Martyn Colebrook, Katharine Cox, 2013-08-01 This collection of 12 new essays brings together prominent literary experts to explore the importance of Scottish writer Iain M Banks both his mainstream and science fiction work It considers Banks as a habitual border crosser who makes things fresh and new by subversive and transgressive strategies The essays are divided into four thematic areas the Scottish context the geographies of his writing the impact of genre and a combined focus on gender games and play and will be of particular interest to scholars of contemporary literature Scottish literature and science fiction **Masculinity in Contemporary Science Fiction by Men**

Sara Martín, 2025-05-30 Masculinity in Contemporary Science Fiction by Men No Plans for the Future is the first comprehensive study of the self representation of men in SF novels published in the twenty first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic overview of men s contributions to current SF and explore their slow but noticeable progress in the representation of gender The impact of feminism and gender studies and the demands of readers have profoundly transformed men s SF which now presents far more caring and vulnerable male characters The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti patriarchal pro feminist future for men and for all human beings The authors analysed include Robert Charles Wilson Geoff Ryman Samuel R Delany Richard K Morgan John Scalzi Iain M Banks Ernest Cline James S A Corey Colson Whitehead Andy Weir Daniel H Wilson Ian McDonald Yoon Ha Lee Tade Thompson Neal Stephenson and Kim Stanley Robinson **Science Fiction and Empire**

Patricia Kerslake, 2007-04-01 This book is about the human desire to experiment with empire In the past it was done with real soldiers and expeditions and slaves and trade and misery and force In the future it will be done with generation ships and off world pioneers robots and invasion electronic sheep and people who just don t want to be pushed around any more Beginning with a discussion of who we are hopefully the good guys and who they are anyone who isn t us this narrative scans the lights of science fiction looking at the places where humans try to touch a variety of futures Is SF designed to

purge our dark imperialistic fantasies or is it a laboratory of mind experiments carefully considered trials of political social and economic scenarios Which tomorrow are we more likely to accept where the blood of empire is red or read Examining such classic SF texts as Lasswitz's Two Planets and Wells The War of the Worlds this book investigates Asimov's Robots and Heinlein's Moon as well as Robinson's Mars and Banks postcolonial Culture We see the rise and fall of empire through the eyes of Miller Clarke and Wyndham and the apparently inevitable failure of the imperial project as discussed in Solaris The Dispossessed and The Forever War This book offers an insight into the darkest power abuses of mankind where the oppression silencing and marginalisation of those who are not us continues and flourishes Who are the monsters of our future the Others invading from another planet or the unseen and unrecognised Other within **The Culture of "The Culture"**

Joseph S. Norman, 2021-01-05 In a career that spanned over thirty years Iain M Banks became one of the best loved and most prolific writers in Britain with his space opera series concerned with the pan galactic utopian civilisation known as the Culture widely regarded as his most significant contribution to science fiction The Culture of The Culture focuses solely on this series providing a comprehensive thematic analysis of Banks's Culture stories from Consider Phlebas to The Hydrogen Sonata It explores the development of Banks's political philosophical and literary thought arguing that the Culture offers both an image of a harmonious civilisation modelled on an alternative socialist form of globalisation and a critique of our neo liberal present As Joseph Norman explains the Culture is the result of an ongoing utopian process attempting through the application of technoscience to move beyond obstacles to progress such as imperialism capitalism the human condition religious dogma patriarchy and crises in artistic representation The Culture of The Culture defines Banks's creation as culture a utopian way of doing of being of seeing an approach an attitude and a lifestyle that has enabled and is evolving alongside utopia rather than an image of a static end state *Use Of Weapons* Iain M. response to these ideological matters can be identified in popular prose fiction during the period under discussion. Although Scottish literary fiction of recent decades has been studied in considerable depth, Scottish popular genre literature has received markedly less critical scrutiny in comparison. *Notional Identities* aims to help in redressing this balance, examining popular Scottish texts of the stated period in order to reflect upon whether a significant relationship can be discerned between genre fiction and the mainstream of Scottish literary writing and to consider the characteristics of the literary connections which exist between these different modes of writing.

Impossibility Fiction Derek Littlewood, Peter Stockwell, 1996. Impossibility fiction is an intergenre that has recently been the resort of many writers searching for new ways of understanding and expressing the real world of the imagination, making use of fantasy, alternative history and science fiction. Coping with ideas that are both impossible and realistically constructed is the ultimate contemporary challenge of our technology. The chapters of this book move towards establishing appropriate readings that allow contemporary readers to negotiate unreality, a skill that the end of the millennium is making inevitably necessary. Such strategies have long been the preserve of literary and cultural study and here a number of well-regarded scholars and some new to the field make their contribution to an area that has become increasingly important in recent years. From Mary Shelley to Philip K. Dick, Iain M. Banks to J. G. Ballard, taking in African American science fiction, *Jurassic Park* and Kurt Vonnegut, and exploring issues of alternative history and ideology, feminism, the Holocaust, characterisation and impossible geography, this collection is an important source book for all those interested in the literature, culture and philosophy of realistic impossible worlds.

Scotland as Science Fiction Caroline McCracken-Flesher, 2012. Scots like Iain M. Banks and Ken MacLeod lead in a futuristic tradition, for from MacDonald, Barrie and Stevenson onwards Scots have been speculating in ways derived from their unique circumstances. Lacking political power, they imagine future spaces and different places with

Lieux de vie en science-fiction Danièle André, 2021-04-29. Un lieu de vie peut être un espace restreint, clos et très délimité, ou il peut être aussi vaste que l'univers. Pourtant, il ne se limite pas à un espace géographique, il est aussi parfois un espace plus abstrait, uniquement délimité par des liens sociaux. Enfin, il peut aussi être virtuel, fantasmé ou vécu comme tel. Les textes rassemblés dans cet ouvrage offrent des regards croisés sur les manières dont la science-fiction, quels que soient ses formes et supports, comprend et utilise la notion de lieux de vie pour la redéfinir, l'interroger et porter un autre regard sur notre monde dans ses différentes dimensions : sociale, politique, architecturale, urbaine, etc.
