Alexanders Heirs The Age Of The Successors

**Monica D'Agostini,Edward M.
Anson,Frances Pownall**

Alexanders Heirs The Age Of The Successors:

Alexander's Heirs Edward M. Anson, 2014-07-14 *Alexander's Heirs* offers a narrative account of the approximately forty years following the death of Alexander the Great during which his generals vied for control of his vast empire and through their conflicts and politics ultimately created the Hellenistic Age. Offers an account of the power struggles between Alexander's rival generals in the forty year period following his death. Discusses how Alexander's vast empire ultimately became the Hellenistic World. Makes full use of primary and secondary sources. Accessible to a broad audience of students, university scholars and the educated general reader. Explores important scholarly debates on the Diadochi. *Affective Relations and Personal Bonds in Hellenistic Antiquity* Monica D'Agostini, Edward M. Anson, Frances Pownall, 2020-11-23 The intense bonds among the king and his family, friends, lovers and entourage are the most enticing and intriguing aspects of Alexander the Great's life. The affective ties of the protagonists of Alexander's Empire nurtured the interest of the ancient authors as well as the audience in the personal life of the most famous men and women of the time. These relations echoed through time in art and literature to become paradigm of positive or negative human behavior. By rejecting the perception of the Macedonian monarchy as a positivist king army based system and by looking for other political and social structures Elizabeth Carney has played a crucial role in prompting the current re appraisal of the Macedonian monarchy. Her volumes on *Women and Monarchy in Ancient Macedonia* University of Oklahoma Press 2000 *Olympias Mother of Alexander the Great* Routledge 2006 *Arsinoe of Egypt and Macedon A Royal Life* Oxford University Press 2013 have been game changers in the field and has offered the academic world a completely new perspective on the network of relationships surrounding the exercise of power. By examining Macedonian and Hellenistic dynastic behavior and relations she has shown the political yet tragic heroic thus human side thus connecting Hellenistic political and social history. Building on the methodological approach and theoretical framework engendered by Elizabeth Carney's research this book explores the complex web of personal relations inside and outside the oikos family governing Alexander's world which sits at the core of the inquiry into the human side of the events shedding light on the personal dimension of history. Inspired by Carney's seminal work on Ancient Macedonia the volume moves beyond the traditionally rationalist and positivist approaches towards Hellenistic antiquity into a new area of humanistic scholarship by considering the dynastic bloodlines as well as the affective relations. The volume offers a discussion of the intra and extra familial network ruling the Mediterranean world at the time of Philip and Alexander. Building on present scholarship on relations and values in Hellenistic Monarchies the book contributes to a deeper historical understanding of the mutual dialogue between the socio cultural and political approaches to Hellenistic history.

Hellenistic Lives Plutarch, 2016 *Alexander Demosthenes Phocion Eumenes Demetrius Pyrrhus Agis and Cleomenes Aratus Philopoemen Flamininus* This selection of ten Lives traces the history of Hellenistic Greece from the rise of Macedon and Alexander's conquest of the Persian empire to the arrival of the Romans. Plutarch's biographies of eminent politicians

rulers and soldiers combine vivid portraits of their subjects with a wealth of historical information they constitute a uniquely important source for the period We see how Greek politics changed as Macedon's power grew and we learn of the warlords who followed Alexander Resistance to Macedon is reflected in the Lives of Demosthenes and Aratus and that of Agis and Cleomenes two revolutionary kings of Sparta The volume concludes with the emergence of Rome in Greek affairs and the life of Flamininus the Roman general who defeated Philip V of Macedon Plutarch's elegant style combines anecdote and erudition humour and psychological insight consummately translated by Robin Waterfield and introduced by Andrew Erskine These Lives from the Hellenistic period complement Greek Lives and Roman Lives in Oxford World's Classics ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

A Genealogical and Heraldic History of the Landed Gentry of Great Britain Sir Bernard Burke, 1921 **Creators, Conquerors, and Citizens** Robin Waterfield, 2018 A fascinating accessible and up to date history of the Ancient Greeks Covering the Archaic Classical and Hellenistic periods and centred around the disunity of the Greeks their underlying cultural unity and their eventual political unification *The Courts of Philip II and Alexander the Great* Frances Pownall, Sulochana R. Asirvatham, Sabine Müller, 2022-01-19 Recent scholarship has recognized that Philip II and Alexander the Great adopted elements of their self fashioning and court ceremonial from previous empires in the Ancient Near East but it is generally assumed that the advent of the Macedonian court as a locus of politics and culture occurred only in the post Alexander landscape of the Hellenistic Successors This volume of ground breaking essays by leading scholars on Ancient Macedonia goes beyond existing research questions to assess the profound impact of Philip and Alexander on court culture throughout the ages The papers in this volume offer a thematic approach focusing upon key institutional cultural social ideological and iconographical aspects of the reigns of Philip and Alexander The authors treat the Macedonian court not only as a historical reality but also as an object of fascination to contemporary Greeks that ultimately became a topos in later reflections on the lives and careers of Philip and Alexander This collection of papers provides a paradigm shifting recognition of the seminal roles of Philip and Alexander in the emergence of a new kind of Macedonian kingship and court culture that was spectacularly successful and transformative Ptolemy I Ian Worthington, 2016 This is the first full length biography of Ptolemy I of Egypt in English From his boyhood friendship with Alexander the Great to his reign as king and pharaoh of Egypt Ptolemy's story is one of ambition and ruthlessness as he helped shape Egypt's history and that of the early Hellenistic world **Accustomed to Obedience?** Joshua P. Nudell, 2023-03-06 Many histories of Ancient Greece center their stories on Athens but what would that history look like if they didn't There is another way to tell this story one that situates Greek history in terms of the relationships between

smaller Greek cities and in contact with the wider Mediterranean In this book author Joshua P Nudell offers a new history of the period from the Persian wars to wars that followed the death of Alexander the Great from the perspective of Ionia While recent scholarship has increasingly treated Greece through the lenses of regional polis and local interaction there has not yet been a dedicated study of Classical Ionia This book fills this clear gap in the literature while offering Ionia as a prism through which to better understand Classical Greece This book offers a clear and accessible narrative of the period between the Persian Wars and the wars of the early Hellenistic period two nominal liberations of the region The volume complements existing histories of Classical Greece Close inspection reveals that the Ionians were active partners in the imperial endeavor even as imperial competition constrained local decision making and exacerbated local and regional tensions At the same time the book offers interventions on critical issues related to Ionia such as the Athenian conquest of Samos rhetoric about the freedom of the Greeks the relationship between Ionian temple construction and economic activity the status of the Panionion Ionian poleis and their relationship with local communities beyond the circle of the dodecapolis and the importance of historical memory to our understanding of ancient Greece The result is a picture of an Aegean world that is more complex and less beholden narratives that give primacy to the imperial actors at the expense of local developments **Demetrius**

James Romm, 2022-11-29 A portrait of one of the ancient world's first political celebrities who veered from failure to success and back again The life of Demetrius 337-283 BCE serves as a through line to the forty years following the death of Alexander the Great 323-282 BCE a time of unparalleled turbulence and instability in the ancient world With no monarch able to take Alexander's place his empire fragmented into five pieces Capitalizing on good looks youth and sexual prowess Demetrius sought to weld those pieces together and recover the dream of a single world state with a new Alexander himself at its head He succeeded temporarily but in crucial colossal engagements a massive invasion of Egypt a siege of Rhodes that went on a full year and the Battle of Ipsus he came up just short He ended his career in a rash invasion of Asia and became the target of a desperate manhunt only to be captured and destroyed by his own son in law **A Genealogical and**

Heraldic History of the Landed Gentry of Great Britain & Ireland Bernard Burke, 1894 **The Demades Papyrus**

(P. Berol. inv. 13045) Davide Amendola, 2022-10-03 Despite the significance of its contents the so-called Demades papyrus P. Berol. inv. 13045 has received scarce scholarly attention since the 1923 *editio princeps* by Karl Kunst This unique late second century BCE document of almost 430 lines was found in the Egyptian chora but it is supposed to have been written in Alexandria where it probably served as a textbook for the highest level of rhetorical education Besides shedding new light on its find circumstances and physical aspects the volume offers a full re-edition and commentary of the two *adespota* texts contained in it namely a eulogy of the Lagid monarchy and a historical work consisting of a dialogue between Demades and his prosecutor in the trial of 319 BCE at the court of Pella The aim of the accompanying introduction is to address the question of the origin nature and purpose of such fragments and of the collection itself as well as to show to what extent the

papyrus contributes to a better understanding of some of the main historical events of the early Hellenistic period This book is thus meant to fill a significant gap in Classical scholarship all the more so as a close investigation of most of the topics dealt with therein has hitherto been lacking
