Better Principals Schools What Believe:

Better Principals, Better Schools Delia Stafford, Valerie Hill-Jackson, 2015-12-01 A school is only as good as its principal This quip forms the thesis of *Better Principals* as it provides a bird's eye view on the enactment of Haberman's eleven core functions of a star principal *Better Principals* is imperative for two main reasons First the achievement gap between 20 million children in poverty and their mainstream counterparts is continuing to become even wider Many students are constantly subjected to inequality of educational opportunity which limits their future opportunities Second Haberman is one of the most prolific producers of administrators of the twentieth century and into the twenty first century He reminds us that quality school systems with quality leaders benefit our society Haberman explained that there is often selection blindness when it comes to identifying school leaders and this deficiency has many negative consequences for education in general and learners in particular Haberman has generated theories training programs and tools to engender substantive changes needed to produce better schools Each chapter in this volume contains reflection questions for discussion to remind us all why selecting quality principals must be paramount when hiring school leaders These illustrative book chapters emphasize the execution of Haberman's star principal ideology Praise for *Better Principals Better Schools* Not every educator is suited to leading or teaching in the most challenging urban schools Yet nowhere else is excellence in leading and teaching more critical to the success of students This volume based on the pioneering work of Martin Haberman offers a practical response to those who say the task of instructional leadership is beyond the capability of principals The authors offer concrete examples of how successful urban school leaders find the time and capacity to inspire and manage learning under difficult conditions Just as important the authors ground their examples in a set of clear justifiable principles that can be used by others to guide their own practice Dr Philip Hallinger Professor Chulalongkorn University Thailand If great teaching and more of it are the key ingredients for any successful school then great leadership is the critical path *Better Principals Better Schools* turns this theory into model lessons for all current and aspiring school leaders Mike Feinberg Co founder KIPP Schools *Better Teachers, Better Schools* Valerie Hill-Jackson, Delia Stafford, 2017-02-01 We all know teachers who in the face of insurmountable district and school level challenges inspire underserved students to succeed These teachers are more than good they are stars Haberman maintains that school districts still gamble when selecting teachers as an overwhelming number are not stars and are unprepared or underprepared to work effectively with marginalized students Haberman explains that teacher selection is more important than teacher training The ability to identify educators with the necessary social justice or relational characteristics may lead to an increase in academic achievement among learners as well as lower teacher attrition Consequently all those who are interested in building America's teaching force with stars including human resource managers for K-12 school districts administrators teachers teacher advocates teacher education faculty and graduate students will benefit from this book *Better Teachers Better Schools* is a

must read for two main reasons First the achievement gap between 16 million children in poverty and their mainstream counterparts is continuing to become even wider Many urban students are constantly subjected to educational barriers which limits their future opportunities These learners deserve teachers that know more than content but who can build relationships in order to leverage learning with greater outcomes Second Haberman was one of the most prolific producers of teachers to date He reminds us that quality school systems built on the back of quality teachers benefit our society Better Teachers Better Schools offers a refreshing take on what it means to be a star teacher by sharing some of Haberman s most requested writings as well as new narratives and research that corroborate his star theory The contributions in this volume give us a window into Haberman s seven relational dispositions of star teachers or teachers ideology put into behavior Also each chapter contains learning outcomes and reflection questions for discussion *America's Best School Teachers and Principals* United States. Congress. Senate. Committee on Labor and Human Resources,1992 *Leading Good Schools to Greatness* Susan P. Gray,William A. Streshly,2010-09-20 Great leaders are made not born Written by the authors of *From Good Schools to Great Schools* this sequel shows how great school leaders can be developed and how leaders can acquire the powerful personal leadership characteristics that the best administrators use to lead their schools to greatness Based on sound strategies and the work of Jim Collins Gray and Streshly tackle how to build relationships communicate effectively exercise your personal will with humility face brutal facts get faculty on board and build a school culture of self discipline Chapters include Case studies that provide an ongoing context for professional learning Self assessments that reveal your inherent leadership dispositions Interviews and tips from exceptional headteachers in the field Strategies for developing specific leadership qualities Application exercises that reinforce how to put the strategies into action Reflection activities that encourage professional growth Appropriate for both individual and group professional development *Leading Good Schools to Greatness* reveals how leadership skills can be learned and used to take your school to the next level **Practical Strategies for School Principals** , **Weekly Compilation of Presidential Documents** ,1999 *Congressional Record* United States.
