V By AC Crispin:

V: The Original Miniseries Kenneth Johnson, A. C. Crispin, 2008-10-28 An oppressive alien force threatens to take over the earth and it is up to a small band of resistance fighters to overcome both alien tyranny and the apathetic responses of humanity

V A. C. Crispin, 1984 Based on a movie for television

Offshore Floating Production Max Lemanski, Simon Moore, Stuart Beadnall, 2023-02-10 This is the first book to focus on the law and practice relating to offshore oil and gas floating production It deals with all legal and commercial risk management issues from initial concept through design construction modification installation acceptance production and offloading including ancillary legal topics JV consortiums financing insurance decommissioning and intellectual property Floating production projects are a popular method of achieving offshore oil and gas production utilising vessels sitting over the offshore reservoir receiving well fluids which are then processed stored and offloaded to tankers They operate in deep water harsh conditions and marginal fields and may be redeployed once the reservoir is depleted There are numerous legal issues which arise in the context of floating production due to its specific characteristics presenting a unique combination of challenges with the attendant risks and potential liabilities This book analyses these risks and liabilities and considers how they may be allocated between the parties how the consequences are avoided or mitigated and how disputes are in practice resolved It illustrates these issues and competing legal arguments by focusing on each stage of the relationship between the oil and gas company and a specialist floating production contractor The book will be of special interest to project managers and in house lawyers at oil companies offshore contractors design consultants construction companies suppliers vessel operators banks insurers and investors It will also be of particular use to private practice lawyers in all jurisdictions where these projects occur because contracts used in this industry are often written under English law and contracts which are governed by local law follow a similar pattern

Keating on Construction Contracts Stephen Furst, Vivian Ramsey, Sarah Hannaford, Adrian Williamson, Donald Keating, John Uff, 2012 With a chapter on public procurement by Sarah Hannaford A commentary on JCT forms of contract by Adrian Williamson and a commentary of the infrastructure conditions of contract by John Uff

Legal Aspects of Transnational Marketing & Sales Contracts Charles Chatterjee, 2012-09-10 The primary objective of the book is to introduce the reader to techniques of negotiating transnational marketing and sales contracts bearing in mind the most important regulatory measures relevant to transnational marketing and sale of goods Since a transnational approach is adopted the contents of the book are applicable to any jurisdiction The work deals with certain issues which have assumed particular importance in contract negotiation for example equality of parties full disclosure of quality and standards of goods product liability restrictions as to advertising products and so on as well as discussing the variety of payment methods that have been developed in view of the changing context of international businesses

Offshore Construction Stuart Beadnall, Simon Moore, 2016-06-10 With thirty per cent of the world's oil and gas production coming from offshore areas the

construction of specialist vessels to perform offshore operations is a crucial part of the industry. However, with exploration and production being performed in increasingly exacting locations, the scope for disputes arising from cost overruns, scheduling delays and technical difficulties is immense. In the absence of legal precedent, this ground-breaking title provides practical guidance on avoiding and resolving disputes in the construction of offshore units and vessels, including FPSOs, drilling units, OSVs and fixed platforms. Written by a leading team at Stephenson Harwood, this book covers the entire construction process from initial concept right through to installation, at each stage commenting on typical contract terms and offering expert advice based on real-life examples. Key topics include Design risk, Changes to the work, Consequences of delay, Acceptance Tests, Termination, Dispute resolution. This unique text will be of enormous assistance both to legal practitioners and offshore construction professionals, including project managers, financiers, insurers and sub-contractors.

Conflict of Laws John Greenwood Collier, 2001-09-27 Collier's classic text in this area will be valuable to students and practitioners. **Defamation** Andrew Kenyon, 2013-09-05 *Defamation: Comparative Law and Practice* offers a timely and original investigation into defamation law and litigation practice in England, Australia and the United States, combining close legal analysis and extensive empirical research to examine central aspects of defamation law. This groundbreaking contribution to legal knowledge will be useful to researchers, academics, students and practitioners working in media and communications law. It will enable lawyers outside the US to make more informed use of US law and commentary, and it sets out in an accessible manner the intricacies of English and Australian defamation law and practice for US legal readers.

The Victorian Reports, 1896 **Building Contract Claims** David Chappell, 2011-07-22 Many building projects are the subject of claims, the assertion of a right, usually by the contractor, to an extension of the contract period or an additional payment under the terms of the building contract. Many of these claims are unsound or ill-founded, often because the basic principles are misunderstood. This highly regarded book examines the legal basis of claims for extensions of time and additional payment and what can and cannot be claimed under the main forms of contract. It includes chapters dealing with direct loss and expense, liquidated damages, extension of time, concurrency problems, acceleration, time at large, common law and contractual claims, global claims and heads of claim and their substantiation. With the publication of the fifth edition, *Building Contract Claims* has been thoroughly revised to ensure it is fully up to date with the latest contracts, court judgments and building practice. Changes include coverage of over 60 additional relevant court cases, coverage of the 2005 JCT contracts suite, coverage of changes to the NEC contract, coverage of additional contracts such as Constructing Excellence, Measured Term Contract and the ACA PPC2000 contract, together with the 2005 relevant JCT sub-contracts. Important changes to liquidated damages and to extensions of time and the giving of notices. Appendix 1 has been substantially revised. Like its predecessors, the fifth edition of *Building Contract Claims* will be essential reading for architects, contract administrators, project managers and quantity surveyors, as well as contractors, contracts consultants and

construction lawyers Succession, Wills and Probate Caroline Sawyer, Miriam Spero, 2015-05-15 Succession Wills and Probate is an ideal textbook for those taking an undergraduate course in this surprisingly vibrant subject and also provides a clear and comprehensive introduction for professionals Against an account of the main social and political themes of succession law the book gives detailed explanations of core topics such as alternatives to wills and the making altering and revocation of wills It also explains personal representatives and how they should deal with a deceased person s estate and interpret and implement the will Gifts may fail estates may be insolvent or a person may die intestate without a will at all Increasingly relatives and others seek to challenge the will for example on the grounds of the testator s capacity or under the law of family provision This third edition is edited updated and revised to take account of new legislation and case law across all the relevant issues including a new final chapter dealing with the potentially contentious issues that are becoming more central to professional work in the field of succession *The International Sale of Goods 5e* Michael Bridge, 2024-02-08 The fifth edition of this leading authority continues to provide comprehensive analysis of the law and practice of sale of goods under English and international law It is an indispensable resource for practitioners scholars and postgraduate students
