The Promise of Salvation Martin Riesebrodt, 2010-02-15 Why has religion persisted across the course of human history Secularists have predicted the end of faith for a long time but religions continue to attract followers Meanwhile scholars of religion have expanded their field to such an extent that we lack a basic framework for making sense of the chaos of religious phenomena To remedy this state of affairs Martin Riesebrodt here undertakes a task that is at once simple and monumental to define understand and explain religion as a universal concept Instead of propounding abstract theories Riesebrodt concentrates on the concrete realities of worship examining religious holidays conversion stories prophetic visions and life cycle events In analyzing these practices his scope is appropriately broad taking into consideration traditions in Judaism Christianity Islam Buddhism Daoism and Shinto Ultimately Riesebrodt argues all religions promise to avert misfortune help their followers manage crises and bring both temporary blessings and eternal salvation And as The Promise of Salvation makes clear through abundant empirical evidence religion will not disappear as long as these promises continue to help people cope with life

Teaching Ritual Catherine Bell, 2007-05-11 There is a great deal of interest in bringing a better appreciation of ritual into religious studies classes but many teachers are uncertain how to go about doing this Religious studies faculty know how to teach texts but they are often unprepared to teach something for which the meaning lies in the doing How much doing should a class do How does the teacher talk about religious concepts that exist in practical relationships not textual descriptions These practical issues also give rise to theoretical questions Giving more attention to ritual effectively suggests a reinterpretation of religion itself focused on what people have thought and written and more focused on how they order their universe Much of the useful analysis of ritual derives from anthropological and sociological premises which are often foreign to religious studies faculty and are seen by some as theologically problematic This is the first resource to address the issues specific to teaching this subject A stellar cast of contributors who teach ritual in a wide variety of courses and settings explain what has worked for them in the classroom what hasn't and what they've learned from experience Their voices range from personal to formal and their topics from Japanese theatre to using field trips The result is a thoughtful guide for teachers who are new to the subject as well as experienced ones looking for fresh angles and approaches
