Beyond Slavery Explorations Of Race Labor And Citizenship In Postemancipation Societies:

Beyond Slavery Frederick Cooper, Thomas Cleveland Holt, Rebecca J. Scott, 2014-06-30 In this collaborative work three leading historians explore one of the most significant areas of inquiry in modern historiography the transition from slavery to freedom and what this transition meant for former slaves former slaveowners and the societies in which they lived Their contributions take us beyond the familiar portrait of emancipation as the end of an evil system to consider the questions and the struggles that emerged in freedom's wake Thomas Holt focuses on emancipation in Jamaica and the contested meaning of citizenship in defining and redefining the concept of freedom Rebecca Scott investigates the complex struggles and cross racial alliances that evolved in southern Louisiana and Cuba after the end of slavery and Frederick Cooper examines the intersection of emancipation and imperialism in French West Africa In their introduction the authors address issues of citizenship labor and race in the post emancipation period and they point the way toward a fuller understanding of the meanings of freedom

Societies After Slavery Rebecca J. Scott, Thomas C. Holt, Frederick Cooper, Aims McGinness, 2002-08-18 One of the massive transformations that took place in the nineteenth and early twentieth centuries was the movement of millions of people from the status of slaves to that of legally free men women and children Societies after Slavery provides thousands of entries and rich scholarly annotations making it the definitive resource for scholars and students engaged in research on postemancipation societies in the Americas and Africa

HeinOnline's Beyond Slavery Frederick Cooper, Thomas Cleveland Holt, Rebecca Jarvis Scott, 2000 **Global Labour History** Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000

The Anti-Slavery Project Joel Quirk, 2011-05-26 It is commonly assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of

contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms Towards a Global History of Domestic and Caregiving Workers ,2015-05-26 Domestic and caregiving work has been at the core of human existence throughout history Poorly paid or even unpaid this work has been assigned to women in most societies and occasionally to men often as enslaved indentured adopted workers While some use domestic service as training for their own future independent households others are confined to it for life and try to avoid damage to their identities Part One Employment conditions are even worse in colonizer colonized dichotomies in which the subalternized have to run the households of administrators who believe they are running an empire Part Two Societies and states set the discriminatory rules those employed develop strategies of resistance or self protection Part Three A team of international scholars addresses these issues globally with a deep historical background Contributors are Ally Shireen Eileen Boris Dana Cooper Jennifer Fish David R Goodman Mary Gene De Guzman Jaira Harrington Victoria Haskins Dirk Hoerder Elizabeth Hordge Freeman Majda Hrenjak Elizabeth Hutchison Dimitris Kalantzopoulos Bela Kashyap Marta Kindler Anna Kordasiewicz Ms Lokesh Sabrina Marchetti Robyn Pariser Jessica Richter Magaly Rodriguez Garcia Raffaella Sarti Adla Souralov Yukari Takai and Andrew Urban The Oxford Handbook of Latin American History Jose C. An Indigenous Ocean Damon Salesa,2023-11-01 The Pacific's Indigenous times are not just smaller sections of larger histories but dimensions of their own Histories of our Pacific world are richly rendered in these essays by Damon Salesa From the first Indigenous civilisations that flourished in Oceania to the colonial encounters of the nineteenth century and on to the complex contemporary relationships between New Zealand and the Pacific Salesa offers new perspectives on this vast ocean its people its cultures its pasts and its future Spanning a wide range of topics from race and migration to Pacific studies and empire these essays demonstrate Salesa's remarkable scholarship Bridging the gap between academic disciplines and cultural traditions Salesa locates Pacific peoples always at the centre of their stories An Indigenous Ocean is a pivotal contribution to understanding the history and culture of Oceania Counting the Cost of Freedom Amanda Laury Kleintop,2025-08-19 During the Civil War the US government abolished slavery without reimbursing enslavers diminishing the white South's wealth by nearly 50 percent After the Confederacy's defeat white Southerners demanded federal compensation for the financial value of formerly enslaved people and fought for other policies that would recognize abolition's costs during Reconstruction As Amanda Laury Kleintop shows their persistence eventually led to the creation of Section 4 of the Fourteenth Amendment which abolished the right to profit from property in people Surprisingly former Confederates responded by using Lost Cause history making to obscure the fact that they had demanded financial redress in the first place The largely successful efforts of white Southerners to erase this history continues to generate false understandings today

Kleintop draws from an impressive array of archival sources to uncover this lost history In doing so she demonstrates how this legal battle also undermined efforts by formerly enslaved people to receive reparations for themselves and their descendants a debate that persists in today's national dialogue Gender and Slave Emancipation in the Atlantic World Pamela Scully, Diana Paton, 2005-10-04 A comparative perspective on the way ideas of gender relations and identities shaped the struggle over resources cultural practices and political rights that followed the end of slavery in the Atlantic world

Kongo in the Age of Empire, 1860-1913 Jelmer Vos, 2015 An insightful look at the onset of colonialism in Central Africa from economic religious and political perspectives examining the ultimately tragic participation of African elites in colonial rule *A World Divided* Eric D. Weitz, 2021-06 A global history of human rights in a world of nations that grant rights to some while denying them to others Once dominated by vast empires the world is now divided into some 200 independent countries that proclaim human rights a transformation that suggests that nations and human rights inevitably develop together But the reality is far more problematic as Eric Weitz shows in this compelling global history of the fate of human rights in a world of nation states Through vivid histories from virtually every continent *A World Divided* describes how since the eighteenth century nationalists have established states that grant human rights to some people while excluding others setting the stage for many of today's problems from the refugee crisis to right wing nationalism Only the advance of international human rights will move us beyond a world divided between those who have rights and those who don't

History Made Conscious Geoff Eley, 2023-08-29 During the last fifty years the writing of history underwent two massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture *History Made Conscious* offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics **Teaching American History in a Global Context** Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students understanding of American history It includes a wide range of materials from scholarly articles and reports to original syllabi and ready to use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view The contributors include well known American history scholars as well as gifted classroom teachers and the book's emphasis on immigration race and gender points to ways for teachers to integrate international and multicultural education America in the World and the World in America in their courses The book also

Emancipation Without Abolition in German East Africa, C.1884-1914 Jan-Georg Deutsch,2006 This study examines the complex history of slavery in East Africa focusing on the area that came under German colonial rule In contrast to the policy pursued at the time by other colonial powers in Africa the German authorities did not legally abolish slavery in their colonial territories However despite government efforts to keep the institution of slavery alive it significantly declined in Tanganyika in the period concerned This book highlights the crucial role played by the slaves in the process of emancipation The book is divided into three parts The first explores the rise of slavery in Tanganyika in the second half of the nineteenth century when the region became more fully integrated into the world economy This is followed by an analysis of German colonial policy The authorities believed that abolition should be avoided at all costs since it would undermine the power and prosperity of the local slave owning elites whose effective collaboration was thought to be indispensable to the functioning of colonial rule The final part recounts how slaves by their own initiative brought the evil institution to an end This comprised both highly disruptive moments of wholesale flight and depending on the possibility of escape and individual circumstances more subtle
