## **Between Jerusalem And Athens Ethical Perspectives On Culture Religion And Psychotherapy:**

Between Jerusalem and Athens Alvin Dueck, 2013-12-01 What does it mean to be both a Christian and a therapist Between Jerusalem and Athens offers a compelling answer to this question It shows students and practitioners who struggle with this issue how they can authentically integrate faith and practice by considering the central life shaping theme of biblical Christian ethics the Reign of God Part 1 proposes that a distinct cultural ethic based on the central theme of the Reign of God be the context of therapy Part 2 explores how the church can be a community of ethical reflection and healing Part 3 discusses the therapist s character and a model for developing character that reflects the Reign of God **Values and Indigenous Psychology in the Age of the Machine and Market** Alvin Dueck, Louise Sundararajan, 2024-08-07 This interdisciplinary edited collection addresses issues at the intersection of indigenous psychology market ideology values and technology The aims of this book arise from the recognition that whereas the unfolding of the agricultural revolution over thousands of years allowed for the gradual co evolution of values and technology to blossom the post industrial technological revolution is so accelerated that there has been little time for the co evolution of values To address this the chapters collected here seek to initiate a conversation that will provide the conceptual space for the evolution of values that can keep pace with contemporary developments in the machine and the market In this conversation they argue indigenous psychologies will necessarily play a central role for two reasons firstly as alternative systems of thought they enable a productive interrogation of the rationality of machine and the market and second examples of the impact of technology and the market on traditional societies hold lessons for potential future impacts on the society as a whole This timely work offers fresh insights that will appeal to students and scholars of psychology cultural and religious studies anthropology business and economics and science and technology studies **Integrative Approaches to Psychology and Christianity, Fourth Edition** David N. Entwistle, 2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle s book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of

Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

*Neoliberalism, Ethics and the Social Responsibility of Psychology* Heather Macdonald, Sara Carabbio-Thopsey, David M. Goodman, 2022-07-05 This volume encompasses deeply critical dialogues that question how the field of psychology exists within and is shaped by the current neoliberal political context Spanning from psychoanalysis to post colonial theory these far reaching discussions consider how a greater ethical responsiveness to human experience and sociopolitical arrangements may reopen the borders of psychological discourse With the understanding that psychology grows in the soil of neoliberal terrain and is a chief fertilizer for neoliberal expansion the interviews in this book explore alternative possibilities for how this field of study might function By offering their own unique responses regarding the current condition of their respective disciplines these scholars critically consider the current conceptual frameworks that set the theoretical boundaries of psychology and contemplate the ethical responsibility currently affecting the field This book will prove essential for scholars and students across several disciplines including psychology philosophy ethics and post colonial and socio cultural studies as well as practising mental health professionals with an interest in the importance of psychological social theory

**Pursuing Excellence for the Glory of God** Keith A. Currivean,2022-01-13 What is education How and why do educators do what we do And in what way can and ought education be distinctively Christian These are a few of the

probing questions for which this book seeks answers Among other contributions Currivean s book explores a biblical philosophy of Christian education with unprecedented breadth and depth To accomplish this objective it considers what education is chapter 1 what philosophy of education is chapter 2 and what the ultimate goal of education is chapter 3 Additionally this book provides a never before Christian overview of twelve philosophies of education chapters 4 15 Each of those chapters provides an introduction of a particular philosophy of education and some of that philosophy s exemplars Each of those chapters also contributes a constructive Christian critique Chapter 16 highlights a biblical philosophy of Christian education featuring some people some principles and some priorities for a biblical philosophy of Christian education viz pursuing excellence for the glory of God

**The Psychology of World Religions and Spiritualities** Timothy A. Sisemore, Joshua J. Knabb, 2021-09-20 This compendium of introductory essays invites scholars and clinicians to better understand people of various faiths from around the world It is intended to correct the tendency among scientists to study religious behavior without accounting for its human dimension For example a psychologist describes a religious ceremony in a certain community as a sociological phenomenon Such a technical description is likely to strike members of that community as an attempt by science to explain away their beliefs This is counterproductive In order to work effectively and empathetically with people of faith psychologists should seek an intimate knowledge of how religion operates in the hearts and minds of living breathing human beings With this goal in mind editors Timothy Sisemore and Joshua Knabb have made one of the world s major religions the subject of a separate chapter In addition they have arranged for each chapter to be written by a psychologist who practices or is culturally connected with that religion This marks the book s unique contribution to the field it is the product of people who have lived the world s religions not merely studied them By taking such a respectful approach the book promotes an appreciation for the ways that religious belief animates inspires and instructs its adherents Moreover the indigenous point of view of these essays will help scholars identify their own biases when researching religious groups allowing them to produce more accurate and holistic analyses Psychologists understand that religion and spirituality provide meaning and purpose to billions of people around the globe But the actual experience of these beliefs eludes the grasp of the reductionistic methods of science With this resource at their side psychologists in academic and clinical settings will be equipped to understand religious experience from the bottom up and honor the beliefs and practices of the people they are trying to help

*Psychology & Christianity* Gary R. Collins, Eric L. Johnson, Stanton L. Jones, 2000-01-01 This collection of essays edited by Eric Johnson and Stanton Jones offers four different models for the relationship between Christianity and psychology

**The Living God and Our Living Psyche** Ann Belford Ulanov, Alvin Dueck, 2008-02-25 Why should Christians bother to read Carl Jung He may be one of the most famous psychologists of the twentieth century but are his views and ideas really compatible with Christian faith While acknowledging some Christian suspicion of Jung Ann Belford Ulanov and Alvin Dueck maintain that Jung s psychology can indeed enhance the life of faith

**Relational Integration of Psychology**

**and Christian Theology** Steven J. Sandage, Jeannine K. Brown, 2018-02-19 Relational Integration of Psychology and Christian Theology offers an in depth interdisciplinary relational framework that integrates theology psychology and clinical and other applications Building on existing models and debates about the relationship between psychology and theology the authors provide a much needed examination of the actual interpersonal dynamics of integration and its implications for training and clinical practice Case studies from a variety of clinical and educational contexts illustrate and support the authors model of relational integration Using an approach that is sensitive to theological diversity and to social context this book puts forward a theological and therapeutic framework that values diversity the repairing of ruptures and collaboration

*Positive Psychology in Christian Perspective* Charles Hackney, 2021-03-16 Positive psychology is about fostering strength and living well about how to do a good job at being human Charles Hackney connects this still new movement to foundational concepts in philosophy and Christian theology He then explores topics such as subjective states cognitive processes and the roles of personality relationships and environment

The New Age of Soul Ray S. Anderson, 2001-11-27 In *The New Age of Soul* the broad appeal of new age spirituality is identified and defined with special attention to the claim that the soul may be understood as both the repository of divine energy and a source of spiritual healing and hope Through dialogue with sources and perspectives on the spiritual nature of the soul the book attempts to win the respect and appreciation of the reader already persuaded by the claims and benefits of new age spirituality while at the same time convincing the reader who has suspicions and concerns about new age spirituality that a better alternative may be found The book thus has a two fold purpose first to expose the inadequacy indeed the superficiality of new age spirituality through this dialogue and discussion attracting the attention and interest of the reader already influenced by this genre Second the author makes a case for a more traditional orthodox and biblical view of the soul and human spirituality so that the reader who is inclined toward new age spirituality will rediscover the more traditional biblical content of the soul and spirituality while providing the committed more traditional Christian reader a tool by which to communicate a biblical faith with the growing segment of our population attracted toward new age spirituality In its own way this book is an apologetic for a more traditional Christian theology of human spirituality and self identity presented in a positive dialogue with new age spirituality
