Psychodynamic, Affective, and Behavioral Theories to Psychotherapy Marty Sapp, 2010 The goal of this book is to examine three major theories and their approach to psychotherapy psychodynamic affective and behavioral which are defined as specific skills that a clinician or student can readily understand In this book these theories of psychotherapy are broken down into three phases or levels beginning Level I intermediate Level II and action Level III Theories that are Level I will be appropriate for establishing a counseling relationship Level II counseling skills further enhance this initial counseling relationship Level III theories are action oriented theories

Applying Career Development Theory to Counseling

Richard S. Sharf, 2002 Book is divided into an introduction and four parts trait and type theories life span theory special focus theories and theoretical integration Trait and type theories emphasize the assessment of interests abilities achievements personality and values along with the acquisition of occupational information Life span theory follows a chronological approach studying people across four broad stages in the life span Special focus theories include the application to career development issues of research in psychology such as constructivist theory and learning theory Part three also includes contributions from sociology and economics Part four deals with how these theories can be combined for effective career counseling The last chapter Chapter 16 also discusses the relevance of career development theories to special issues such as noncounseling interventions group counseling and job placement among other concerns Preface

Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling
