## **Between Two Cultures The Case Of Cambodian Women In America:**

*Between Two Cultures* Mitra Das, 2006      *Between Two Cultures* Mitra Das, 2007 *Between Two Cultures The Case of Cambodian Women in America* is a study of Cambodian Khmer refugee women who settled in Lowell Massachusetts a city known for its immigrant history This study describes the journeys made and the challenges faced by these newcomers as they attempted resettlement in an environment very different from their home country Simply and lucidly Mitra Das gives us captivating insights and an understanding of the experiences of this group of refugees from different shores In so doing she brings to life the processes and conditions that are important for adaptation to American society It can be a valuable source for understanding the dynamics of migration ethnicity and gender and can be used for those courses in sociology People outside of academia working with refugee and immigrant groups will also find this book to be a valuable resource

*Cambodian Buddhism in the United States* Carol A. Mortland, 2017-07-25 The first comprehensive anthropological description of the Khmer Buddhism practiced by Cambodian refugees in the United States over the past four decades *Cambodian Buddhism in the United States* is the first comprehensive anthropological study of Khmer Buddhism as practiced by Khmer refugees in the United States Based on research conducted at Khmer temples and sites throughout the country over a period of three and a half decades Carol A Mortland uses participant observation open ended interviews life histories and dialogues with Khmer monks and laypeople to explore the everyday practice of Khmer religion including spirit beliefs and healing rituals This ethnography is enriched and supplemented by the use of historical accounts reports memoirs unpublished life histories and family memorabilia painstakingly preserved by refugees Mortland also traces the changes that Cambodians have made to religion as they struggle with the challenges of living in a new country learning English and supporting themselves The beliefs and practices of Khmer Muslims and Khmer Christians in the United States are also reviewed      *People and Cultures of Hawaii* Thomas W. Maretzki, 2011-04-30 This is a significant update to the highly influential text *People and Cultures of Hawaii A Psychocultural Profile* Since its publication in 1980 the immigrant groups it discusses in depth have matured and new ones have been added to the mix The present work tracks the course of these changes over the past twenty years constructing a historical understanding of each group as it evolved from race to ethnicity to culture Individual chapters begin with an overview of one of fifteen groups Following the development of its unique ethnocultural identity distinctive character traits such as temperament and emotional expression are explored as well as ethnic stereotypes Also discussed are modifications to the group's ethnocultural identity over time and generational change which traits may have changed over generations and which are more hardwired or enduring An important feature of each chapter is the focus on the group's family social structure generational and gender roles power distribution and central values and life goals Readers will also find a description of the group's own internal social class structure social and political strategies and occupational and educational patterns Finally contributors consider how a particular ethnic group has blended

into Hawai i s culturally sensitive society People and Cultures of Hawai i The Evolution of Culture and Ethnicity will like its predecessor fill an important niche in understanding the history of different ethnic groups in Hawai i *Technology, Values, and Society* Mitra Das, Shirley Kolack, 2008 Technology is not value free nor does it exist in a vacuum It needs a social basis technology is affected by society and influences it Technology Values and Society illustrates this using an examination of cross cultural case studies representing simple intermediate and complex societies Certain forms of technology exist when conducive values and structures sustain them However this relationship is not one way Technological changes do precipitate social and value changes It is impossible to sustain egalitarian values in a society involving technology based on hierarchical relationships Understanding this connection is vital if we are to keep some control over the way in which technology affects us This revised edition brings the topic to life for both faculty and students **American Book Publishing Record** ,2006

**Gender and Genocide in Cambodia** Azra Rashid, 2023-10-31 This book explores the multiplicity of women s experiences in the Cambodian genocide during the four year rule of the Khmer Rouge The dominant discourses of genocide often speak from a patriarchal and national perspective rendering women speechless and yet in this volume the female survivors of the Cambodian genocide testify not only to the specific atrocities committed during the war but also to the pre war conditions that laid the groundwork for a gender specific victimization of women and its continuation post war With the help of testimonies from Khmer women who joined the Khmer Rouge women who experienced sexual violence during the Khmer Rouge era women who fled the country and the Cham women who faced expulsion from home this book explores the diversity of women s experiences under the Khmer Rouge Survivors accounts show that a Khmer woman s experience with the Khmer Rouge was considerably different from the experience of not only a Khmer man but also a woman from a religious or ethnic minority group or a woman who chose to join the Khmer Rouge These differences are conveniently ignored in nationalist discourses in Cambodia and by western scholars of history and gender based violence and they are given even less consideration in discourses about women survivors in diaspora Instead of forcing generalization and universalization of

gendered crimes of war Gender and Genocide in Cambodia employs feminist curiosity and closely examines women's experiences under the Khmer Rouge from multiple vantage points This volume is essential reading for students and scholars interested in gender and cultural studies political history and modern history **Cambodian Culture since 1975** Mayko Ebihara, Carol A. Mortland, Judy Ledgerwood, 2018-07-05 Since the civil war of the 1970s Cambodia has suffered devastating upheavals that killed a million people and exiled hundreds of thousands This book is the first to examine Cambodian culture after the ravages of the Pol Pot regime and to bear witness to the transformation and persistence of tradition among contemporary Cambodians at home and abroad Bringing together essays by Khmer and Western scholars in anthropology linguistics literature and ethnomusicology the volume documents the survival of a culture that many had believed lost Individual chapters explore such topics as Buddhist belief and practice among refugees in the United States distinctive features of modern Cambodian novels the lessons taught by Khmer proverbs some uses of metaphor by the Khmer Rouge regime the state of traditional music the recent revival of a form of traditional theater the concept of pain in Khmer culture changing conceptions of gender and refugees interpretation of American television Together the essays map a contemporary Cambodian culture which for over two hundred thousand Khmers is now firmly entwined in the social fabric of the urban West A Manual for Indochinese Refugee Education, 1976-1977 National Indochinese Clearinghouse and Technical Assistance Center, 1976 Ethnic Origins Jeremy Hein, 2006-04-13 Immigration studies have increasingly focused on how immigrant adaptation to their new homelands is influenced by the social structures in the sending society particularly its economy Less scholarly research has focused on the ways that the cultural make up of immigrant homelands influences their adaptation to life in a new country In Ethnic Origins Jeremy Hein investigates the role of religion family and other cultural factors on immigrant incorporation into American society by comparing the experiences of two little known immigrant groups living in four different American cities not commonly regarded as immigrant gateways Ethnic Origins provides an in depth look at Hmong and Khmer refugees people who left Asia as a result of failed U S foreign policy in their countries These groups share low socio economic status but are vastly different in their norms values and histories Hein compares their experience in two small towns Rochester Minnesota and Eau Claire Wisconsin and in two big cities Chicago and Milwaukee and examines how each group adjusted to these different settings The two groups encountered both community hospitality and narrow minded hatred in the small towns contrasting sharply with the cold anonymity of the urban pecking order in the larger cities Hein finds that for each group their ethnic background was more important in shaping adaptation patterns than the place in which they settled Hein shows how in both the cities and towns the Hmong's sharply drawn ethnic boundaries and minority status in their native land left them with less affinity for U S citizenship or Asian American panethnicity than the Khmer whose ethnic boundary is more porous Their differing ethnic backgrounds also influenced their reactions to prejudice and discrimination The Hmong with a strong group identity perceived greater social

inequality and supported collective political action to redress wrongs more than the individualistic Khmer who tended to view personal hardship as a solitary misfortune rather than part of a larger scale injustice Examining two unique immigrant groups in communities where immigrants have not traditionally settled Ethnic Origins vividly illustrates the factors that shape immigrants response to American society and suggests a need to refine prevailing theories of immigration Hein s book is at once a novel look at a little known segment of America s melting pot and a significant contribution to research on Asian immigration to the United States A Volume in the American Sociological Association s Rose Series in Sociology Tourism Case Studies Asia-Pacific Region Taufik Abdullah,Reni Polus,2024-11-18 Tourism Case Studies from the Asia Pacific Region offers a comprehensive exploration of the diverse world of tourism within one of the most dynamic regions on the globe Authored by leading academic and industry experts this volume fills a crucial gap in tourism literature by providing practical and engaging case studies that highlight real world industry best practices challenges and opportunities Designed for both academic and professional audiences this volume serves as an essential resource for instructors looking to enhance their teaching practices students aspiring to succeed in the tourism industry and practitioners seeking to understand the complexities and opportunities within the Asia Pacific tourism landscape *Asian American History and Culture: An Encyclopedia* Huping Ling,Allan W. dominant views of these young rural women that they are controlled by global economic forces and national development policies or trapped by restrictive customs and Cambodia's tragic history. The author shows instead how these women shape and influence the processes of change taking place in present day Cambodia. Based on field research among women working in the garment industry, prostitution and street trading, the book explores the complex interplay between their experiences and actions, gender roles and the broader historical context. The focus on women involved in different kinds of work allows new insight into women's mobility, highlighting similarities and differences in working conditions and experiences. Young women's ability to utilize networks of increasing size and complexity allows them to move into and between geographic and social spaces that extend far beyond the village context. Women's mobility is further expressed in the flexible patterns of behavior that young rural women display when trying to fulfill their own modern aspirations along with their family obligations and cultural ideals.
