Between naturalism and religion ,2006 On the Other Hand Phil Ryan, 2024-05-01 For many Canadian multiculturalism represents the hope that we can build a society in which people who have come from all corners of the world can fully participate without first subverting or erasing their unique identities Many progressive critics however dismiss this hope as an illusion that serves to mask ongoing racism and inequality Foregrounding the capitalist nature of the Canadian state and society On the Other Hand examines the arguments of a range of progressive critics of Canadian multiculturalism An exercise in critical listening the book aims to both communicate and assess these progressive critiques It proposes conditions for the intelligibility of social science analysis in general and reflects on the requirements for effective progressive thought and writing Grounded in a political economy approach the book argues that capitalism and the capitalist nature of the state must be integrated into our analysis of multiculturalism immigration policy and persistent racism On the Other Hand reveals how progressive critiques can identify real limits of multiculturalism limits of which we must be aware if we are either to endorse them or seek to transcend them CSB Apologetics Study Bible, Gray Hardcover CSB Bibles by Holman, 2017-08 The CSB Apologetics Study Bible helps today s Christians better understand defend and proclaim their beliefs in an age of increasing moral and spiritual relativism This study Bible s updated content includes new articles and extensive apologetics Bible study material that can serve during your devotionals from today s leading apologists to provide deeper understanding of the relevant apologetics issues and questions of today The Bible includes commentary from over 90 Christian apologetics leaders including Ted Cabal Lee Strobel Chuck Colson Paul Copan Norm Geisler Hank Hanegraaff Josh McDowell Albert Mohler J P Moreland Ravi Zacharias and many more plus a lead article by Lee Strobel The Case for Christ The study Bible features include a presentation page book introductions study notes apologetics articles from leading apologists Twisted Scripture explanations for commonly misunderstood passages Profiles of Christian apologists Two color interior Two column text 9 75 point type size Smyth sewn binding Ribbon marker Full color maps and more The CSB Apologetics Study Bible features the highly readable highly reliable text of the Christian Standard Bible R CSB The CSB stays as literal as possible to the Bible s original meaning without sacrificing clarity making it easier to engage with Scripture s life transforming message and to share it with others **CSB Apologetics Study Bible, Hardcover, Indexed** CSB Bibles by Holman, 2017-08 The CSB Apologetics Study Bible helps today s Christians better understand defend and proclaim their

Philosophy, Religion, and the Coming World Civilization L.S. Rouner,2012-12-06 Gabriel Marcel reminds me that I asked him to write for this book This is quite true but not the whole story During the visit with Ernest Hocking which he describes so eloquently in his essay Solipsism Surmounted he learned from Hocking s hostess Elizabeth Hazard that I was planning hopefully for a Hocking Festschrift On his return to Harvard where he was preparing his James Lectures he wrote me offering an essay should these plans develop Encouraged I kept his letter while I moved my family to India and settled into a new job When it was possible to begin work on the book in earnest I then made my request reminding him of his original offer I mention this because I discovered that his enthusiasm was to be typical of those who came to know about the project Charles Moore commented that such a book was long overdue and Walter Stace spoke for us all when he said I am sure that there is no one in our profession who would not wish to be associated with any project in his honor Given the wide range of Hocking s interests and influence it was difficult to know just how the volume should be organized Dictionary of Twentieth-Century British Philosophers Stuart Brown,Hugh

Ground G.E.M. Anscombe,2017-04-11 Elizabeth Anscombe s forthright philosophy speaks directly to many religious and ethical issues of current concern This collection of her essays forms a companion volume to the critically acclaimed Human Life Action and Ethics published in 2005 **In Face of Reality** Thomas A. James,2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book Relativism Knowledge and Faith 1960 through his 2006 book Jesus and Creativity in light of recent conversations about divine action and modern scientific knowledge James interprets Kaufman s mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in

classical theological tradition Though there are costs to be paid in the construction of a theology of radical naturalism particularly with respect to the relation between divine action and the human good Kaufman s program offers a distinctive way forward After developing a critical analysis of the limitations and possibilities of Kaufman s mature position James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology

Naturalism's Philosophy of the Sacred Martin O. Yalcin,2013-11-05

Naturalism s Philosophy of the Sacred Justus Buchler Karl Jaspers and George Santayana offers an interpretation of the sacred based on the ordinal naturalism of Justus Buchler one of the most important philosophers of the twentieth century whose work is experiencing a renaissance This book seeks to find common ground between theists and atheists by arguing that religious beliefs should be retained because they provide a poetic response to nature s mysteries while also addressing the atheist s concerns regarding the tendency of religious believers to demonize nonbelievers and to idolize their own conceptions of the sacred The heart of Martin O Yalcin s argument is that religious violence can be traced to the belief that God is far more real and therefore far more valuable than nature In contrast to this view he develops a philosophy of the sacred from the perspective of ontological parity which holds that all things are equally real He argues that when the sacred is leveled to the plane of nature as one of its innumerable orders then the virtues of piety and charity replace the vices of demonization and idolization so evident in religions that insist on the utter incommensurability of God with respect to the created order In the course of developing an aesthetic interpretation of the sacred Yalcin explores not only the metaphysical categories of Justus Buchler but also those of Karl Jaspers and George Santayana The dialogue with Jaspers unearths the absolute otherness of the sacred as the intrinsically unethical dimension of any variant of theism Having undermined the total absolution of the sacred Naturalism s Philosophy of the Sacred suggests an alternative aesthetic form of sacred engagement that piggybacks on Santayana s thoroughly natural poetic rendition of the sacred This book will be of great value to students and scholars working in departments of religion philosophy and theology

The Right to

Justification Rainer Forst,2012 Contemporary philosophical pluralism recognizes the inevitability and legitimacy of multiple ethical perspectives and values making it difficult to isolate the higher order principles on which to base a theory of justice Rising up to meet this challenge Rainer Forst a leading member of the Frankfurt School s newest generation of philosophers conceives of an autonomous construction of justice founded on what he calls the basic moral right to justification Forst begins by identifying this right from the perspective of moral philosophy Then through an innovative detailed critical analysis he ties together the central components of social and political justice freedom democracy equality and toleration and joins them to the right to justification The resulting theory treats justificatory power as the central question of justice and by adopting this approach Forst argues we can discursively work out or construct principles of justice especially with respect to

transnational justice and human rights issues As he builds his theory Forst engages with the work of Anglo American philosophers such as John Rawls Ronald Dworkin and Amartya Sen and critical theorists such as Jürgen Habermas Nancy Fraser and Axel Honneth Straddling multiple subjects from politics and law to social protest and philosophical conceptions of practical reason Forst brilliantly gathers contesting claims around a single elastic theory of justice *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,2011 List of members in v 1
