Photographer's Guide to the Panasonic Lumix DC-ZS200/TZ200 Alexander White, 2018-06-18 Photographer's Guide to the Panasonic ZS200 TZ200 is a complete guide to the use of the Panasonic Lumix DMC ZS200 camera which is known as the TZ200 in areas outside the United States. The book shows beginning and intermediate photographers how to capture excellent images and video sequences with the ZS200. The book explains the use of autofocus, manual focus, aperture, shutter speed, exposure compensation, white balance, and ISO, and many other settings. The book discusses the camera's options for playback, setup, and customizing the operation of its controls. The book contains more than 480 color photographs showing the camera's controls, display screens, and menus. The book includes photographs taken using the many creative settings of the camera, including the Photo Style settings, the Creative Control mode, picture effects, which provide the ability to customize the appearance of images in dramatic ways, and the camera's features for burst shooting and shooting in high contrast lighting conditions. The book explains how to use the ZS200's innovative features such as Light Composition and Sequence Composition, which enable the creation of multiple exposures of scenes with bright flashes, such as fireworks, or motions such as sports events. The book includes a full discussion of the video recording abilities of the ZS200 camera, which offers manual control of exposure and focus during movie recording, and provides ultra-high definition 4K recording of motion pictures. The book also explains the camera's features for extracting still images from 4K video and using the Post Focus feature to select a sharply focused image after a shooting session. In three appendices, the book discusses accessories for the ZS200, including cases, power supply options, and other items, and includes a list of websites and other resources for further information. The book includes an appendix with helpful Quick Tips that explain how to take advantage of the camera's features in the most efficient ways possible.

Photoshop Elements 6 for Mac: The Missing Manual Barbara Brundage, 2008-03-27 After more than two years, Adobe has finally released a new version of Photoshop Elements for the Mac. Version 6 packs a lot more editing firepower than iPhoto, and this Missing Manual puts every feature into a clear, easy-to-understand context, something that no other book on Elements does. Photoshop Elements 6 is perfect for scrapbooking, making fancy photo collages, and creating Web galleries. It has lots of new features, such as Guided Edit for performing basic editing tasks, an improved Photomerge feature, a handy Quick Selection Tool, and much more. But knowing what to do and when is tricky. Photoshop Elements 6 for Mac: The Missing Manual explains not only how the tools and commands work, but when to use them. With it, you will learn to import, organize, and fix photos quickly and easily. Repair and restore old and damaged photos, and retouch any image. Jazz up your pictures with dozens of filters, frames, and special effects. Learn which tools the pros use. You'll finally understand how layers work. Create collages and photo layout pages for greeting cards and other projects. Get downloadable practice images and try new tricks right away. This full-color guide starts with the simplest functions and progresses to increasingly complex features of Elements. If you're ready for the more sophisticated tools, you can easily jump around to

learn specific techniques As always author Barbara Brundage lets you know which Elements features work well which don't and why all with a bit of wit and humor Don't hesitate Now that Adobe's outstanding photo editor has been updated for the Mac dive in with Photoshop Elements 6 for Mac The Missing Manual right away *Photographer's Guide to the Leica C-Lux* Alexander S.
