**A John Haught Reader** John F. Haught, 2018-11-06 Classical Christian theologies came to expression at a time when the universe seemed relatively fixed and unchanging The otherworldly spiritual instincts of many religions reflected a static vertical and hierarchical understanding of the natural world Today however especially because of developments in the sciences it appears that the universe is still coming into being The writings offered in this book reflect their author's belief that if the universe is unfinished new thoughts about God and all the traditional theological topics are essential to make sense of it all John Haught argues that the universe is best understood according to the metaphor of drama rather than design This means that the most important question in science and theology today is not whether the intricate complexity of life points to a deity or even how God acts in nature but whether the cosmic drama as a whole carries a meaning Unfortunately the devotional life of most religious people on our planet still presupposes an essentially immobile universe Christian instruction for example continues to nurture an otherworldly piety that estranges nature unnecessarily from God The readings in this book however suggest that the ancient Abrahamic hope for the coming of God from out of the future may now become the foundation of a scientifically up to date theology of nature that affirms divine transcendence without robbing nature of its significance

**A Passion for Truth** John Huntington, 2018-12-21 A Passion for Truth is an intimate account of John Huntington's interior life as a physical scientist and as a priest In mid career as a scientist he experienced a sudden and undeniable call to the priesthood It became imperative to work to reconcile his two vocations within a single worldview This plunged him into an intense reflection on the authority of physical science and the trustworthiness of religious experience He could not turn away from the question This book is the result The author uncovered a number of fallacies embedded in our Western culture that serve to impede spiritual formation and to discourage the faithful At the root of them all is the idea that it is acceptable to be careless with the truth In liberal academic circles this is called postmodernism in theology it is called relativism in physical science it is called scientism He concluded that if striving for clear thinking is our loving response to our Creator who endowed us with intellect then loose thinking permissive thinking untruth relativism could not be from God It cannot be condoned Huntington wants to awaken in us a passion for truth and in doing so he wants to comfort us and bring us hope

Garr, 2011-02-16 Since time immemorial women have been the most consistently and universally abused people group on Planet Earth as men in virtually every human culture have systematically unrelentingly and often violently dominated women Unfortunately women of faith have also been virtually bound in chains of submission and gagged by demands for silence since the end of the apostolic era God and Women brings serious biblical and historical
