Beyond Limits Tracers:

Shadow Fall Laura Griffin, 2015-09-22 While tracking a serial killer who is meticulously erasing all traces of evidence FBI Special Agent Tara Rushing is drawn to security expert Liam Wolfe who is helping her with the case but fears that he may be her target

Unforgivable Laura Griffin, 2010-11-30 Tracing killers is Mia Voss's business and her work just got personal At first Mia Voss thinks it's just bad luck when her already lousy day ends with a carjacking but what seems like a random incident is followed by another sinister episode A DNA expert Mia has made it her mission to put away vicious criminals Suddenly she's become the target of one And the only way to protect the people she loves most is to deliberately destroy her reputation and risk letting a killer walk free Once Mia had trusted Detective Ric Santos but that was before Ric let his turbulent past ruin his chances with Mia the sexiest most intriguing woman he's ever met But he can tell when she's lying and when she's scared The key to catching a sadistic madman lies within a long buried cold case that has haunted Mia for years Only she can uncover the truth but first Ric will have to get her to entrust him with her secrets and her life

Unspeakable Laura Griffin, 2010-06-29 In this top notch romantic suspense Allison Brennan rookie FBI profiler Elaina McCord finds herself stonewalled by local cops when she's sent out to profile a serial killer With the help of true crime writer Troy Stockton and the high tech Tracers forensics lab she uncovers the evidence that may put the killer away if he doesn't catch her first Elaina McCord's dream of being an FBI profiler is threatened by her very first case investigating a string of murders near a Texas beach resort The victims all young women were drugged and brutally murdered their bodies abandoned in desolate marshland Elaina's hunch met with disbelief by local police is that these are only the latest offerings from a serial killer who has been perfecting his art for years growing bolder and more cunning with each strike True crime writer Troy Stockton has a reputation as an irresistible playboy who gets his story at any cost He's the last person Elaina should trust let alone be attracted to But right now Troy along with the elite team of forensics experts known as the Tracers is her only ally in a case that's turning dangerously personal A killer is reaching out to Elaina taunting her letting her know how ruthless he is and how close he's getting Now it's not just her career that's in jeopardy it's her life

Tracers in the Oil Field B. Zemel, 1995-01-13 This book is concerned with the application of tracers to a wide variety of oil field operations It provides the necessary nuclear concepts and techniques which are basic to oil field tracer applications Laboratory and field techniques are explained and illustrated as are the associated regulatory and safety aspects Within the book each area of oil field use is considered separately and specific applications of tracers discussed and relevant literature reviewed The use of non radioactive tracers is pointed out wherever it is applicable Due to the nature of this competitive industry much research is poorly documented thus Tracers in the Oil Field aims to make the technology more available to current users in the oil field
