Kaklauskas, Carla Clements, Dan Hocoy, Louis Hoffman, 2016-09-14 Shadows Light Theory Research and Practice in Transpersonal Psychology is a groundbreaking 2 volume series updating many essential topics in transpersonal psychology It builds upon traditional topics to cover vital contemporary transpersonal psychological issues ranging from mindfulness and spirituality through social justice and sexuality The range of contributors is broad diverse and inclusive and will bring the reader on many inward and outward journeys of human growth and potential Volume I is written in a traditional educational style with additional chapters covering cross cultural psychology ecopsychology finding one's voice the evidence based foundation of transpersonal practice ritual and much more This volume includes chapters by established leaders such as Stanley Krippner John Davis Dan Hocoy Pat Luce and Robert Schmidt as well as fresh voices with new perspectives on transpersonal psychology The chapters are readable and personal yet well researched and scholarly These volumes are destined to become seminal texts in the field      **Secular Spirituality** Harald Walach, 2014-09-18 This book discusses spirituality as an emerging scientific topic from a historical perspective with extensive discussion of the mind body problem and of scientific concepts of consciousness While the book focuses on the Western tradition of Enlightenment it also implicitly addresses the double meaning of the term with the Eastern tradition describing it as a state of true knowledge which is an important goal on an individual's spiritual path and the Western tradition seeing it as the collective process of getting rid of narrow minded dogmas and concepts The book is based on a simple yet challenging premise Science has not gone far enough in the scientific process of going from a collective mind tied up in dogmatic teachings to a truly free mind that seemingly freed itself from bondage and restrictions The book shows that science and with it our whole Western culture has to incorporate spirituality if it is to realize this goal of enlightenment If that is done and it can only be done by many individuals actually practicing spirituality this will also lead to the individual type of enlightenment      *Mysticism and Meaning: Multidisciplinary Perspectives* Alex S. Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism's meaning through pertinent up to date multidisciplinary The discussion commences with Editor's Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity's origins being steeped in mystical praxis and four essays highlight mysticism's formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and

Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy's relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States

*Swami Vivekananda's Vedāntic Cosmopolitanism* Swami Medhananda, 2022 Swami Vivekananda the nineteenth century Hindu monk who introduced Vedanta to the West is undoubtedly one of modern India's most influential philosophers Unfortunately his philosophy has too often been interpreted through reductive hermeneutic lenses Typically scholars have viewed him either as a modern day exponent of Sankara's Advaita Vedanta or as a Neo Vedantin influenced more by Western ideas than indigenous Indian traditions In Swami Vivekananda's Vedāntic Cosmopolitanism Swami Medhananda rejects these prevailing approaches to offer a new interpretation of Vivekananda's philosophy highlighting its originality contemporary relevance and cross cultural significance Vivekananda the book argues is best understood as a cosmopolitan Vedantin who developed novel philosophical positions through creative dialectical engagement with both Indian and Western thinkers Inspired by his guru Sri Ramakrishna

Vivekananda reconceived Advaita Vedanta as a nonsectarian life affirming philosophy that provides an ontological basis for religious cosmopolitanism and a spiritual ethics of social service. He defended the scientific credentials of religion while criticizing the climate of scientism beginning to develop in the late nineteenth century. He was also one of the first philosophers to defend the evidential value of supersensuous perception on the basis of general epistemic principles. Finally, he adopted innovative cosmopolitan approaches to long standing philosophical problems. Bringing him into dialogue with numerous philosophers past and present, Medhananda demonstrates the sophistication and enduring value of Vivekananda's views on the limits of reason, the dynamics of religious faith, and the hard problem of consciousness. *British Literature and Spirituality* Franz Karl Wöhrer, John S. Bak, 2013. This book reflects the current state of research in the field of the spiritual in British literature where spirituality is understood as a culturally determined universal phenomenon or a factuality of humanity consisting of the living apprehension of the Sacred during rare gratuitous moments of illumination. With critical essays by scholars working in various disciplines: English studies, music, the arts, psychology, theology, etc., the book explores a corpus of encoded narratives of as well as reflections on the Sacred in British literature from the Late Middle Ages to the present. Multi-disciplinary in nature and interdisciplinary in method, *British Literature and Spirituality* illustrates the hermeneutic potential of readings that transcend the disciplinary boundaries of spiritual writings. Series: Austria Forschung und Wissenschaft, Literatur und Sprachwissenschaft, Austria Research and Science, Literature and Linguistics, Vol. 24.

Participation and the Mystery Jorge N. Ferrer, 2017-04-12. A groundbreaking and hopeful new look at contemporary spirituality, transpersonal psychology, integral education, and religious diversity and pluralism. *Participation and the Mystery* is both an introduction to and expansion of Jorge N. Ferrer's groundbreaking work on participatory spirituality, which holds that human beings are active cocreators of spiritual phenomena, worlds, and even ultimates. After examining the impact of his work since the publication of *Revisioning Transpersonal Theory*, Ferrer discusses the relationship between science and transpersonal psychology, the nature of a fully embodied spirituality, and the features of integral spiritual practice. The book also introduces a participatory philosophy of education and applies it to the academic teaching of mysticism and a novel approach to embodied spiritual inquiry. Critically engaging the influential work of Stanislov Grof, Ken Wilber, and A. H. Almaas, Ferrer concludes with an original solution to the problem of religious pluralism that affirms the ontological richness of religious worlds while avoiding the extremes of perennialism and contextualism, offering a hopeful vision for the future of world religion. *Participation and the Mystery* is an invaluable resource to anyone seeking to deepen their understanding of participatory approaches to transpersonal psychology, integral and contemplative education, contemporary spirituality, and religious studies. In *Participation and the Mystery*, we are given the opportunity to dive into the engaging, provocative, and stunningly erudite thought of Jorge N. Ferrer, arguably one of the premier transpersonal theorists of our time. Building on the key essays written after the publication of his seminal work *Revisioning Transpersonal Theory*, Ferrer shows us how his

compelling and extremely fertile participatory model can be applied with intriguing and rewarding results to multiple highly distinct fields of discourse Read this book if you want your worldview to be both challenged and enriched G William Barnard author of *Living Consciousness The Metaphysical Vision of Henri Bergson* Ferrer is a leading figure in transpersonal psychology His participatory perspective explains both the deep commonalities and the creative diversity of spiritual traditions It provides a way to understand the general phenomenon of spirituality without falling prey to ideological dogmatism or the tendency to privilege one's own spiritual tradition or practice over others Ferrer's work deserves to be widely read Michael Washburn author of *Transpersonal Psychology in Psychoanalytic Perspective* This is an important collection of essays from one of the leading contemporary thinkers in transpersonal studies Ferrer's participatory approach represents the most significant development in transpersonal theory and practice to have emerged this century and this book is the ideal introduction to Ferrer's work It will become required reading for all students of transpersonal psychology as well as for anyone seeking to deepen their understanding of transformational practice transpersonal education spirituality and religion Michael Daniels author of *Shadow Self Spirit Essays in Transpersonal Psychology* Rich and thought provoking this book ranges widely through Ferrer's reflections on the participatory worldview in relation to psychology education and religion Andrew O Fort Texas Christian University      [Philosophy of Mysticism](#) Richard H. **Metamorphosis through Conscious Living** Ingo B. Jahrsetz, Lindy McMullin, 2017-08-21 Metamorphosis the theme of this book derives from the Ancient Greek language and refers to a transformative process that often includes disintegration and reintegration on the route to conscious living with self community and the world This collection proposes that engagement with the sacred is what makes research and practice transpersonal the sacred other that lives both within and beyond us as individuals and unique cultures The transpersonal approach is distinctive in that it regards the potential metamorphosis of all those involved in research and professional practice a core value This volume engages the audience in professional practical as well as inquiry related topics that reflect the diverse nature of the transpersonal studies field and extend an experience of metamorphosis to the reader The book moves scholarship forward in an innovative and creative way with relevant themes that not only honour the sacred but lend a transpersonal paradigm to scientific and professional methods and models
