At one time Scotland was home to more than 4 000 castles It's an extraordinary number for such a small country and today around 3 000 still stand Some are world famous others have inspired great works of literature while others have lit up the silver screen There are grand ticketed visitor attractions but there are others which are unassuming structures so tucked away that only the locals seem to know about them From the triangular shaped Caerlaverock Castle in Dumfries and Galloway to the imposing New Slains Castle in Aberdeenshire and from the magnificent fortress that dominates the Edinburgh skyline to the haunting battlements that stand on the banks of Loch Ness each tower tells a story every turret holds a secret and together they span centuries of fascinating Scottish history A History and Guide to Scottish Castles explores the history architecture and legends of some of these fascinating fortresses and looks at why they are so appealing to visitors today Sharing amazing facts and her own unique experiences author Jenna Maxwell takes readers on an

This book provides in a single text the tools for students to be able to evaluate such buildings as well as an extensive understanding of the mechanisms which cause their deterioration and knowledge of the technologies available to correct their status. The ever higher standards set for buildings especially in energy conservation contexts demand that practitioners appreciate how the performance of existing structures can be enhanced which is also covered. Education and the Historic Environment emphasizes the contribution to both education and heritage that results from a positive relationship between the two disciplines. Education and the Historic Environment examines evidence, case studies and chapters from a wide cross section of the heritage sector and argues for the value of using the physical remains of the past. Shows how and where the historic environment can be used to fit into and enhance learning. Examines how guidelines are reinforced.
