Thinkers Of The East By Idries Shah:

Thinkers of the East Idries Shah,2002 Drawn from teachings of more than a hundred sages from three continents Thinkers of the East is a book of enormous breadth and depth the impact and vitality of which is characteristic of the Sufi emphasis on experience rather than theory Thinkers of the East Idries Shah,2019-08-20 Thinkers of the East is a collection of anecdotes and parables in action illustrating the eminently practical and lucid approach of Eastern Dervish teachers Distilled from the teachings of more than one hundred sages in three continents this material stresses the experimental rather than the theoretical and it is that characteristic of Sufi study which provides its impact and vitality The emphasis of Thinkers of the East contrasts sharply with the Western concept of the East as a place of theory without practice or thought without action The book s author Idries Shah says Without direct experience of such teaching or at least a direct recording of it I cannot see how Eastern thought can ever be understood Thinkers of the East Idries Shah,2016-06-01 Thinkers of the East is a collection of anecdotes and parables in action illustrating the eminently practical and lucid approach of Eastern Dervish teachers Distilled from the teachings of more than one hundred sages in three continents this material stresses the experimental rather than the theoretical and it is that characteristic of Sufi study which provides its impact and vitality The emphasis of Thinkers of the East contrasts sharply with the Western concept of the East as a place of theory without practice or thought without action The book s author Idries Shah says Without direct experience of such teaching or at least a direct recording of it I cannot see how Eastern thought can ever be understood **Thinkers of the East (Pocket Edition)** Idries Shah,2019-08-19 Thinkers of the East is a collection of anecdotes and parables in action illustrating the eminently practical and lucid approach of Eastern Dervish teachers Distilled from the teachings of more than one hundred sages in three continents this material stresses the experimental rather than the theoretical and it is that characteristic of Sufi study which provides its impact and vitality The emphasis of Thinkers of the East contrasts sharply with the Western concept of the East as a place of theory without practice or thought without action The book s author Idries Shah says Without direct experience of such teaching or at least a direct recording of it I cannot see how Eastern thought can ever be understood Catching the Thread Llewellyn Vaughan-Lee,Irina Tweedie,1998-07-10 A pioneering work integrating the traditional wisdom of the Sufis with the insights of Jungian psychology *Philosophy and Art in Gurdjieff's Beelzebub* Anna T. Challenger,2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff s world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff s masterpiece Beelzebub s Tales to His Grandson is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation **Idries Shah Anthology** Idries Shah,2019-03-01 In his writing about Sufism Idries Shah did some revolutionary things Critically and almost alone he said that it was possible to divorce the essence of Sufi philosophy from what he insisted were secondary accretions of islamic culture and religion Moreover he said in making

this material available to the West you could not only do this you must do it This is because he believed you can only absorb materials that are designed for your own time and place Sufism as an essence may be truth without form but in order to penetrate into the human mind it must be delivered in a package shaped to fit the receiving culture When something new enters a culture there is a period where like a new object being thrown into the chimpanzee pen at a zoo all the chimps rush over to touch it throw it on the floor fight over it and so on he once told me We must wait until the dust settles only then will people be in a position to assess this material My father died in 1996 and the dust is settling fast He leaves a body of work behind and on this work alone he believed he should and would be judged This anthology is intended to provide a basic sample of his work an essential reader to allow people to do exactly what he would have wished them to do to think for themselves and to make up their own minds From the Editor's Note by Saira Shah The Magic Monastery Idries Shah,1991 **Essence with the Elixir of Enlightenment** A. H. Almaas,1998-03-01 The revolutionary book of Western and Eastern approaches to psychological and spiritual development is combined with a text on overcoming challenges Yoga Journal Essence H A Almaas's groundbreaking book weaving together modern psychology and ancient spiritual teaching is offered in this special edition with an introduction addressing contemporary obstacles on the journey to enlightenment The Elixir of Enlightenment is directed toward students on the path who are frustrated by either the spiritual or psychological barriers that Western life can present Almaas discusses the values and shortcomings of spiritual training and explores why an impasse may occur Then he reveals how a precise understanding of your own personality can free your inner resources so that your essential being can lead you toward enlightenment **The Mind Field** Robert E. Ornstein,1996 Ornstein is a brain researcher who refuses to budge In what is essentially a series of essays The Mind Field takes a rational scientific look at the esoteric envelope psychotherapy Eastern mysticism intuition training parapsychology *A Commuter's Guide to Enlightenment* Stewart Bitkoff,2008 For years Dr Stewart Bitkoff suffered through every traffic jam flat tire and rude driver that marred his long commute to New York City until he discovered how to transform this soul draining journey into one filled with divine lessons and meaning Blending spiritual wisdom with his own astute life observations from the road Dr Bitkoff teaches readers how to live in the present and find joy in ordinary moments His personal stories draw insightful parallels between the road of life and one's spiritual path Meditations tips exercises and prayers will help you shut off shallow concerns center yourself and open up to a higher consciousness Whether you're a stockbroker a student or a soccer mom this guide will show you how to find tranquility during life's most stressful and tiresome activities Listen to Dr Bitkoff's weekly internet radio talk show Practical Wisdom Tuesday 1 2 pm go to www.pibco1.com **Wicked, Wicked Libels** Michael Rubinstein,2024-11-18 The law of libel is the instrument of censorship by which dignity too often pseudo dignity is to be upheld That is Michael Rubinstein's definition in his introduction to this lively and authoritative account Wicked Wicked Libels originally published in 1972 of the libel situation in Britain The contributors are all actively concerned about libel as a

living issue Michael Rubinstein writes first about the popular appetite for scandal and the other contributors view libel from various angles H Montgomery Hyde looks at the law of libel itself Louis Blom Cooper writes about the conflicts between freer speech and privacy and Anthony Lincoln discusses the problems facing legal advisers to the press William Kimber Richard Ingrams and Cecil H King look at the subject from the publisher's point of view Eugene Gros writes as a successful plaintiff Louis A Abraham looks at defamation as contempt of Parliament and Michael Rubinstein contributes a chapter on book publishing and the law of libel There are also two important appendices of particular interest one an account by Harold Laski of a day in court and the other a Press comment on the PQ 17 case after the hearing in the Court of Appeal *Thinking Like a Lawyer* Paul McKechnie, 2017-07-31 This is a book about the law and life of Rome in which contributors respond to John Crook's injunction to think like lawyers by ranging as far as ancient Greece ancient Persia and modern Denmark to expound their themes and draw comparisons An opening section focuses on Civil Law more or less as conventionally conceived with chapters on the *peculium* on municipal law at Irni in Roman Spain on advisers of Roman provincial governors and on violent crime Roman perceptions of the physical and human worlds are the focus of a second section and comparisons between Greek Roman and modern ways of thinking about law and government come into the third section In the final section contributors argue the history of law and life from refractions of real and imagined Rome *Tales for an Unknown City* Dan Yashinsky, 1992 *Tales for an Unknown City* is a vibrant selection of almost fifty stories from among the many told at One Thousand and One Friday Nights of Storytelling a weekly open gathering in Toronto begun by Dan Yashinsky in 1978 and still going strong There are tales from Canada and many other parts of the world each followed by a brief word from the teller giving us the flavour of the Friday Nights *Sufi Thought and Action* Idries Shah, 1990 This book is an anthology of the extraordinary diversity of Sufi ideas and activities in many countries and cultures today Nothing approaching this kind of survey has ever been assembled In addition to first hand accounts of Sufi learning methods subjects covered include the Sufi meeting place avoiding imitators Sufi work enterprises the idea of organic enterprises entry into a Sufi group the Sufi Adept and the projection of mind extra sensory perception what the Sufis do not want us to know and more *Healing the Wounded Mind* Kingsley L. Dennis, 2019-10-10 There is a mental malaise creeping through the collective human mindset Mass psychosis is becoming normalized It is time to break free One of the key problems facing human beings today is that we do not look after our minds As a consequence we are unaware of the malicious impacts that infiltrate and influence us on a daily basis This lack of awareness leaves people open and vulnerable Many of us have actually become alienated from our own minds argues Kingsley L Dennis This is how manipulations occur that result in phenomena such as crowd behaviour and susceptibility to political propaganda consumerist advertising and social management Mass psychosis is only possible because humanity has become alienated from its transcendental source In this state we are prisoners to the impulses that steer our unconscious We may believe we have freedom but we don't *Healing the Wounded Mind* discusses these external

influences in terms of a collective mental disease the wetiko virus Forbes ahrimanic forces Steiner the alien mind Castaneda and the collective unconscious shadow Jung The human mind has been targeted by corrupt forces that seek to exploit our thinking on a grand scale This is the magician s trick that has kept us captive within the social systems that both distract and subdue us In the first part of this transformative book the author outlines how the Wounded Mind manifests in cultural conditioning from childhood onwards In the second part he examines how hypermodern cultures are being formed by this mental psychosis and shaping our brave new world In an inspiring conclusion we are shown the gnostic path to freedom through connecting with the transcendental source of life **The Trouble with Christianity** Philip Voerding,2009-08

Doris Lessing Gayle Greene,1994 An original and compelling appraisal of this important international literary figure

The Sacred Revival Kingsley L. Dennis,2017-10-24 The Sacred Revival is a thought provoking examination of the social cultural and personal development that is part of a new and unfolding era in our history Its central thesis is that a new form of energy has entered our post industrial post mechanical epoch and that this energy will be more conducive to a respect for feminine attributes and organization and our inward interior search and gaze The author predicts there will be a healing of life on the planet from an emerging new planetary ecosystem that will be physical digital biological and a greater drive toward a coherent cosmic consciousness He explains that one of our greatest needs is for a connection with the transcendent
