Quality Education for Latinos and Latinas Rita Portales,Marco Portales,2005-06-01 As educators and legislators across the country debate how to improve public schools the most vital factor often disappears from the equation the relationship between the teacher and the student According to veteran educators Rita and Marco Portales this relationship is the central issue in the education of students especially Latino a students who often face serious barriers to school success because of the legacy of racism insufficient English language skills and cultural differences with the educational establishment To break down these barriers and help Latino a students acquire a quality education the Portaleses focus attention on the teacher student relationship and offer a proven method that teachers can use to strengthen the print and oral skills of their students They begin by analyzing the reasons why schools too often fail to educate Latino a students using eloquent comments from young Latinos as and their parents to confirm how important the teacher student relationship is to the student s success Then they show how all educational stakeholders teachers administrators state education agencies legislators and parents can work together to facilitate the teacher student relationship and improve student education By demonstrating how teachers can improve students reading critical thinking writing and oral communication skills across the curriculum they argue that learning can be made more relevant for students keeping their interest levels high while preparing them for academically competitive colleges
