Beyond Texas Through Time Walter L. Buenger, Arnoldo De León, 2011-01-27 In 1991 Walter L. Buenger and the late Robert A. Calvert compiled a pioneering work in Texas historiography *Texas Through Time* a seminal survey and critique of the field of Texas history from its inception through the end of the 1980s Now Buenger and Arnoldo De León have assembled an important new collection that assesses the current state of Texas historiography building on the many changes in understanding and interpretation that have developed in the nearly twenty years since the publication of the original volume This new work *Beyond Texas Through Time* departs from the earlier volume's emphasis on the dichotomy between traditionalism and revisionism as they applied to various eras Instead the studies in this book consider the topical and thematic understandings of Texas historiography embraced by a new generation of Texas historians as they reflect analytically on the work of the past two decades The resulting approaches thus offer the potential of informing the study of themes and topics other than those specifically introduced in this volume extending its usefulness well beyond a review of the literature In addition the volume editors introduction proposes the application of cultural constructionism as an important third perspective on the thematic and topical analyses provided by the other contributors *Beyond Texas Through Time* offers both a vantage point and a benchmark serving as an important reference for scholars and advanced students of history and

historiography even beyond the borders of Texas *Gender and Action Films 2000 and Beyond* Steven Gerrard, Renée Middlemost, 2022-11-24 *Gender and Action Films 2000 and Beyond* Transformations looks at Action Cinema from the old to the new offering an exciting interrogation of the portrayal of gender in the new millennia A necessity for academics students and lovers of film and media and those interested in gender studies **TV Guide** ,2006 *Angel* Nancy Holder, Jeff Mariotte, Mary Elizabeth Hart, 2002 A companion book to the popular hit television series includes exclusive cast and production interviews cast profiles annotated episode listings and a day on the set journal **Beyond the City** Sarah E. require to effectively conserve and sustainably use BBNJ focusing on marine genetic resources area-based management tools environmental impact assessments capacity building and marine technology transfer It investigates potential areas of compromise as the success of an ILBI will rely upon the support of a powerful bloc of maritime States principally the United States the United Kingdom Russia the Netherlands France and Japan The participation of major maritime powers will be critical as it is their nationals corporations and flag vessels that have the financial and technical wherewithal to undertake activities beyond national jurisdiction This bloc of States has historically been the strongest proponent of the Grotian doctrine of freedom of the seas as it aligns with their predominant interest to preserve navigational freedom for their merchant and military fleets Accordingly this book assesses the extent to which the Grotian doctrine continues to exert influence on the development of the law of the sea and the development of an ILBI Providing a comprehensive overview of this important development in international law this book will be of interest to students lecturers and academics of law of the sea international environmental law and biodiversity law
