Beyond Winning Negotiating To Create Value In Deals And Disputes:

Beyond Winning Robert H. Mnookin, Scott R. Peppet, Andrew S. Tulumello, 2004-04-15 Conflict is inevitable in both deals and disputes Yet when clients call in the lawyers to haggle over who gets how much of the pie traditional hard bargaining tactics can lead to ruin Too often deals blow up cases don't settle relationships fall apart justice is delayed Beyond Winning charts a way out of our current crisis of confidence in the legal system It offers a fresh look at negotiation aimed at helping lawyers turn disputes into deals and deals into better deals through practical tough minded problem solving techniques In this step by step guide to conflict resolution the authors describe the many obstacles that can derail a legal negotiation both behind the bargaining table with one's own client and across the table with the other side They offer clear candid advice about ways lawyers can search for beneficial trades enlarge the scope of interests improve communication minimize transaction costs and leave both sides better off than before But lawyers cannot do the job alone People who hire lawyers must help change the game from conflict to collaboration The entrepreneur structuring a joint venture the plaintiff embroiled in a civil suit the CEO negotiating an employment contract the real estate developer concerned with environmental hazards the parent considering a custody battle clients who understand the pressures and incentives a lawyer faces can work more effectively within the legal system to promote their own best interests Attorneys exhausted by the trench warfare of cases that drag on for years will find here a positive proven approach to revitalizing their profession

Islands of Agreement Gabriella Blum,2007 We are culturally conditioned to think of war and peace in binary terms of strict opposition Correspondingly we tend to focus our attention on conflict prevention or conflict resolution But as Islands of Agreement demonstrates peace and war are seldom polar totalities but increasingly can and do coexist within the confines of a single scenario Consequently Gabriella Blum suggests that even where conflict exists we regard it as only one dimension of an ongoing multifaceted interstate relationship The result is a shift in perspective away from the constricting notions of prevention or resolution toward a more holistic approach of relationship management This approach is especially pertinent because conflicts cannot always be prevented or resolved Through case studies of long enduring rivalries India and Pakistan Greece and Turkey Israel and Lebanon Blum shows how international law and politics can function in the battlefield and in everyday life forming a hybrid international relationship Through a strategy she calls islands of agreement Blum argues that within the most entrenched and bitter struggles adversaries can carve out limited areas that remain safe or even prosperous amid a tide of war These havens effectively reduce suffering and loss and allow mutually beneficial exchanges to take place offering hope for broader accords

The Secrets of Gaining the Upper Hand in High Performance Negotiations Manon Schonewille,Felix Merks,2011 Although negotiations are an ever present part of our everyday lives many of us know little as to why we sometimes get our way while on other occasions we walk away feeling frustrated that we did not reach the desired agreement or we may have left too much value on the table Knowing how to gain the upper hand to get what is necessary from a negotiation is particularly important when the stakes are high especially in a situation where a negotiator feels the options and choices are limited yet something must be achieved A negotiation can cause a lot of stress making the stakes even higher and the

negotiation dynamics more difficult to manage New communication technologies play an increasingly important role in day to day negotiations It is important to be aware of these situations in order to know what works and what does not work and how to maximize the outcome in such negotiation situations The contributions in this book as well as the exclusive interview with Chris Voss an international business negotiator capture the key concepts and the most important learning points on how to gain the upper hand in high stake negotiations The book deals in a concise way with proven tools such as recognizing escalation mechanisms and the techniques on how to de escalate or deal with emotions Readers will gain access to crucial insights from professionals like the FBI or US army negotiators who are experienced in negotiating under extreme pressure in situations where lives are literally on the line The book covers newer developments such as involving a deal facilitator and conducting e negotiations The book also includes an example of role playing a negotiation in a conflict situation where the stakes are high and a lot of emotions are present on both sides of the table
