**The Gaullist Attack on Canada, 1967-1997** J. F. Boshier,1999 What lay behind Charles de Gaulle s Vive le Qu bec libre speech in Montreal on 24 July 1967 Philippe Rossillon s activities in New Brunswick Belgium and Africa and the sinking of Greenpeace s Rainbow Warrior in New Zealand in 1985 J F Boshier argues that the motivation behind all these incidents was a policy of underhanded imperial ambition on the part of France In The Gaullist Attack on Canada he contends that French nationalists have been at work behind the screen of harmless fraternising of international francophonie in order to stimulate French revolutionary nationalism in Quebec and elsewhere and that the Gaullist ideology behind these attempts rests on a set of myths about past events age old resentment of the English speaking nations and a deep rooted belief in the superiority of France its language and its culture The Gaullist Attack on Canada reveals a phase of French imperialism that poses a threat to Canadian Confederation Since the 1960s Boshier argues de Gaulle and his followers have conspired to stimulate Quebec separatism as part of their larger goal to revive France s role as a great power He bases his case on the evidence of France s actions in other former French colonies especially in Africa as well as the writings of such leading Gaullist conspirators as Bernard Dorin Pierre Claude Mallen Pierre de Menthon and Philippe Rossillon who have boasted about their efforts to win Quebec away from Canada for France Boshier criticises the Canadian government for its failure to respond to or even to recognise the Gaullist threat The Under Secretary of State for External Affairs in the 1960s Marcel Cadieux wanted to take vigorous steps against the Gaullist mafia but was overruled by his political superiors Boshier argues that even now by standing up to French aggression the government might weaken the separatist movement in Quebec or at least turn the tide of political support for it Gender and French Identity After the Second World War, 1944-1954 Kelly Ricciardi

Colvin,2017-09-07 The enfranchisement of women in Charles de Gaulle s France in 1944 is considered a potent element in the nation s self crafted triumphant World War Two narrative the French conquered by the Germans valiantly resisted until they rescued themselves and built a new democracy honoring France s longstanding liberal traditions Kelly Ricciardi Colvin s Gender and French Identity after the Second World War 1944 1954 calls that potent element into question By analyzing a

range of sources including women's magazines, trials, memoirs and spy novels, this book explores the ways in which culture was used to limit the power of the female vote. It exposes a wide network of constructed behavioral norms that supported a conservative vision of French identity. Taken together, they depicted men as virile Resisters for French democracy and history and women as solely domestic support. Indeed, Colvin shows that women's access to the vote emerged alongside an explosion of cultural messages that encouraged them to retreat into the home to find mates to have millions of beautiful babies in the words of de Gaulle and not to challenge patriarchy in any way. This is a vital study for understanding the nature of postwar France and women's history in 20th century Europe. Crisis and Renewal in France, 1918-1962 Kenneth Mouré, Martin S. Alexander, 2002. Since 1914, the French state has faced a succession of daunting crises. This book showcases significant new scholarship reflecting greater access to French archival sources and focuses on the role of crises in fostering modernisation.

**Handbook of Nuclear Proliferation** Harsh V Pant, 2012-02-27. The chapters of this proposed volume are intended to shed light on the diverse themes surrounding this very important issue area in international security. Each of the six major sections addresses an aspect of nuclear proliferation that will be critical in determining the future trajectory of global politics in the years to come. The first section examines the major thematic issues underlying the contemporary discourse on nuclear proliferation. How do we understand this period in proliferation? What accounts for a taboo on the use of nuclear weapons so far and will it survive? What is the present state of nuclear deterrence models built during the Cold War? What is the relationship between the pursuit of civilian nuclear energy and the risks of proliferation? Why are we witnessing a move away from non-proliferation to counter-proliferation? The second section gives an overview of the evolving nuclear policies of the five established nuclear powers: the USA, Russia, the United Kingdom, France, and the People's Republic of China. Section three looks at the three de facto nuclear states: India, Pakistan, and Israel. The fourth section examines the three problem areas in the proliferation matrix today: Iran, North Korea, and the potent mix of non-state actors and nuclear weapons. The fifth section sheds light on an important issue often ignored during discussions of nuclear proliferation: cases where states have made a deliberate policy choice of either renouncing their nuclear weapons programme or have decided to remain a threshold state. The cases of South Africa, Egypt, and Japan will be the focus of this section. The final section will examine the present state of the global nuclear non-proliferation regime, which most observers agree is currently facing a crisis of credibility. The three pillars of this regime: the Nuclear Non-Proliferation Treaty (NPT), the Comprehensive Test Ban Treaty (CTBT), and the Fissile Material Cut Off Treaty (FMCT) will be examined. This is followed by an analysis of the present trends and prospects for US-Russia nuclear arms control. The impact of missile defenses and the US-India civilian nuclear energy co-operation pact will be examined so as to ascertain whether they have weakened or strengthened the global non-proliferation regime. The chapters in this volume aim to document the increasing complexity of the global nuclear proliferation dynamic and the inability of the international community to come to terms with a rapidly changing strategic milieu. The future, in all likelihood, will be very

different from the past and the chapters in this volume will try to develop a framework that may help gain a better understanding of the forces that will shape the nuclear proliferation debate in the years to come
