story of contemporary immigrant experience ever to grace our literature."
— Joyce Anne Phillips

Typical American By Gish Jen:

Typical American Gish Jen, 2014-11-11 This irresistible novel of Chinese immigrants navigating the American dream is startling and heartrending without ever losing its comic touch Entertainment Weekly Gish Jen reinvents the American immigrant story through the Chang family who first come to the United States with no intention of staying But when the Communists assume control of China in 1949 Ralph Chang his sister Theresa and his wife Helen find themselves in a crisis struggling to cling to their old world ideas of themselves But soon they begin to dream the American dream of self invention They transform poignantly and ironically from people who disparage all that is typical American to people who aspire to the American ideal With droll humor and a deep empathy for her characters Gish Jen creates a superbly engrossing story that sparkles with wit while challenging the reader to reconsider what it means to be a typical American No paraphrase could capture the intelligence of Gish Jen's prose its epigrammatic sweep and swiftness The author just keeps coming at you line after stunning line The New York Times Book Review **A Study Guide for Gish Jen's "Typical American"** Gale,

writing and reevaluates current critical views on women's detective fiction in general. In the first two of the book's three sections, essays explore Muller's engagement with modern and postmodern feminism, ethnicity and the socially underprivileged. The third section focuses on one of Muller's major themes: the trauma of history. Drawing from the feminist, historicist, mythic, psychoanalytic and cultural approaches found in all three sections, the conclusion offers a panoramic perspective on Muller's accomplishments.

Orientalism and Reverse Orientalism in Literature and Film Sharmani Patricia Gabriel, Bernard Wilson, 2021-06-17 Acknowledging the significance of Edward Said's *Orientalism* for contemporary discourse, the contributors to this volume deconstruct, rearrange and challenge elements of his thesis, looking at the new conditions and opportunities offered by globalization. What can a renewed or reconceptualized *Orientalism* teach us about the force and limits of our racial imaginary, specifically in relation to various national contexts? In what ways, for example, considering our greater cross-cultural interaction, have clichés and stereotypes undergone a metamorphosis in contemporary societies and cultures? Theoretically and empirically, this book offers an expansive range of contexts, comprising the insights, analytical positions and perspectives of a transnational team of scholars of comparative literature and literary and cultural studies, based in Australia, Hong Kong, Japan, Malaysia, USA, Singapore, Taiwan and Turkey. Working with, through and beyond *Orientalism*, they examine a variety of cultural texts, including the novel, short story, poetry, film, graphic memoir, social thought and life writing. Making connections across centuries and continents, they articulate cultural representation and discourse through multiple approaches, including critical content analysis, historical contextualization, postcolonial theory, gender theory, performativity, intertextuality and intersectionality. Given its unique approach, this book will be essential reading for scholars of literary theory, film studies and Asian studies, as well as for those with a general interest in postcolonial literature and film.

The Pleasures and Horrors of Eating Marion Gymnich, 2010-09-15 Browsing through books and TV channels, we find people preoccupied with eating, cooking and competing with chefs. Eating and food in today's media have become a form of entertainment and art. A survey of literary history and culture shows to what extent eating used to be closely related to all areas of human life, to religion, eroticism and even to death. In this volume, early modern ideas of feasting, banqueting and culinary pleasures are juxtaposed with post-18th and 19th century concepts in which the intake of food is increasingly subjected to moral, theological and economic reservations. In a wide range of essays, various images, rhetorics and poetics of plenty are not only contrasted with the horrors of gluttony; they are also seen in the context of modern phenomena such as the anorexic body or the gourmandizing *bon te humaine*. It is this vexing binary approach to eating and food which this volume traces within a wide chronological framework and which is at the core not only of literature, art and film, but also of a flourishing popular culture.
