WASTED

Violence, addiction — and hope

Wasted By Mark Johnson

Robert L. Solso, Dominic W. Massaro

Wasted By Mark Johnson:

Wasted Mark Johnson, 2007 Mark Johnson's father had LOVE tattooed across his left hand but that didn't stop the beatings. The Johnson children would turn up to school with broken fingers and chipped teeth but no one ever thought of investigating their home life. Mark just slipped through the cracks and kept on falling. For years constantly in trouble at school, Mark began stealing at the age of seven, was drinking by the age of eight, and took his first hit of heroin aged eleven. A sensitive intelligent boy, he could never stay on the right path and though Art College beckoned, he ended up in Portland prison instead. With searing honesty, **WASTED** documents Mark's descent into the depths of addiction and criminality. Homeless, hooked on heroin and crack, no one least of all Mark believed he would survive. And yet astonishingly, he somehow pulled himself through and now runs his own thriving tree surgery business, employing and helping other recovering addicts. His story is at once shocking and inspiring, a compelling account of one man's struggle to save himself and help save others in the process.

Wasted: Performing Addiction in America Heath A. Diehl, 2016-02-17 Departing from the scholarly treatment of addiction as a form of rhetoric or discursive formation, **Wasted: Performing Addiction in America** focuses on the material lived experience of addiction and the ways in which it is shaped by a metaphor of waste from the manner in which people describe the addict, the experience of inebriation, or his or her systematic exclusion from various aspects of American culture. With analyses of scientific and popular cultural texts such as novels and films, scholarly or medical models of addiction, reality television, TV drama, public health, and anti-addiction campaigns, and the lives of celebrities who struggled with addiction, this book recovers the sense of materiality in which the experience of substance abuse is anchored, revealing addiction to be a set of socio-cultural practices, historically contingent events, and behaviours. Exploring the ways in which addiction as an identity construct, as a social problem, and as a lived experience is always and already circumscribed by the metaphor of waste, **Wasted: Performing Addiction in America** advances the idea that addiction constitutes a site of social control beyond the individual through which American citizenship is regulated and the

nation itself is imagined demarcated and contained As such it will appeal to scholars of popular culture cultural and media studies performance studies sociology and American culture *The Literature of Waste* S. Johnson and Boswell John B. Radner,2013-01-29 In this book

John Radner examines the fluctuating close and complex friendship enjoyed by Samuel Johnson and James Boswell from the day they met in 1763 to the day when Boswell published his monumental *Life of Johnson* Drawing on everything Johnson and Boswell wrote to and about the other this book charts the psychological currents that flowed between them as they scripted and directed their time together questioned and advised confided and held back It explores the key longings and shifting tensions that distinguished this from each man's other long term friendships while it tracks in detail how Johnson and Boswell brought each other to life challenged and confirmed each other and used their deepening friendship to define and assess themselves It tells a story that reaches through its specificity into the dynamics of most sustained friendships with their breaks and reconnections their silences and fresh intimacies their continuities and transformations

Narratives of Addiction Kevin McCarron, 2022-01-03 *Narratives of Addiction* Savage Usury is the first book to argue in the face of more than a century's received wisdom that drug addiction and alcoholism are undoubtedly evidence of individual moral flaws However the sense of morality that underlies this book is completely severed from Christianity Instead it is influenced in particular by the writings of the nineteenth century German philosophers Arthur Schopenhauer and Frederick Nietzsche both of whom insisted that a genuine morality was actually incompatible with Christianity The sequence of chapters moves from addictions on the streets into rehab clinics and finally into the meetings of Alcoholics Anonymous and Narcotics Anonymous This is the first book to argue that the search for pleasure drives alcoholism and drug addiction and not the numbing of pain Throughout the book I reject the claims of the medical profession as embodied by the American Medical Association that drug addiction and alcoholism are diseases and further argue that they do not have the authority to tell hundreds of millions of Americans that addiction is not a moral failing I also query throughout the book the claims of neuroscience psychology and the social sciences that addictions to alcohol and drugs are attributable to causes that their specific disciplines are best suited to understand I argue that there is nothing complex about addiction it is a simple behavioural disorder The language routinely employed to discuss addiction is similarly not complex just confused and so it is also the rhetoric of addiction discourse especially its use of simile metaphor and euphemism that this book evaluates
