The book also illuminates connections between empires and colonies as a theme in history concentrating on culture while also discussing the rich social economic and political dimensions of the story Furthermore Empires and Colonies recognizes that whilst a study of the expansion of Europe is an important part of world history it is not a history of the world per se The focus on culture is used to assert that areas and peoples that lack great economic power at any given time also deserve attention These alternative voices of slaves indigenous peoples and critics of empire and colonization are an important and compelling element of the book Empires and Colonies will be essential reading not only for students of imperial history but also for anyone interested in the makings of our modern world

Empires and Indigenes Wayne E. Lee, 2011-06-27 The early modern period c 1500 1800 of world history is characterized by the establishment and aggressive expansion of European empires and warfare between imperial powers and indigenous peoples was a central component of the quest for global dominance From the Portuguese in Africa to the Russians and Ottomans in Central Asia empire builders could not avoid military interactions with native populations and many discovered that imperial expansion was impossible without the cooperation and in some cases alliances with the natives they encountered in the new worlds they sought to rule Empires and Indigenes is a sweeping examination of how intercultural interactions between Europeans and indigenous people influenced military choices and strategic action Ranging from the Muscovites on the western steppe to the French and English in North America it analyzes how diplomatic and military systems were designed to accommodate the demands and expectations of local peoples who aided the imperial powers even as they often became subordinated to them Contributors take on the analytical problem from a variety of levels from the detailed case studies of the different ways indigenous peoples could be employed to more comprehensive syntheses and theoretical examinations of diplomatic processes ethnic soldier mobilization and the interaction of culture and military technology Contributors Virginia Aksan David R Jones Marjoleine Kars Wayne E Lee Mark Meuwese Douglas M Peers Geoffrey Plank Jenny Hale Pulsipher and John K Thornton
