France Since Nineteen Eighteen:

Revolutionary Love in Eighteenth- and Early Nineteenth-Century France Allan H. Pasco, 2016-12-05 In this innovative study the author carves out a new field a sociology of literature in which he offers insightful commentary about the nexus of literature and society Calling on history sociology and psychology as well as literature as points of reference Allan Pasco examines the conceptual shift in the ideal of love in eighteenth century France Pasco explores the radical though gradual changes that occurred during the Enlightenment with respect to how the emotion of love was viewed Earlier love had been subordinate to the demands of family king and deity passion was dangerous and to be avoided But over time individual happiness became the greatest good and passion the measure of love Authors as diverse as Marivaux Marmontel Rousseau Bachelard d'Arnaud Pigault Lebrun and Madame de Staël make it clear that the ideal of rapturous love did not live up to its billing it did not last and it brought destructive fantasies an epidemic of disease the scourge of divorce and considerable anguish Still as Pasco points out passion became and remained the ideal and the Romantics were left to plumb its nature Delicious Decadence ?The Rediscovery of French Eighteenth-Century Painting in the Nineteenth Century

Monica Preti, 2017-07-05 The history of collecting is a topic of central importance to many academic disciplines and shows no sign of abating in popularity As such scholars will welcome this collection of essays by internationally recognised experts that gathers together for the first time varied and stimulating perspectives on the nineteenth century collector and art market for French eighteenth century art and ultimately the formation of collections that form part of such august institutions as the Louvre and the National Gallery in London The book is the culmination of a successful conference organised jointly between the Wallace Collection and the Louvre on the occasion of the acclaimed exhibition Masterpieces from the Louvre The Collection of Louis La Caze Exploring themes relating to collectors critics markets and museums from France England and Germany the volume will appeal to academics and students alike and become essential reading on any course that deals with the history of collecting the history of taste and the nineteenth century craze for the perceived *douceur de vivre* of eighteenth century France It also provides valuable insight into the history of the art markets and the formation of museums *History of the Eighteenth Century and of the Nineteenth Till the Overthrow of the French Empire* Friedrich Christoph Schlosser, 1852

Papermaking in Eighteenth-Century France Leonard N. Rosenband, 2003-05-22 Eight years before the French Revolution the paper mill at Vidalon le Haut was the setting for a bitter strike and successful lockout This labor dispute resulting from conflicts between master papermakers and skilled journeymen ultimately benefitted the mill's owners and administrators the Montgolfier family They converted the 1781 lockout into an opportunity to train a new kind of worker a malleable employee and to fashion a new sort of workplace a theater of technological experiment Papermaking in Eighteenth Century France Management Labor and Revolution at the Montgolfier Mill 1761-1805 gives us history from the workshop up offering the most comprehensive exploration available of the historical experience of papermaking Leonard N Rosenband explains how

paper was made depicting the tools techniques raw materials and seasonable flows of the craft and explores the many conflicts and compromises between masters and men Rosenband provides a compelling account of how technological change affected the papermaking industry transforming an elaborate established system of production The Montgolfier archives are a rich source of information providing records of daily output and procedures including complex rules ranging from the precise hours of meals and prayer to matters of propriety and personal sanitation They also provide insight into the attitudes of the Montgolfier family and their workers what they made of their trade their labor and one another This case study of the Montgolfier mill adding details about technological innovation and shopfloor relations during a time of social unrest enriches the current debate about the nature and impact of capitalism in France during the years leading up to the French Revolution

History of the eighteenth century and of the nineteenth till the overthrow of the French empire, tr., with a preface and notes, by D. Davison Friedrich Christoph Schlosser,1844 **Juries and the Transformation of Criminal Justice in France in the Nineteenth and Twentieth Centuries** James M. Donovan,2010-02-01 James Donovan takes a comprehensive approach to the history of the jury in modern France by investigating the legal political sociocultural and intellectual aspects of jury trial from the Revolution through the twentieth century He demonstrates that these juries through their decisions helped shape reform of the nation s criminal justice system From their introduction in 1791 as an expression of the sovereignty of the people through the early 1900s argues Donovan juries often acted against the wishes of the political and judicial authorities despite repeated governmental attempts to manipulate their composition High acquittal rates for both political and nonpolitical crimes were in part due to juror resistance to the harsh and rigid punishments imposed by the Napoleonic Penal Code Donovan explains In response legislators gradually enacted laws to lower penalties for certain crimes and to give jurors legal means to offer nuanced verdicts and to ameliorate punishments Faced with persistently high acquittal rates however governments eventually took powers away from juries by withdrawing many cases from their purview and ultimately destroying the panels independence in 1941 **Mother's Milk and Male Fantasy in Nineteenth-Century**

French Narrative Lisa Algazi Marcus,2022-05-13 Should all mothers breast feed their children This question remains controversial in the twenty first century In an interview with the newspaper Liberation in 2010 feminist philosopher Elisabeth Badinter claimed that the pressure to breast feed signified a reduction of woman to the status of an animal species as though we were all female chimpanzees The debate over maternal nursing held even more urgency before pasteurization provided a safe alternative in the early 1900s While scholars of literary criticism and art history have described the abundance of breast feeding imagery following the publication of Rousseau s Emile in 1762 little has been written on its manifestations in the nineteenth century Despite an ongoing propaganda campaign to encourage mothers to nurse reflected

in such diverse sources as medical theses paintings and fictional cautionary tales French mothers continued to entrust their infants to wet nurses more often and for longer than was the norm in other European countries throughout the nineteenth century and well into the twentieth This book examines representations of breast feeding in French literature and culture from 1800 to 1900 and their apparent dissonance with the socio historical realities of French mothers Music and Aesthetics in the Eighteenth and Early Nineteenth Centuries Peter le Huray, James Day, 1988-04-07 This is an abridged paperback edition of Peter le Huray and James Day s invaluable anthology of writings concerned with the role of music in eighteenth and early nineteenth century aesthetics This volume retains all the most important and significant items from the original hardcover edition Over fifty writers are represented here including such major figures as Rousseau Kant Schlegel Schopenhauer and Hegel and the useful introductions and biographical details of the original are also retained The aesthetic literature of the period is profuse but this carefully edited volume offers a balanced selection which illuminates the ways people experienced music and how they came to an understanding in particular of the new music of their day *History of the Eighteenth Century and of the Nineteenth Till the Overthrow of the French Empire* Friedrich Christoph Schlosser, 2025-08-08 Reprint of the original first published in 1843 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Bibliography of European Economic and Social History** Derek Howard Aldcroft, Richard Rodger, 1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily Continuum Mechanics Through the Eighteenth and Nineteenth Centuries Gérard A.
