Esercitazioni di diritto privato Salvatore Di Blasi, 1986 Manuale di diritto civile Francesco Caringella, Giuseppe De Marzo, 2008 La Nuova Giustizia Civile (02/2014) Luca Tantalò, 2014-03-22 Bimestrale di diritto processuale civile diretto da Luca Tantalò Anno 1 Numero 2 marzo 2014 **Foundations of Property Law** Christian von Bar, 2023-08-10

Foundations of Property Law Things as Objects of Property Rights is an abridged translation of the first volume of Christian von Bar's *Gemeineuropäisches Sachenrecht* a milestone in European private law theory and in comparative property law more broadly. Radical in content and scope the English version examines the dynamics of interaction between the objects, contents and holders of property. The conceptual framework of property law is presented as a domain of erga omnes monopoly rights that govern the relationship between persons and objects of value. Within that framework a reciprocal relationship is illustrated between property rights and their objects: property rights play a role in constituting the very objects, things in which they are held. With comprehensive comparative analysis insights are gleaned from all the jurisdictions of the European Union and the United Kingdom presenting a critical evaluation of property law systems in both Common and Civil Law traditions. This book joins all the national legal systems in a single inquiry treating their traditions and arguments with the respect they deserve and taking advantage of the knowledge embodied in the diversity of European private law. A scholastic work offering deep and unique insights into the European property law systems *Foundations of Property Law* will quickly become a go-to resource for anyone interested in European private law and comparative property law.

The Principles of European Contract Law Ole Lando, 2023-09-29 An arbitrator has to decide a case under a contract to be governed by internationally accepted principles of law. A business person is negotiating a contract with a company in another EU state but neither party wishes to apply the law of the other party's country. A lawyer is advising parties to contracts involving parties in other States. An EU official is drafting a new Directive affecting contracts. A professor of law wants her students to gain a solid understanding of the way in which contracts are treated by the laws of the different Member States and to understand the common principles. All these need to know the fundamental principles of contract law shared by the legal systems of the Member States and to have a concise, comprehensive and workable statement of them. *The Principles of European Contract Law* provides this. The Principles have been drawn up by an independent body of experts from each Member State of the EU under a project supported by the European Commission and many other organisations. The Principles are stated in the form of articles with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder. A particularly valuable feature is that each article also has extensive comparative notes surveying the national laws and other international provisions on the topic. *The Principles of European Contract Law* Parts I & II covers the core rules of contract formation, authority of agents, validity, interpretation, contents, performance, non-performance and remedies. The articles previously published in Part I 1995 are included in a revised and re-ordered form.
