Robert Armin and Shakespeare's Performed Songs Catherine A. Henze, 2017-06-26 After Robert Armin joined the Chamberlain s Men singing in Shakespeare s dramas catapulted from 1 25 songs and 9 95 lines of singing per play to 3 44 songs and 29 75 lines of singing a virtually unnoticed phenomenon In addition many of the songs became seemingly improvisatory similar to Armin s personal style as an author and solo comedian In order to study Armin s collaborative impact this interdisciplinary book investigates the songs that have Renaissance music that could have been heard on Shakespeare s stage They occur in some of Shakespeare s most famous plays including *Much Ado About Nothing* *Twelfth Night* *Hamlet* and *The Tempest* In fact Shakespeare s plays as we have them are not complete They are missing the music that could have accompanied the plays songs Significantly Renaissance vocal music far beyond just providing entertainment was believed to alter the bodies and souls of both performers and auditors to agree with its characteristics directly inciting passions from love to melancholy By collaborating with early modern music editor and performing artist Lawrence Lipnik Catherine Henze is able to provide new performance editions of seventeen songs including spoken interruptions and cuts and rearrangement

of the music to accommodate the dramatist's words. Next Henze analyzes the complete songs words and music according to Renaissance literary and music primary sources and applies the new information to interpretations of characters and scenes frequently challenging commonly held literary assessments. The book is organized according to Armin's involvement with the plays before, during, and after the comic actor joined Shakespeare's company. It offers readers the tools to interpret not only these songs but also vocal music in dramas by other Renaissance playwrights. Moreover, Robert Armin and Shakespeare's Performed Songs, written with non-specialized terminology, provides a gateway to new areas of research and interpretation in an increasingly significant interdisciplinary field for all interested in Shakespeare and early modern drama.

Shakespeare and Marx Gabriel Egan, 2004-09-30 Marxist cultural theory underlies much teaching and research in university departments of literature and has played a crucial role in the development of recent theoretical work. Feminism, New Historicism, cultural materialism, postcolonial theory, and queer theory all draw upon ideas about cultural production which can be traced to Marx and significantly each also has a special relation with Renaissance literary studies. This book explores the past and continuing influence of Marx's ideas in work on Shakespeare. Marx's ideas about cultural production and its relation to economic production are clearly explained together with the standard terminology and concepts such as base superstructure, ideology, commodity, fetishism, alienation, and reification. The influence of Marx's ideas on the theory and practice of Shakespeare criticism and performance is traced from the Victorian age to the present day. The continuing importance of these ideas is illustrated via new Marxist readings of *King Lear*, *Hamlet*, *The Merchant of Venice*, *Timon of Athens*, *The Comedy of Errors*, *All's Well that Ends Well*, and *The Winter's Tale*.

New Approaches to Literature for Language Learning Jeneen Naji, Ganakumaran Subramaniam, Goodith White, 2019-04-10 This book unpacks recent changes in the landscape of literature and language teaching and aims to find new explanations for the altered relationships between readers and writers, the democratisation of authorship, and the emergence of new ways of using language. By examining topics as various as literature and technology, multimodality, and new Englishes, the authors take a fresh look at the use of literature as a tool in the teaching of English to second language speakers. More than simply a way of teaching aesthetic and ethical values and rhetorical skills, they argue that literature can also be used to help students to critically evaluate assumptions about society, culture, and power which underpin the

production and reception of texts The book relates theories of language acquisition and literary criticism to examples of literary texts from a wide range of global literature in English and discusses new ways of engaging with it such as transmedia story telling book blogs and slam poetry It will be of interest to language teachers and teacher trainers and to students and scholars of applied linguistics TESOL and digital literacies
