The Bangkok Writers English Edition:

Isan Writers, Thai Literature Martin B. Platt, 2013-08-20 Regional characteristics and regional language feature prominently in discussions of Thai identity but there is little mention of regional literatures In northeastern Thailand's Isan region authors write primarily in Thai but it is possible nonetheless to identify an Isan literature which played a significant and at times pivotal role in the development of Thai literature in the second half of the twentieth century as authors grappled with how their origins and experiences related to the Thai centre Martin Platt's account of Isan literature is an important first step toward a broader study of regional literatures in Thailand and shapes a model that has relevance for examining literary works in other Asian countries **Writers Directory** NA NA, 2016-03-05 *International Book Publishing: An Encyclopedia* Philip G. Altbach, Edith S. Hoshino, 2015-05-08 First Published in 1996 This encyclopedia is unique in several ways As the first international reference source on publishing it is a pioneering venture Our aim is to provide comprehensive discussion and analysis of key subjects relating to books and publishing worldwide The sixty four essays included here feature not only factual and statistical information about the topic but also analysis and evaluation of those facts and figures The chapters are significantly more comprehensive than those typically found in an encyclopedia **The Routledge Concise History of Southeast Asian Writing in English** Rajeev S. Patke, Philip Holden, 2009-09-10 The Routledge Concise History of Southeast Asian Writing in English traces the development of literature in the region within its historical and cultural contexts establishing connections from the colonial activity of the early modern period through to contemporary writing across nations such as Thailand China Malaya Singapore and Hong Kong **The Routledge Companion to Architectural Pedagogies of the Global South** Harriet Harriss, Ashraf M. Salama, Ane Gonzalez Lara, 2022-12-30 The established canon of architectural pedagogy has been predominantly produced within the Northern hemisphere and transposed or imposed across schools within the Global South more often with scant regard for social economic political or ecological culture and context nor regional or indigenous pedagogic principles and practices Throughout the Global South architecture's academic community has been deeply affected by this regime how it shapes and influences proto professionals and by implication architectural processes and outcomes too The Routledge Companion to Architectural Pedagogies of the Global South resituates and recenters an array of pedagogic approaches that are either produced or proliferate from the Global South while antagonizing the linguistic epistemological and disciplinary conceits that under imperialist imperatives ensured that these pedagogies remained maligned or marginalized The book maintains that the exclusionary implications of architectural notions of the orders the canon and the core have served to constrain and to calcify its contents and in doing so imperiled its relevance and impact In contrast this companion of pedagogic approaches serves to evidence that architecture's academic and professional advancement is wholly contingent on its ability to fully engage in an additive and inclusive process whereby the necessary disruptions that occur when marginalized knowledge confronts established knowledge result in a

catalytical transformation through which new co created knowledge can emerge Notions of tradition identity modernity vernacularism post colonialism poverty migration social and spatial justice climate apartheid globalization ethical standards and international partnerships are key considerations in the context of the Global South How these issues originate and evolve within architectural schools and curricula and how they act as drivers across all curricula activities are some of the important themes that the contributors interrogate and debate With more than 30 contributions from 55 authors from diverse regional racial ethnic gender and cultural backgrounds this companion is structured in four sections that capture critique and catalog multifarious marginalized pedagogical approaches to provide educators and students with an essential source book of navigational steers core contestations propositional tactics and reimagined rubrics The Routledge Companion to Architectural Pedagogies of the Global South pioneers a transposable strategy for academics from all disciplines looking to adopt a tested approach to decolonizing the curriculum It is only through a process of destabilizing the hegemonic epistemological and disciplinary frameworks that have long prescribed architecture s pedagogies that the possibility of more inclusive representative and relevant pedagogical practices can emerge **A Sarong for Clio** Maurizio Peleggi, 2018-08-06

A Sarong for Clio testifies to an ongoing intellectual dialogue between its ten contributors and Craig J Reynolds who inspired these essays Conceived as a tribute to an innovative scholar dedicated teacher and generous colleague it is this volume s ambition to make a concerted intervention on Thai historiography and Thai studies more generally by pursuing in new directions ideas that figure prominently in Reynolds s scholarship The writings gathered here revolve around two prominent themes in Reynolds s scholarship the nexus of historiography and power and Thai political and business cultures often so intertwined as to be difficult to separate The chapters examine different types of historical texts Thai political discourse and political culture and the media production of consumer culture Contributors Chris Baker Patrick Jory University of Queensland Brisbane Tamara Loos Cornell University Yoshinori Nishizaki National University of Singapore James Ockey University of Canterbury Maurizio Peleggi National University of Singapore Pasuk Phongpaichit Chulalongkorn University Bangkok Kasian Tejapir Thammasat University Bangkok Villa Vilaithong Chulalongkorn University Bangkok Thongchai Winichakul University of Wisconsin Madison *Decolonizing EFL Writing Education* Shizhou Yang, 2025-01-15 Arguably the first book length exploration of decolonizing English as a Foreign Language EFL writing education this novel volume uses poetic autoethnography to provide a situated dynamic and complex view of multilingual writers through their second language L2 academic writing and creative writing Responding to contemporary calls to decolonize L2 writing as a field and diversify academic writing for multilingual students this book is the first of its kind to explore the decolonization of EFL writing education from a Global Southern context Chapters critically and creatively consider issues of educational technologies translanguaging academic writing epistemology and pedagogy from two writing courses from a Global South and classroom writing ecology perspective Using poetic autoethnography alongside data from authentic writing classrooms
