The White Disease By Karel Capek:

Karel Čapek Ivan Klíma, 2002 And although originally written in Czech the book was commissioned by Catbird Press and was therefore written with foreign readers in mind in other words no prior knowledge of Capek's writings or his milieu is required **BOOK JACKET** The White Plague Karel Čapek, 1988 **The Coasts of Bohemia** Derek Sayer, 2020-06-30 In *The Winter's Tale* Shakespeare gave the landlocked country of Bohemia a coastline a famous and to Czechs typical example of foreigners' ignorance of the Czech homeland Although the lands that were once the Kingdom of Bohemia lie at the heart of Europe Czechs are usually encountered only in the margins of other people's stories In *The Coasts of Bohemia* Derek Sayer reverses this perspective He presents a comprehensive and long needed history of the Czech people that is also a remarkably original history of modern Europe told from its uneasy center Sayer shows that Bohemia has long been a theater of European conflict It has been a cradle of Protestantism and a bulwark of the Counter Reformation an Austrian imperial province and a proudly Slavic national state the most easterly democracy in Europe and a westerly outlier of the Soviet bloc The complexities of its location have given rise to profound and often profoundly comic reflections on the modern condition Franz Kafka Jaroslav Hasek Karel Capek and Milan Kundera are all products of its spirit of place Sayer describes how Bohemia's ambiguities and contradictions are those of Europe itself and he considers the ironies of viewing Europe the West and modernity from the vantage point of a country that has been too often ignored *The Coasts of Bohemia* draws on an enormous array of literary musical visual and documentary sources ranging from banknotes to statues museum displays to school textbooks funeral orations to operatic stage sets murals in subway stations to censors' indexes of banned books It brings us into intimate contact with the ever changing details of daily life the street names and facades of buildings the heroes figured on postage stamps that have created and recreated a sense of what it is to be Czech Sayer's sustained concern with questions of identity memory and power place the book at the heart of contemporary intellectual debate It is an extraordinary story beautifully told **Rethinking Democracy for Post-Utopian Worlds** Jorge León Casero, Julia Urabeyn, 2024-06-06 This book is both a conceptualization and detailed analysis of the current crisis in which modern utopian categories of political institutions find themselves as well as a reflection and clarification of the new dangers and opportunities facing post utopian politics in the making Met with those who believe that no more utopian political projects are possible the post utopian movement maintains a non fantastic or illusory character of being able to apply new great discourses and radically democratic historical narratives while respecting both the autonomy and emancipation of individuals as plurality and the socio cultural differences of communities With this purpose in mind the book is divided into five thematically differentiated sections the new utopian categories beyond modern epistemes the possibility of liberal utopian democracies without neoliberalism the opportunities of socialist empowerments and insurgencies the necessity of thinking in the space between two ages and the urgency to create eco political post utopias **The Barrandov Studios** Bernd

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2007-07-18 The third volume in the *History of the Literary Cultures of East Central Europe* focuses on the making and remaking of those institutional structures that engender and regulate the creation, distribution and reception of literature. The focus here is not so much on shared institutions but rather on such region wide analogous institutional processes as the national awakening, the modernist opening and the communist regimentation, the canonization of texts and censorship of literature. These processes which took place in all of the region's cultures were often asynchronous and subjected to different local conditions. The volume's premise is that the national awakening and institutionalization of literature were symbiotically interrelated in East Central Europe. Each national awakening involves a language renewal, an introduction of the vernacular and its literature in schools and universities, the creation of an infrastructure for the publication of books and journals, clashes with censorship, the founding of national academies, libraries and theaters, a reconstruction of national folklore and the writing of histories of the vernacular literature. The four parts of this volume are titled: 1. Publishing and Censorship, 2. Theater as a Literary Institution, 3. Forging Primal Pasts: The Uses of Folk Poetry, and 4. Literary Histories: Itineraries of National Self-images.
