**Financial Derivatives , The Forex Chartist Companion** Michael D. Archer, James Lauren Bickford, 2007-04-20 THE FOREX CHARTIST COMPANION The foreign exchange Forex market has quickly become the market of choice for traders looking to increase their profit potential. The combination of high liquidity and low transaction costs as well as twenty-four-hour accessibility has attracted the attention of both new and veteran traders. In The Forex Chartist Companion, authors and active Forex traders Michael Archer and James Bickford provide a visual window into the behavior of the Forex market along with detailed information on the mechanics of day trading, market entry timing, and much more. With this book as your guide, you'll not only become familiar with innovative software and charting systems that provide a graphical interpretation of the markets, but you'll also discover how to instantly see patterns throughout those markets. Divided into six comprehensive parts, The Forex Chartist Companion details Forex-specific charting techniques, illustrates the use of point and figure charting in conjunction with Forex trading, explores Forex swing charting, outlines a variety of Western and Japanese reversal charts from pivot charts to Kagi charts, examines the actual trading system of veteran futures guru Charles Goodman, and is filled with numerous charts annotated with Archer's insight into the material. In-depth information regarding charting theory. The Forex Chartist Companion will help serious traders use technical indicators to enter this market with confidence and exit with profits.

**The Complete Trading Course** Corey Rosenbloom, 2011-01-11 A practical guide covering everything the serious trader needs to know. While a variety of approaches can be used to analyze financial market behavior and identify potential trading/investing opportunities, no approach is completely accurate. The challenge for traders is to find a method that they feel comfortable with and are able to implement consistently through the normal ups and downs of trading. The Trading Course provides you with a detailed description of the methods used to analyze markets, spot profitable trading opportunities, and properly execute trades. Page by page, this book references different trading methodologies but focuses specifically on applying them when attempting to identify good trades. Discusses the principles of price behavior, trends, trade set-ups, trade execution, and intermarket relationships. Details different trading tools and techniques, including Japanese Candlesticks, Elliott Wave, Dow Theory, momentum indicators, and much more. If you want to become a successful trader, you have to be prepared. This book will show you what it takes to make it in this field and how you can excel without getting overwhelmed.
