Kathy O'Dell

Labyrinths Robert Morris Minimalism And The 1960s:

Labyrinths Maurice Berger, 1989 Om den amerikanske billedhugger som er en af de ledende repræsentanter for minimal art **Labyrinths** Maurice Berger, 1990-05-01 Traces the career of the American sculptor discusses the philosophical foundations of the work and presents examples of his sculptures installations and environments **Minimalism** James Meyer, James Sampson Meyer, 2004-01-01 Critic and art historian Meyer a leading authority on Minimalism examines the style from its inception to its broader cultural influence This sourcebook features an excellent selection of nearly 300 color and b w images to illustrate the surprising variety of the work **Robert Smithson** Ann Reynolds, 2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture

that interpretation needs to be recognised as much more dynamic and contingent Offering its own performance script and embracing both canonical fine artists such as Manet De Kooning and Jasper Johns and performance artists such as Vito Acconci and Gunter Brus this book offers radical re readings of art works and points confidently towards new models for understanding art Imaging Her Erotics Carolee Schneemann,2003 A visual and written record of the work of pioneer painter performance artist Carolee Schneemann **Deadpan** Tina Post,2023-01-10 Deadpan The Aesthetics of Black Inexpression is an examination of the aesthetic assertions that inhere in gestures of expressionlessness inscrutability and emotional withholding in African American cultural production **No Innocent Bystanders** Frazer Ward,2012 The changing role of the spectator in contemporary performance art A Companion to Contemporary Art Since 1945 Amelia Jones,2009-02-09 A Companion to Contemporary Art is a major survey covering the major works and movements the most important theoretical developments and the historical social political and aesthetic issues in contemporary art since 1945 primarily in the Euro American context Collects 27 original essays by expert scholars describing the current state of scholarship in art history and visual studies and pointing to future directions in the field Contains dual chronological and thematic coverage of the major themes in the art of our time politics culture wars public space diaspora the artist identity politics the body and visual culture Offers synthetic analysis as well as new approaches to debates central to the visual arts since 1945 such as those addressing formalism the avant garde the role of the artist technology and art and the society of the spectacle The Contingent Object of Contemporary Art Martha Buskirk,2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art

is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality Between Art Practice and Psychoanalysis Mid-Twentieth Century Beth Williamson,2017-07-05 The work of mid twentieth century art theorist Anton Ehrenzweig is explored in this original and timely study An analysis of the dynamic and invigorating intellectual influences institutional framework and legacy of his work Between Art Practice and Psychoanalysis reveals the context within which Ehrenzweig worked how that influenced him and those artists with whom he worked closely Beth Williamson looks to the writing of Melanie Klein Marion Milner Adrian Stokes and others to elaborate Ehrenzweig s theory of art a theory that extends beyond the visual arts to music In this first full length study on his work including an inventory of his library previously unexamined archival material and unseen artworks sit at the heart of a book that examines Ehrenzweig s working relationships with important British artists such as Bridget Riley Eduardo Paolozzi and other members of the Independent Group in London in the 1950s and 1960s In Ehrenzweig s second book The Hidden Order of Art 1967 his thinking on Jackson Pollock is important too It was this book that inspired American artists Robert Smithson and Robert Morris when they deployed his concept of dedifferentiation Here Williamson offers new readings of process art c 1970 showing how Ehrenzweig s aesthetic retains relevance beyond the immediate post war era **Contract with the Skin** Kathy O'Dell,1998 Having oneself shot Putting out fires with the bare hands and feet Biting the body and photographing the marks Sewing one s own mouth shut all in front of an audience What do these kinds of performances tell us about the social and historical context in which they occurred Fascinating and accessibly written CONTRACT WITH THE SKIN addresses the question in relation to psychoanalytic and legal concepts of masochism 34 photos **Adrian Piper** John P. Bowles,2011-02-14 This in depth analysis of Adrian Pipers art locates her groundbreaking work at the nexus of Conceptual and feminist art of the late 1960s and 1970s **All About Process** Kim Grant,2017-02-28 In recent years many prominent and successful artists have claimed that their primary concern is not the artwork they produce but the artistic process itself In this volume Kim Grant analyzes this idea and traces its historical roots showing how changing concepts of artistic process have played a dominant role in the development of modern and contemporary art This astute account of the ways in which process has been understood and addressed examines canonical artists such as Monet C zanne Matisse and De Kooning as well as philosophers and art theorists such as Henri Focillon R G Collingwood and John Dewey Placing process art within a larger historical context Grant looks at the changing relations of the artist s labor to traditional craftsmanship and industrial production the status of art as a commodity the increasing importance of the body and materiality in art making and the nature and significance of the artist s role in modern society In doing so she shows how process is an intrinsic part of aesthetic theory that connects to important contemporary debates about work craft and labor Comprehensive and insightful this synthetic study of process in modern and contemporary art reveals how artists explicit engagement with the concept fits into a broader
