## **Beyond The Nation State Parties In The Era Of European Integration:**

*Beyond the Nation State* D. Hanley, 2007-11-09 States are seen as needing to provide responses to these new challenges but parties within those states are equally challenged David Hanley examines how parties address those challenges and the manner in which parties act at supranational level Transnational Parties and Advocacy in European Integration Karl Magnus Johansson, Tapio Raunio, 2024-07-16 This book analyses the role of Europarties in the deepening of integration and the debates on the future of Europe It is guided by three fundamental research questions What strategies do Europarties utilize to advance their visions of Europe What is the relative influence of the actors in the networks of the Europarties How successful have the Europarties been in shaping the future of Europe European integration cannot be understood without accounting for the impact of the Europarties Theoretically the book utilizes the concepts of advocacy and agenda setting identifying Europarties as transnational partisan actors operating at intergovernmental and supranational levels of EU decision making Europarties have consolidated their organizational structures and more importantly have over the decades built their own networks and coalitions that enable them to wield influence in ways rarely captured by previous studies Empirically the book investigates the networks and positions of the Europarties constitutional reform processes and the role of the Europarties and their EP political groups in the broader debates on the future of Europe The Elgar Companion to the European Union Samuel B.H. Faure, Christian Lequesne, 2023-01-20 Constituting a major contribution to literature on the EU this comprehensive Companion analyses the structure and value of the EU capturing the normality of its politics alongside crises and political breakdown The Institutions of the European Union Michael Shackleton, 2012-03-22 The book explains functions powers and composition of the EU's institutions including the Council of Europe the Council of Ministers the College of Commissioners the European Commission the European Parliament the Court of Justice of the European Union the European Central Bank the Court of Auditors and OLAF and the Committee of Regions After a historical overview of the attempts at EU institutional reform three chapters examine how different institutions provide political direction manage the Union and integrate interests **Political Parties and European Integration** Cesáreo R. Aguilera de Prat, 2009 This book offers a systematic analysis of the role of political parties in the European Union in the process of Community integration The author looks at the theoretical and empirical dimensions of the transnational structures of the parties and their stake in the institutions of the EU Examining the manifestos and programmes that the principal political parties of the six most populated states of the EU presented during the campaign for the European parliamentary elections of 2004 he provides an analysis of their political strategies placing the parties on both the classic left right axis and that of supranationalism intergovernmentalism The focus is specifically on the statements and policy proposals of the parties on the following issues related to the EU as a political system the nature of the EU the reach of its territorial space the debate about a European citizenry the various projects for institutional reform of the EU and the principal concrete public policies

regarding the three pillars Based on the methodological perspective of comparative politics the book addresses in a transversal manner the parties core programmes and their implications for Europe The Oxford Handbook of the European Union Erik Jones, Anand Menon, Stephen Weatherill, 2012-08-30 The Oxford Handbook of the European Union brings together numerous acknowledged specialists in their field to provide a comprehensive and clear assessment of the nature evolution workings and impact of European integration **Democracy, Federalism, the European Revolution, and Global Governance** Andrea Bosco, 2020-06-10 The European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union s construction democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance *The European Union and the Baltic States* Bengt Jacobsson, 2009-09-10 This book explores how the Baltic States have adapted to and been embedded in a wider European environment and become modern European states focusing on changes in policies politics and administrative practices since 1991 in Estonia Latvia and Lithuania and on the influence of rules and ideas in the EU Continuity and Change of Party Democracies in Europe Sebastian Bukow, Uwe Jun, 2020-02-19 This special issue of the German Political Science Quarterly addresses the transformation and the sustainability of European party democracies both at the level of party organization as well as party systems and competition The contributions in this volume are dedicated to these areas of change of European party democracies from different perspectives It shows which new dynamics of change can be stated and how they can be explained *Poland Within the European Union* Aleks Szczerbiak, 2012 Provides a detailed empirical case study of the impact of the EU on Poland and Poland s impact on the EU in the first three years of membership from 2004 2007

**European Political Parties and Party Finance Reform** Wouter Wolfs, 2022-04-06 This book provides a comprehensive overview of the party finance regime at the level of the European Union Based on an in depth analysis of the interaction

between European political parties and their institutional environment it shows how the Europarties have coped with and altered the funding rules The book explains why increasing party subsidies have been made available and why considerable differences exist in how Eurosceptic and pro European parties have used their EU funding It also examines how party finance reform at the EU level has been at the centre of party competition by demonstrating how the rules were strategically changed to benefit some European parties over others Considering the strong democratic aspirations that lay at the origins of the finance regime the book explores its consequences for party democracy and the rule of law in Europe This book is valuable for scholars working on the European Parliament Eurosceptic parties EU decision making European party politics and political finance     Handbook of Political Party Funding Jonathan Mendilow, Eric Phélippeau, 2018-01-26 Scrutinizing a relatively new field of study the Handbook of Political Party Funding assesses the basic assumptions underlying the research presenting an unequalled variety of case studies from diverse political finance systems     The Re-invention of the European Radical Right Andrej Zaslove, 2011 A look at the forces behind the rise of contemporary Europe's radical right     **Crisis, Austerity and Transnational Party Cooperation in Southern Europe** Vladimir Bortun, 2023-10-23 The most internationalist of all party families the radical left has paradoxically always lagged behind in its cooperation at the EU level The previous decade however the transnational character of the Eurozone crisis and its austerity centred management provided a strong incentive to remedy that By focusing on the relations between three prominent members of this party family at the time SYRIZA Podemos Left Bloc this book shows how and why the transnational cooperation on the radical left largely failed to deliver in a propitious context With implications for the study of other party families the book lays out the key factors that prevented the European radical left from coming together to provide an alternative to the neoliberal status quo in the EU     *Models of Democracy in Nordic and Baltic Europe* Nicholas Aylott, 2016-04-15 This book explores the ways in which representative democracy works in two neighbouring collections of European states the Nordic Denmark Finland Iceland Norway and Sweden and the Baltic Estonia Latvia and Lithuania Starting from a Nordic vantage point contributors explore the extent to which aspects of politics function similarly or dissimilarly across the two groups of democratic states acknowledging the differences in models of democracy that occur within each group Authors explore the possibility that some of the apparently successful institutional features of Nordic politics have somehow influenced politics in the Baltic states despite the considerable contextual differences between the two groups The Nordic Baltic comparison is particularly worthy of study given the comparative stability of the Nordic democracies and the half century of occupation by a totalitarian dictatorship that the Baltic states endured The central guiding questions are how does political representation work in countries that have a lot in common but also a few significant contextual dissimilarities and what if any relationships between the respective styles of democracy can be identified Using a variety of theories perspectives and methods the empirical studies that populate the book seek to offer reflections on these questions     **Europarties After Enlargement** E.

Bressanelli,2015-12-04 By comparing the importance of representative democracy to the EU as enshrined in the Lisbon Treaty with the political systems in the EU s newest member states this study explores whether representative democracy can really exist in an enlarged EU and explores the constraints and opportunities for political parties operating the in the EU

**Nationalisms in the European Arena** Margarita Gómez-Reino,2017-11-21 This book explores how the multiplicity of nationalist parties across the European Union have embraced or refused the process of European integration and made it a platform for transnational coordination in the European arena The author analyzes how opposing pro European minority nationalist parties and Eurosceptic populist nationalist parties have diversely politicized European integration over the past three decades and engage in different patterns of Europeanization Tracing their divergent trajectories of transnational coordination the book examines the common challenges these opposing nationalist party families face and their systematic fragmentation in the European arena The book offers a novel approach to understanding the conditions for the emergence of truly European nationalist party families based on the interaction of ideological strategic and institutional variables that underpin the Europeanization of heterogeneous nationalisms Nationalisms in the European Arena will be of interest to students and scholars across a range of disciplines including sociology and political science It contributes to the increasing literature on identity politics in the European Union and reveals the mechanisms behind why the European arena is adverse to the political translation and organization of domestic nationalisms as distinctive European actors *Debating Europe in National Parliaments* Frank Wendler,2016-06-27 This book investigates recent public debates about the European Union EU in national parliaments which have become the primary arena for public debate about the EU Responding to claims about a politicization of European governance the author investigates the link between two dimensions of debate the discursive justification and party political contestation of decision making in the EU Embedded in a comparison between the legislatures of four Member States Austria France Germany and the United Kingdom the main finding of the book is that generalizable links can be identified between the use of different argumentative frames and patterns of party political polarization These insights help to clarify the context conditions in which patterns of left right and government opposition politics are replaced by more atypical forms of polarization In a comparative perspective the author demonstrates that party political factors are a more relevant factor for variation than thematic or country specific cultural or institutional factors Case studies include debates on EU Treaty Reform the Eurozone crisis and EU enlargement **Europeanisation and Party Politics** Erol Külahci,2012-05-01 A sophisticated theoretical framework and up to date analysis of the Europeanisation of domestic party systems and political parties policy stances This book covers a range of contemporary topics party systems policy stances of political parties opposition co operation over European integration cleavage theory of party response to European integration domestic depoliticisation and EU representation It presents a sophisticated political analysis of Europe and an exceptional amount of factual information about European countries and parties **Comparative European**
