This Alien Shore C.S. Friedman, 2020-11-01 The first novel in a space opera duo set in the second age of stellar colonization It is the second age of stellar colonization The first age ended in disaster when it was discovered that superluminal travel inflicted permanent genetic damage to all who used it mutating Earth's far flung colonists in body and mind Earth abandoned them But some of the colonies survived and a new Outworld civilization of Variants has germinated They have given humanity back the stars but at a high price a monopoly over all commerce Following a corporate raid on a remote satellite an unusual young woman flees for the Up and Out But her narrow escape does not mean safety For speeding across the galaxy pursued by ruthless but unknown adversaries this young woman will discover a secret which is buried deep inside her psyche a revelation the universe may not be ready to face *The Secret Life of Stories* Michael

Bérubé, 2016-06-17 How an understanding of intellectual disability transforms the pleasures of reading Narrative informs everything we think do plan remember and imagine We tell stories and we listen to stories gauging their well formedness within a couple of years of learning to walk and talk Some argue that the capacity to understand narrative is innate to our species others claim that while that might be so the invention of writing then re wired our brains In *The Secret Life of Stories* Michael Bérubé tells a dramatically different tale in a compelling account of how an understanding of intellectual disability can transform our understanding of narrative Instead of focusing on characters with disabilities he shows how ideas about intellectual disability inform an astonishingly wide array of narrative strategies providing a new and startling way of thinking through questions of time self reflexivity and motive in the experience of reading Interweaving his own stories with readings of such texts as Faulkner's *The Sound and the Fury* Haddon's *The Curious Incident of the Dog in the Night Time* Kingston's *The Woman Warrior* and Philip K Dick's *Martian Time Slip* Bérubé puts his theory into practice stretching the purview of the study of literature and the role of disability studies within it Armed only with the tools of close reading Bérubé demonstrates the immensely generative possibilities in the ways disability is deployed within fiction finding in them powerful meditations on what it means to be a social being a sentient creature with an awareness of mortality and causality and sentience itself Persuasive and witty Michael Bérubé engages Harry Potter fans and scholars of literature alike For all readers *The Secret Life of Stories* will fundamentally change the way we think about the way we read **Utopian and Dystopian Explorations of**

second age of stellar colonization When deep space travel altered the genes of the first interstellar colonists Earth abandoned them But some of the colonies survived and a new civilization of mental and physical Variants has been established centered around clusters of space stations known as the outworlds Now the unthinkable has happened a suicide assault has destroyed the life support system of a major waystation All that is known about the young men responsible is that in their last living moments they were receiving messages from an uninhabited sector of space and were playing a virtual reality game Two unlikely allies have joined forces to investigate the incident Ru Gaya a mercenary explorer with a taste for high risk ventures and game designer Micah Bello who must find the parties responsible for the attack in order to clear his name From the corridors of a derelict station lost to madness to an outlaw stronghold in the depths of uncharted space the two now follow the trail of an enemy who can twist human minds to his purpose and whose plans could bring about the collapse of outworld civilization Praise for C S Friedman In interweaving the many threads of her narrative Friedman has created a potent metaphor for the toleration of diversity NEW YORK TIMES In many ways C S Friedman s work reminds me of William Gibson s unique settings complex and fascinating though not necessarily likeable characters cool ideas and technology a smart and savvy style FANTASY LITERATURE There is so much of interest here and rather than spend paragraph after paragraph describing it all which I could easily do I will simply tell you to read it It is a great book and well worth your time WORLDS WITHOUT END Year's Best SF 18 David G. Randall, C.S. Friedman, Misty Massey, Rhondi Salsitz, Edmund R. Schubert, R.K. Nickel, Marie DesJardin, Christine Lucas, 2019-06-30 What does it mean to be temporally deactivated Experience a historical moment through the intervention of a time travel agency Be trapped inside a time bubble willingly so that you can save the universe from Darkness over and over again Step outside of time at the order of your queen in order to stop a traitor or to keep an assassin from destroying the future Or travel forward into the future in order to kill off timelines to save your son or backwards to halt an accident to save your relationship Join fantasy and science fiction authors Ken Altabef Alex Gideon Stephen Leigh D B Jackson Faith Hunter C S Friedman Emily Randall Gini Koch Misty Massey Rhondi Salsitz Edmund R Schubert R K Nickel Marie DesJardin and Christine Lucas as they defy time and warp space in order to define what it means to be temporally deactivated So get ready and hold on tight It s time to step outside of time Apocalypse in American Literature and Culture John Hay, 2020-12-17 The idea of America has always encouraged apocalyptic visions The American Dream has not only imagined the prospect of material prosperity it has also imagined the end of the world Final forecasts constitute one of America s oldest literary genres extending from the eschatological theology of the New England Puritans to the revolutionary discourse of the early republic the emancipatory rhetoric of the Civil War the anxious fantasies of the atomic age and the doomsday digital media of today For those studying the history of America renditions of the apocalypse are simply unavoidable This book brings together two dozen essays by prominent scholars that explore the meanings of apocalypse across different periods regions genres registers modes and traditions of American literature and culture It locates the logic and rhetoric of apocalypse at the very core of American literary history **Maroons and the Marooned** Richard Bodek, Joseph Kelly, 2020-04-20 Contributions by Richard Bodek Claire P Curtis Joseph Kelly Simon Lewis Steve Mentz J Brent Morris Peter Sands Edward Shore and James O Neil Spady Commonly the word maroon refers to someone cast away on an island One becomes marooned usually through a storm at sea or by a captain as a method of punishment But the term originally denoted escaped slaves Though being marooned came to be associated mostly with white European castaways the etymology invites comparison between true maroons escaped slaves establishing new lives in the wilderness and people who were marooned through maritime disaster This volume brings together literary scholars with historians encompassing both literal maroons such as in Brazil and South Carolina as well as metaphoric scenarios in time travel novels and postapocalyptic narratives Included are examples from *The Tempest* Margaret Atwood s *MaddAddam* trilogy *A Connecticut Yankee in King Arthur s Court* and Octavia Butler s *Kindred* Both runaways and castaways formed new societies in the wilderness But true maroons escaped slaves were not cast away they chose to fly towards the uncertainties of the wild in pursuit of freedom In effect this volume gives these maroons proper credit at the very heart of American history Stranger Inside Steven Krane, 2003 At 17 troubled teen Jimmy Somerset finds himself forced into a secret government program called TRACE which wants Jimmy because he may be the key to solving a series of mysterious teen deaths Fifteen teens have died from internally generated
