Recreating Africa James H. Sweet, 2004-07-21 Exploring the cultural lives of African slaves in the early colonial Portuguese world with an emphasis on the more than one million Central Africans who survived the journey to Brazil. James Sweet lifts a curtain on their lives as Africans rather than as incipient Brazilians. Focusing first on the cultures of Central Africa from which the slaves came: Ndembu, Imbangala, Kongo, and others. Sweet identifies specific cultural rites and beliefs that survived their transplantation to the African Portuguese diaspora, arguing that they did not give way to immediate creolization in the New World but remained distinctly African for some time. Slaves transferred many cultural practices from their homelands to Brazil, including kinship structures, divination rituals, judicial ordeals, ritual burials, dietary restrictions, and secret societies. Sweet demonstrates that the structures of many of these practices remained constant during this early period, although the meanings of the rituals were often transformed as slaves coped with their new environment and status. Religious rituals in particular became potent forms of protest against the institution of slavery and its hardships. In addition, Sweet examines how certain African beliefs and customs challenged and ultimately influenced Brazilian Catholicism. Sweet's analysis sheds new light on African culture in Brazil's slave society while also enriching our understanding of the complex process of creolization and cultural survival.

Thirty years ago she was a small part in the life of Dave Mercer. Their short-lived three-month relationship was a whirlwind for Dave. They met in a bar and suddenly moved in together. Diane's roommate acted strange, perhaps jealous, which led Dave to believe she was a lesbian in love with Diane as much as he was. Then on a visit to meet Diane's racist father in Nova Scotia, something mysterious happened and Diane, who may have been married to someone else, became but a memory. The memory of her has not touched Dave's life in decades until he comes across poems he wrote during their brief romantic affair. He has more questions than answers and feels haunted by past decisions he made. Now in his fifties, Dave looks back and wonders how a woman who touched his life for such a short time could have such long-standing effects. What was it about the mysterious Diane that first drew him to her and why does she still linger in his thoughts? He must confront the mystery of the woman he loved and unravel what they were to each other or else he may be cursed to love a ghost for the rest of his life. *The Outcast Majority* Marc Sommers, 2015-12-01 The Outcast Majority invites policymakers, practitioners, academics, students, and others to think about three commanding contemporary issues: war, development, and youth in new ways. The starting point is the following irony: while African youth are demographically dominant, most see themselves as members of an outcast minority. The irony directly informs young people's lives in war-affected Africa where differences separating the priorities of youth and those of international agencies are especially prominent. Drawing on interviews with development experts and young people, Marc Sommers shines a light on this gap and offers guidance on how to close it. He begins with a comprehensive consideration of forces that shape and propel the lives of African youth today, particularly those experiencing or emerging from war. They are contrasted with forces that influence and constrain the international development aid enterprise. The book concludes with a framework for making development policies and practices significantly more relevant and effective for youth in areas affected by African wars and other places where vast and vibrant youth populations reside. **Early Cape Verdean & Portuguese Genealogy of Harwich, Ma** Amanda Raneio Chilaka, 2013 This book is meant to preserve the history of Cape Verdeans that settled in the town of Harwich, Massachusetts. You will learn the connections between different families within the town and hopefully you will be able to begin your own genealogical research. **Metaphysical Grounding** Fabrice Correia, Benjamin Schnieder, 2012-10-04 Some of the most eminent and enduring philosophical questions concern matters of priority: what is prior to what? What grounds what? Is, for instance, matter prior to mind? Recently a vivid debate has arisen about how such questions have to be understood. Can the relevant notion or notions of priority be spelled out? And how do they relate to other metaphysical notions such as modality, truth-making, or essence? This volume of new essays by leading figures in contemporary metaphysics is the first to

address and investigate the metaphysical idea that certain facts are grounded in other facts An introduction introduces and surveys the debate examining its history as well as its central systematic aspects The volume will be of wide interest to students and scholars of metaphysics
