Equity & Cultural Responsiveness in the Middle Grades Kathleen M. Brinegar, Lisa M. Harrison, Ellis Hurd, 2019-04-01 While developmental responsiveness is a deservedly key emphasis of middle grades education this emphasis has often been to the detriment of focusing on the cultural needs of young adolescents This Handbook volume explores research relating to equity and culturally responsive practices when working with young adolescents Middle school philosophy largely centers on young adolescents as a collective group This lack of focus has great implications for young adolescents of marginalized identities including but not limited to those with culturally and linguistically diverse backgrounds LGBTQ youth and those living in poverty If middle level educators claim to advocate for young adolescents we need to mainstream conversations about supporting all young adolescents of marginalized identities It empowers researchers educators and even young adolescents to critically examine and understand the intersectionality of identities that historically influenced and continue to affect young adolescents and why educators might perceive marginalized youth in certain ways It

is for these reasons that researchers teachers and other key constituents involved in the education of young adolescents must devote themselves to the critical examination and understanding of the historical and current socio cultural factors affecting all young adolescents The chapters in this volume serve as a means to open an intentional and explicit space for providing a critical lens on early adolescence a lens that understands that both developmental and cultural needs of young adolescents need to be emphasized to create a learning environment that supports every young adolescent learner Make Learning Personal Barbara Bray, Kathleen McClaskey, 2014-10-10 Put learning back into the hands of the learner Personalized learning empowers learners to take control of their own learning This resource draws on Universal Design for Learning principles to create a powerful shift in classroom dynamics by developing self directed self motivated learners You ll discover A system that reduces barriers and maximizes learning for all learners An explanation distinguishing personalization from differentiation and individualization The Stages of Personalized Learning Environments that transform teacher and learner roles Background information to build a rationale on why to personalize learning Strategies around the culture shift in classrooms and schools as you personalize learning As recognized authorities the authors have led educational innovation for almost three decades How to Personalize Learning Barbara Bray, Kathleen McClaskey, 2016-09-29 HOW to Personalize Learning This practical follow up to Bray and McClaskey s first book Make Learning Personal The What Who Wow Where and Why brings theory to practice Teachers will find the tools skills and strategies needed to personalize learning and develop self directed independent learners with agency Discover how to get started and go deeper by building a shared vision that supports personalized learning using the Universal Design for Learning UDL framework Also included are Tools and templates such as the Learner Profile Personal Learning Backpack Personal Learning Plan as well as tips for lesson design and PBL Lesson and project examples that show how teachers can change instructional practice by encouraging learner voice and choice QR codes and links to the authors website for electronic versions of tools templates activities and checklists Create a powerful shift in education by building a culture of learning so every learner is valued If you are looking for a step by step guide on what personalized learning is and how to implement it while being inspired and gaining ideas to implement immediately this is definitely the book to read Diana Petschauer Assistive Technology Professional CEO AT for Education Access4Employment Wolfeboro Falls NH Barbara and Kathleen present well tested strategies for personalization within a coherent framework This highly practical book forms a reliable foundation for empowering a community striving to make schools work for all learners John H Clarke Professor Emeritus University of Vermont *Students at the Center* Bena Kallick, Allison Zmuda, 2017-01-30 Educators most important work is to help students develop the intellectual and social strength of character necessary to live well in the world The way to do this argue authors Bena Kallick and Allison Zmuda is to increase the say students have in their own learning and prepare them to navigate complexities they face both inside and beyond school This means rethinking traditional teacher and student roles and re examining goal setting lesson planning
