Beyond Power Marilyn French, 1985-01-01 The Oxford Handbook of Gender and Politics Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies The Feminist Care Tradition in Animal Ethics Josephine Donovan, Carol J. Adams, 2007 In *Beyond Animal Rights* Josephine Donovan and Carol J Adams introduced feminist ethic of care theory into philosophical discussions of the treatment of animals In this new volume seven essays from *Beyond Animal Rights* are joined by nine new articles most of which were written in response to that book and a new introduction that situates feminist animal care theory within feminist theory and the larger debate over animal rights Contributors critique theorists reliance on natural rights doctrine and utilitarianism which they suggest have a masculine bias They argue for ethical attentiveness and sympathy in our relationships with animals and propose a link between the continuing subjugation of women and the human domination of nature Beginning with the earliest articulation of the idea in the mid 1980s and continuing to the theory's most recent revisions this volume presents the most complete portrait of the evolution of the feminist care tradition **Emma Goldman** Bonnie Haaland, 1993 This book focuses on the ideas of Emma Goldman as they relate to the centrality of sexuality and reproduction and as such are relevant to the current feminist debates **BOOK JACKET** **Feminist Interpretations of Mary Daly** Sarah Lucia Hoagland, Marilyn Frye, 2010-11 This open ended anthology is a journey into the very canon that Mary Daly has argued to be patriarchal and demeaning to women This volume deauthorizes the official canon of Western philosophy and disrupts a related story told by some feminists who claim that Daly's work is unworthy of re-reading because it contains fatal errors The editors and contributors attempt to prove that Mary Daly is located in the Western intellectual tradition Daly may be highly critical of conventional Western epistemological and theological traditions but she nevertheless appropriates themes out of context for the building of her own systematic philosophy The following are just a few of the many themes explored in this volume the question of subjectivity understood as an ongoing process of becoming the ambiguity of the need for feminists of colonial nations to speak out about violence against women in other parts of the world while that speaking carries with it the stamp of a colonial location the territoriality of lesbian and women's space the theological dimensions of twentieth century Western philosophy Contributors are Wanda Warren Berry Purushottama Bilimoria Debra Campbell Molly Dragiewicz Frances Gray Amber L Katherine Ana Louise Keating Anne Marie Korte Mar a Lugones Geraldine Moane Sheilagh A Mogford Laurel C Schneider Renuka Sharma and Marja Suhonen Marginalities Gisela Norat, 2002 This collection of essays written in clear critical discourse is a practical tool for first time or hesitant Eltit readers who seek

Bullough, Brenda Shelton, Sarah Slavin, 1988-10-01 The Subordinated Sex traces the enduring powerful legacy of male attitudes toward women their sexuality and their roles as wives and mothers Traditionally the creators and chroniclers of opinion men have until recently written a history that reflects only their own convictions and impressions a history rarely punctuated by a female voice and founded on an almost universal belief in women's inferiority Acclaimed as a pioneering study when first published in 1973 Vern Bullough's work has since established itself as a standard in historical literature on women Updated and revised with Sarah Slavin and Brenda Shelton The Subordinated Sex is a vast survey ranging from prehistoric to contemporary times examining a diversity of cultures and taking into account writings from a great variety of sources From a consideration of Babylonian legal codes to Victorian prescriptive medical pamphlets medieval clerical treatises to Islamic erotic poetry Bullough and his coauthors recount not only how men have portrayed women but also how they have justified their subordination of the opposite sex In recent years women have successfully challenged males' self designated role as gatekeepers of written records and have found within the past a more complete view of how women lived what they thought and what they achieved By focusing however not on women's history but on the history of men's attitudes toward their female companions The Subordinated Sex reveals more than any other single work the conditions that sparked the feminist movement and the reasons it must inspire a change in the lives of men as well as women **Moral Boundaries** Joan Tronto, 2020-07-24 In Moral Boundaries Joan C Tronto provides one of the most original responses to the controversial

questions surrounding women and caring Tronto demonstrates that feminist thinkers have failed to realise the political context which has shaped their debates about care It is her belief that care cannot be a useful moral and political concept until its traditional and ideological associations as a women s morality are challenged Moral Boundaries contests the association of care with women as empirically and historically inaccurate as well as politically unwise In our society members of unprivileged groups such as the working classes and people of color also do disproportionate amounts of caring Tronto presents care as one of the central activities of human life and illustrates the ways in which society degrades the importance of caring in order to maintain the power of those who are privileged *Southernmost Art and Literary Portraits* Jimm
