Scotland--the Brand David McCrone, Angela Morris, Richard Kiely, 1995 Tartanry and Balmorality is Scotland's thriving heritage industry an economic blessing or the curse of negative stereotyping Since the eighteenth century heritage has been synonymous with heritage tourism This book is the first to explore the images which this industry conveys and to analyse its centrality to Scotland's definition of itself Based on an influential study by three leading sociologists it examines the specific role and character of the major players in Scottish heritage the National Trust for Scotland the Scottish Tourist Board and Historic Scotland as well as the lairds who have a stake in the industry In describing its consumers the authors show how heritage fits into their patterns of leisure consumption and lifestyle It also discusses the importance of heritage as opposed to history to the country's identity and politics **Welcome to Historic Scotland** Historic Scotland, 2007 *Scotland's Listed Buildings*, 1999 *Historic Scotland*, 199? At one time Scotland was home to more than 4 000 castles It's an extraordinary number for such a small country and today around 3 000 still stand Some are world famous others have inspired great works of literature while others have lit up the silver screen There are grand ticketed visitor attractions but there are others which are unassuming structures so tucked away that only the locals seem to know about them From the triangular shaped Caerlaverock Castle in Dumfries and Galloway to the imposing New Slains Castle in Aberdeenshire and from the magnificent fortress that dominates the Edinburgh skyline to the haunting battlements that stand on the banks of Loch Ness each tower tells a story every turret holds a secret and together they span centuries of fascinating Scottish history A History and Guide to Scottish Castles explores the history architecture and legends of some of these fascinating fortresses and looks at why they are so appealing to visitors today Sharing amazing facts and her own unique experiences author Jenna Maxwell takes readers on an

unforgettable tour of some of Scotland's most amazing castles which if you haven't visited them already you'll soon want to. Jenna has documented her journey on her Instagram page [queenofthecastles](#) **Be Part of History** Historic Environment Scotland, 2018

History, Performance and Conservation Barry Bridgwood, Lindsay Lennie, 2013-09-13 Ideal for students of architectural technology this volume of the Technologies of Architecture series covers the technologies available and the processes necessary for the conservation of existing buildings and environments. This book provides in a single text the tools for students to be able to evaluate such buildings as well as an extensive understanding of the mechanisms which cause their deterioration and knowledge of the technologies available to correct their status. The ever higher standards set for buildings especially in energy conservation contexts demand that practitioners appreciate how the performance of existing structures can be enhanced which is also covered. Considering the work of conservation within a holistic perspective and historical context this book is additionally invaluable for architecture and construction students

It will be an incomparable source for academic archaeologists, cultural resource and heritage management archaeologists, government heritage agencies and upper level undergraduate and graduate students of archaeology focused on the historic or post medieval period as well as forensic researchers and anthropologists

Education and the Historic Environment Mike Corbishley, Don Henson, Peter Stone, 2004-07-31 Practical, inspiring and instructive. Education and the Historic Environment emphasizes the contribution to both education and heritage that results from a positive relationship between the two disciplines. Education and the Historic Environment examines evidence, case studies and chapters from a wide cross section of the heritage sector and argues for the value of using the physical remains of the past. Shows how and where the historic environment can be used to fit into and enhance learning. Examines how guidelines are reinforced. Looks at how physical heritage can not only be used to teach obvious subjects such as history but are also useful across the curriculum from literacy and numeracy to citizenship. Teachers at all levels and students, academics and professionals in archaeology and heritage management will all be able to use the case studies to reform and enhance their work
