Materialist Feminisms Donna Landry, Gerald McLean, 1993-10-08 Materialist Feminisms investigates the crucial theoretical and political debates that have determined the course of British and American feminism over the last thirty years As intellectual terrain has shifted during these decades from Marxism to cultural materialism and poststructuralist literary theory questions of race

and ethnicity sexuality postcoloniality and green politics have converged and sometimes collided with the categories within feminism but analyze many of the most important texts and movements of contemporary cultural theory Offering not so much a unified history as an analysis of important moments within these debates this book examines the work of such feminist theorists as Michèle Barrett Judith Butler Rosalind Coward Donna Haraway bell hooks the m f collective Tania Modleski Jacqueline Rose Gayle Rubin Hortense Spillers and Gayatri Spivak Materialist Feminisms includes new exemplary readings of feminist detective African American and postcolonial fiction three kinds of textures commodity currently fetishized in the literary marketplace What might the success of these kinds of writing signify about politics and desire in contemporary Anglo American culture Demonstrating how the poststructuralist critique of essences and identities need not end in a complete paralysis of political action as has sometimes been claimed Materialist Feminisms argues that feminism socialism and deconstruction are not theoretical dead ends but names for unfinished business

[The Cosmic Oasis](#) Mark Williams, Jan Zalasiewicz, 2022. For all that we have discovered, thousands of planets around other stars, life in the luxurious abundance and complexity it has achieved on Earth may be a rarity. Soon after humans arrived, a mere blink of an eye ago in geological terms, we began to encroach on nature and how we are in full-scale assault on the biosphere. Mark Williams and Jan Zalasiewicz trace how life changed the Earth and the havoc humans have wreaked upon it, but also show ways in which we might use our imaginations and technological skills to enhance our lives while protecting the cosmic oasis on which we and all living things coexist.
