have a tendency to answer people before they ask a question Have your friends come to you for answers since you were a child Do you want to find out if you are a witch There is an overwhelming tendency in popular fiction to show an ordinary person who has some extraordinary skills being visited by an old mage a spirit or a messenger one day and being told they are a witch or a wizard or a shaman But for most of us that older wiser person never arrives we have to do the discovering ourselves This book will explore extraordinary skills show you how to test if you have them and if you don t it will show you how to develop them It also explains in depth what a witch is and what a witch s path entails It also delineates other paths a person with an interest or abilities in extraordinary skills can follow

Re-collection Richard Rinehart,Jon Ippolito,2014-06-13 The first book on the philosophy and aesthetics of digital preservation examines the challenge posed by new media to our long term social memory How will our increasingly digital civilization persist beyond our lifetimes Audio and videotapes demagnetize CDs delaminate Internet art links to websites that no longer exist Amiga software doesn t run on iMacs In Re collection Richard Rinehart and Jon Ippolito argue that the vulnerability of new media art illustrates a larger crisis for social memory They describe a variable media approach to rescuing new media distributed across producers and consumers who can choose appropriate strategies for each endangered work New media art poses novel preservation and conservation dilemmas Given the ephemerality of their mediums software art installation art and interactive games may be heading to obsolescence and oblivion Rinehart and Ippolito both museum professionals examine the preservation of new media art from both practical and theoretical perspectives offering concrete examples that range from Nam June Paik to Danger Mouse They investigate three threats to twenty first century creativity technology because much new media art depends on rapidly changing software or hardware institutions which may rely on preservation methods developed for older mediums and law which complicates access with intellectual property constraints such as copyright and licensing Technology institutions and law however can be enlisted as allies rather than enemies of ephemeral artifacts and their preservation The variable media approach that Rinehart and Ippolito propose asks to what extent works to be preserved might be medium independent translatable into new mediums when their original formats are obsolete

Matter and Desire Andreas Weber,2017 Nautilus Award Gold Medal Winner Ecology Environment In Matter and Desire internationally renowned biologist and philosopher Andreas Weber rewrites ecology as a tender practice of forging relationships of yearning for connections and of expressing these desires through our bodies Being alive is an erotic process constantly transforming the self through contact with others desiring ever

more life In clever and surprising ways Weber recognizes that love the impulse to establish connections to intermingle to weave our existence poetically together with that of other beings is a foundational principle of reality The fact that we disregard this principle lies at the core of a global crisis of meaning that plays out in the avalanche of species loss and in our belief that the world is a dead mechanism controlled through economic efficiency Although rooted in scientific observation Matter and Desire becomes a tender philosophy for the Anthropocene a poetic materialism that closes the gap between mind and matter Ultimately Weber discovers in order to save life on Earth and our own meaningful existence as human beings we must learn to love *Braille Books Library of Congress.
