Best Kind of College, The Susan McWilliams, John E. Seery, 2015-07-06 Small college professors from across the United States explain why liberal arts institutions remain the gold standard for higher education The fevered controversy over America's educational future isn't simply academic those who have proposed sweeping reforms include government officials politicians foundation officers think tank researchers journalists media pundits and university administrators Drowned out in that noisy debate are the voices of those who actually teach the liberal arts exclusively to undergraduates in our nation's small liberal arts colleges or SLACs The Best Kind of College attempts to rectify that glaring oversight As an insiders guide to the liberal arts in its truest form the volume brings together thirty award winning professors from across the country to convey in various ways some of the virtues the electricity and overall the importance of the small seminar face to face approach to education as typically featured in SLACs Before we in the United States abandon or compromise our commitment to the liberal arts oddly enough precisely at a time when our global competitors are discovering emulating and founding American style SLACs and new liberal arts programs we need a wake up call namely to the fact that the nation's SLACs provide a time tested model of educational integrity and success At last some good news about education This collection brings together essays by professors at small liberal arts colleges voices largely unheard in the debates raging about higher education It ranges widely through disciplines and across colleges taking us into classrooms where we see the creative inventive kinds of teaching that go on when classes are kept small and professors can interact with students This book is a welcome corrective to claims that higher education is broken and in need of a high tech fix a quiet reminder that innovation goes on as a matter of course at colleges where teaching is top priority and is kept to human scale Gayle Greene Scripps College McWilliams and Seery have achieved something remarkable they have found a new and interesting way to present the case for the liberal arts model in American education More than that they have managed to show the value of as well as present the argument for the model At its best the book recreates something of the experience of a liberal arts education in microcosm This is a wonderful provocative engaging and moving book It is unlikely to be surpassed Simon Stow author of Republic of Readers The Literary Turn in Political Thought and Analysis

Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer's Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita Vortex Sutra poets have long given solitary voice against

the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet s relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements

The Poetics of the American Suburbs Jo Gill,2013-10-16 The first scholarly study of the rich body of poetry that emerged from the post war American suburbs Gill evaluates the work of forty poets including Anne Sexton Langston Hughes and John Updike Combining textual analysis and archival research this book offers a new perspective on the field of twentieth century American literature

In the Memory of the Map Christopher Norment,2012-03-15 Throughout his life maps have been a source of imagination and wonder for Christopher Norment

Mesmerized by them since the age of eight or nine he found himself courted and seduced by maps which served functional and allegorical roles in showing him worlds that he might come to know and helping him understand worlds that he had already explored Maps may have been the stuff of his dreams but they sometimes drew him away from places where he should have remained firmly rooted In the Memory of the Map explores the complex relationship among maps memory and experience what might be called a cartographical psychology or cartographical history Interweaving a personal narrative structured around a variety of maps with stories about maps as told by scholars poets and fiction writers this book provides a dazzlingly rich personal and intellectual account of what many of us take for granted A dialog between desire and the maps of his life an exploration of the pleasures utilitarian purposes benefits and character of maps this rich and powerful personal narrative is the matrix in which Norment embeds an exploration of how maps function in all our lives Page by page readers will confront the aesthetics mystery function power and shortcomings of maps causing them to reconsider the role that maps play in their lives

Sticking It Out in Tough Times (Collection) Doug Lennick,Fred Kiel Ph.D.,Jon Huntsman,2013-08-22 In Moral Intelligence 2 0 Lennick and Kiel extensively identify the moral components at the heart of the recent financial crisis

and illuminate the monetary and human costs of failed moral leadership in global finance business and government The authors begin by systematically defining the principles of moral intelligence and the behavioral competencies associated with them Next they demonstrate why sustainable optimal performance on both an individual and organizational level requires the development and application of superior moral and emotional competencies Using many new examples and real case studies and new interviews with key business leaders they identify connections between moral intelligence and higher levels of trust engagement retention and innovation Readers will find specific guidance on moral leadership in both large organizations and entrepreneurial ventures as well as a new practical step by step plan for measuring and strengthening every component of moral intelligence from integrity and responsibility to compassion and forgiveness In Jon Huntsman s **Winners Never Cheat Even In Difficult Times** Who s Jon Huntsman Someone who started with practically nothing and made it to Forbes list of America s Top 100 richest people a self made multi billionaire This book presents the lessons of his lifetime in business a life that has included the best of times and the worst The first edition became an instant classic now Huntsman has thoroughly updated it with new chapters on maintaining your principles in difficult times when dishonest sharks seem to be everywhere This is no mere exhortation it s as practical as a book can get It s about how you listen to your moral compass even as others ignore theirs It s about building teams with higher values sharing success and taking responsibility earning the rewards that only come with giving back Huntsman built his career and fortune on these principles You don t live them just to win you live them because they re right But in an age of cheating and scandal Huntsman s life proves honesty is more than right it s your biggest competitive differentiator So consider what kind of person you want to do business with Then be that person and use this book to get you there All author royalties from this book go to the Huntsman Cancer Foundation

Forgetful Muses

Ian Lancashire,2010-01-01 How can we understand and analyze the primarily unconscious process of writing In this groundbreaking work of neuro cognitive literary theory Ian Lancashire maps the interplay of self conscious critique and unconscious creativity Forgetful Muses shows how a writer s own anonymous that part of the mind that creates language up to the point of consciousness is the genesis of thought Those thoughts are then articulated by an author s inner voice and become subject to critique by the mind s reader editor The reader editor engages with the anonymous which uses this information to formulate new ideas Drawing on author testimony cybernetics cognitive psychology corpus linguistics text analysis the neurobiology of mental aging and his own experiences Lancashire s close readings of twelve authors including Caedmon Chaucer Coleridge Joyce Christie and Atwood serve to illuminate a mystery we all share

Teaching with Heart

Sam M. Intrator,Megan Scribner,2014-05-19 Each and every day teachers show up in their classrooms with a relentless sense of optimism Despite the complicated challenges of schools they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future In Teaching with Heart Poetry that Speaks to the Courage to Teach a diverse group of ninety teachers describe the complex of emotions and

experiences of the teaching life joy outrage heartbreak hope commitment and dedication Each heartfelt commentary is paired with a cherished poem selected by the teacher The contributors represent a broad array of educators K 12 teachers principals superintendents college professors as well as many non traditional teachers They range from first year teachers to mid career veterans to those who have retired after decades in the classroom They come from inner city suburban charter and private schools The teachers identified an eclectic collection of poems and poets from Emily Dickinson to Richard Wright to Mary Oliver to the rapper Tupac Shakur It is a book by teachers and for all who teach The book also includes a poignant Foreword by Parker J Palmer The Courage to Teach a stirring Introduction by Taylor Mali What Teachers Make and a moving Afterword by Sarah Brown Wessling Teaching Channel Where Teaching with Fire honored and celebrated the work of teachers Teaching with Heart salutes the tenacious and relentless optimism of teachers and their belief that despite the many challenges and obstacles of the teaching life much is possible
