themes and projects Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects it is both an examination of an architect's work and international legacy and also a case study in the trans global dissemination of design ideas Studying the architect's built and proposed work both regional and metropolitan the scale and reach of Langer's practice will be considered for the first time showing how given his continued influence on the contemporary culture of tropical design Langer has been unjustly ignored by the historiography of both Australian and Modernist architecture to date
